Subject: Comment on Colorado River drought plan

Dear Sir or Madam,

I have not had time to read the plan but I did want to comment on it.

I live in the Phoenix area. The future water shortage situation has been talked about for years here but nothing has been done about it. Arizona and Nevada are two of the biggest growth areas in the nation. Arizona has the added burden of illegal aliens pouring in along with the people from other parts of the U.S.. This crazy growth has to stop or at least slow down. We are going to have enough problems sharing the water with the existing population.

I realize this is a state issue, not a federal issue, but nobody from the governor on down wants to talk about it I guess because growth means money to the various state and local governments and their buddies. The builders are just going nuts out here and absolutely nobody wants to

slow them down. The Phoenix area could someday be the biggest ghost town in the world.

The repercussions would be devastating. Is there any way to talk some sense into these representatives from Arizona to start looking into growth control?

Thanks for letting me rant,
Totally Frustrated Mike
