

**Colorado River Basin Stakeholders *Moving Forward*  
to Address Challenges Identified in the Colorado River  
Basin Water Supply and Demand Study**

**Phase 1 Report**

A Product of the *Moving Forward* Effort

**Colorado River Basin Stakeholders *Moving Forward*  
to Address Challenges Identified in the Colorado River  
Basin Water Supply and Demand Study**

**Phase 1 Report**

A Product of the *Moving Forward* Effort

# Acknowledgement

Funding provided by the Bureau of Reclamation and the seven Colorado River Basin States for Phase 1 of the *Moving Forward* effort and the generous contributions of time and expertise by stakeholders made the development of this Phase 1 Report possible.

## Participating Members:

### Federal Agencies

- Bureau of Reclamation
- National Park Service
- U.S. Fish and Wildlife Service
- U.S. Forest Service
- U.S. Geological Survey
- Western Area Power Administration

### State Agencies/Organizations

- Arizona Department of Water Resources
- Arizona Public Service
- California Department of Water Resources
- Colorado River Board of California
- Colorado River Commission of Nevada
- Colorado Water Conservation Board
- New Mexico Interstate Stream Commission
- New Mexico Office of the State Engineer
- Upper Colorado River Commission
- Utah Associated Municipal Power Systems
- Utah Department of Natural Resources
- Utah Division of Water Resources
- Wyoming State Engineer's Office

### Municipal Agencies/Organizations

- City of Cheyenne Board of Public Utilities
- City of Flagstaff
- City of Santa Fe
- Colorado Springs Utilities
- Los Angeles Department of Water & Power

### Water/Energy Providers

- Albuquerque-Bernalillo County Water Utility Authority
- Central Arizona Project
- Coachella Valley Water District
- Colorado River Water Conservation District
- Denver Water
- Eastern Municipal Water District
- Green River - Rock Springs - Sweetwater County Joint Powers Water Board
- Imperial Irrigation District
- Jordan Valley Water Conservancy District

- Maricopa-Stanfield Irrigation & Drainage District
- Northern Colorado Water Conservancy District
- Palo Verde Irrigation District
- Public Service Company of New Mexico
- Salt River Project
- San Diego County Water Authority
- San Juan Water Commission
- Southeastern Colorado Water Conservancy District
- Southern Nevada Water Authority
- The Metropolitan Water District of Southern California
- Wellton-Mohawk Irrigation & Drainage District

### Federally-Recognized Tribes

- Colorado River Indian Tribes
- Ten Tribes Partnership

### Non-governmental Organizations

- American Rivers
- American Whitewater
- Arizona Municipal Water Users Association
- Colorado River Energy Distributors Association
- Colorado Water Users
- Environmental Defense Fund
- Family Farm Alliance
- Front Range Water Council
- National Parks Conservation Association
- National Young Farmers Coalition
- Rio Grande Restoration
- The Nature Conservancy
- Theodore Roosevelt Conservation Partnership
- Trout Unlimited
- Yuma County Agricultural Water Coalition

### Universities

- Colorado State University

### Others

- CH2M HILL
- Squire, Sanders & Dempsey LLP
- Zebre Law Offices

# Disclaimer

The *Moving Forward* effort was funded jointly by the Bureau of Reclamation and the seven Colorado River Basin States and is a collaborative product of the Coordination Team and Workgroup members listed at the start of Chapters 2, 3, 4, and 5 of this report. The purpose of the effort is to build on the critical investigations in the 2012 Colorado River Basin Water Supply and Demand Study related to the range of potential strategies to address projected future supply and demand imbalances. This report does not provide recommendations or represent a statement of policy or position of the Bureau of Reclamation, the Department of the Interior, the funding partners, or other participants. The report does not propose or address the feasibility of any specific project, program or plan. Nothing in the report is intended, nor shall the report be construed, to interpret, diminish, or modify the rights of any participant under applicable law. Nothing in the report represents a commitment for provision of federal funds.

# Contents

	Page
<b>Chapter 1 – Introduction</b>	
1.1 Overview of the Colorado River Basin.....	1-2
1.2 Future Conditions and the Need for Future Action .....	1-4
1.3 References .....	1-5
<b>Chapter 2 - The <i>Moving Forward</i> Effort</b>	
2.1 Phase 1 Workgroups.....	2-1
2.2 Efforts Led by Basin States and the Bureau of Reclamation .....	2-3
2.3 References .....	2-5
<b>Chapter 3 - Municipal and Industrial Water Conservation and Reuse</b>	
3.1 Introduction .....	3-1
3.2 Background on Municipal and Industrial Water Conservation and Reuse Considered in the Basin Study.....	3-1
3.3 Workgroup Objectives and Approach.....	3-2
3.4 Municipal and Industrial Water Use in Areas that Receive Colorado River Water .....	3-7
3.5 Municipal and Industrial Water Conservation and Reuse Programs and Practices ...	3-33
3.6 Planned Conservation and Reuse .....	3-44
3.7 Opportunities and Challenges for Expanding Successful Conservation and Reuse Programs .....	3-52
3.8 Summary.....	3-61
3.9 References .....	3-64
<b>Appendices</b>	
3A Municipal and Industrial Water Provider Data Collection Summary: Historical Water Use	
3B Innovative Municipal and Industrial Water Conservation and Reuse Programs Summary	
3C State and Federal Water Conservation Programs	
<b>Chapter 4 - Agricultural Water Conservation, Productivity, and Transfers</b>	
4.1 Introduction .....	4-1
4.2 Background on Agricultural Water Conservation Considered in the Basin Study.....	4-1
4.3 Workgroup Objectives and Approach.....	4-2
4.4 Agricultural Water Use in Areas Receiving Colorado River Water .....	4-6
4.5 Agricultural Water Programs and Practices .....	4-18
4.6 Water Conservation, Productivity, and Water Transfer Case Studies.....	4-22
4.7 Effects on Water Use from Existing Programs and Practices .....	4-29
4.8 Planned and Potential Future Conservation and Transfer Programs and Projects .....	4-30
4.9 Opportunities and Challenges for Expanding Successful Conservation and Transfer Programs .....	4-34
4.10 Summary and Key Findings .....	4-42
4.11 References .....	4-43

**Appendices**

- 4A Planning Area Data
- 4B Case Studies
- 4C Productivity, Hydrologic Conditions, and Consumptive Use
- 4D Historical Agricultural Conservation and Transfer Programs
- 4E Sub-Team Activities

**Chapter 5 - Environmental and Recreational Flows**

5.1	Introduction .....	5-1
5.2	Background on Environmental and Recreational Flows Considered in the Basin Study .....	5-1
5.3	Workgroup Objectives and Approach .....	5-3
5.4	Ecological, Recreational, and Hydropower Resources in the Colorado River Basin .....	5-6
5.5	Focus Reach Selection Process .....	5-12
5.6	Focus Reach Assessment .....	5-14
5.7	Existing Ecological, Recreational, and Hydropower Programs .....	5-23
5.8	Opportunities and Challenges for Expanding Environmental and Recreational Flows Programs .....	5-28
5.9	Summary .....	5-38
5.10	References .....	5-39

**Appendices**

- 5A Focus Reach Selection Process
- 5B Existing Ecological, Recreational, and Hydropower Programs

**Chapter 6 - Summary and Next Steps**

6.1	Summary of Workgroup Key Messages and Findings .....	6-2
6.2	Summary of Opportunities and Potential Future Actions .....	6-2
6.3	Moving Forward Next Steps .....	6-4
