

San Diego Basin Study Public Meeting

October 24th, 2018 9 am – 12 pm

MOC II Auditorium 9192 Topaz Way, San Diego, CA 92123

Dial in Number: 1 (786) 535-3211 Access Code: 266-874-125

GoToMeeting Access: <https://global.gotomeeting.com/join/266874125>

At this meeting, the technical team will present the results and conclusions of Task 2.4 of the Basin Study, which analyzes how Portfolios of adaptation Concepts may affect water delivery, energy, recreation, and flood control under conditions of changing climate and water demand. Stakeholders will have an opportunity to discuss and ask questions about the findings.

The Basin Study evaluates the potential climate change impacts on water supplies and demands within the San Diego Integrated Regional Water Management Program planning region and analyzes structural and non-structural concepts within the San Diego Basin that can assist the region in adapting to the uncertainties associated with climate change. More information on the Basin Study can be found at <https://www.usbr.gov/lc/socal/basinstudies/SDBasin.html>.
