Colorado River Basin study

1 message

Wed, Mar 6, 2013 at 7:56 AM

To: ColoradoRiverBasinStudy@usbr.gov

To Whom It May Concern:

I hope the Bureau of Reclamation will use the information from the Colorado River Basin Study to make decisions that will protect the water supply of the river, to protect the ecosystems along the river and to protect our National Parks. Water is a scarce resource in the west, and non-commercial resources need water as much as developing industry.

Sincerely,

Ann Johnson
