Ms. Susan Black
5-Mile Zone, D-8580
Bureau of Reclamation
P.O.Box 25007
Denver, Colorado 80225

October 31, 2003

Dear Ms. Black,

Enclosed are the following documents that are attachments to the comment letter submitted October 10, 2003.

1. Yuma Auxiliary Field (AUX-2) Air Installation Compatible Use Zone (AICUZ). Regulations; this is a noise exposure and compatibility overlay zone that regulates development standards and it affects the most northwest portion of the 5-Mile Zone. The Yuma Auxiliary Field-2 (AUX-2) Air Installation is used by the military for aircraft and vehicle operations. A copy of the regulations and noise overlay map is attached for information purposes. The military operations effect the 5-Mile Zone because noise from explosions, vibrations and high energy and electronic emitters does affect the "nature experience" that some recreationists go to the 5 Mile Zone for.
2. Yuma County hazard Abatement Procedure. A copy of the regulations that Yuma county currently uses to regulate hazards to public health such as rubbish, trash, weeds, filth debris or dilapidated buildings. This regulation was enacted due to the illegal dumping occurring throughout the county.

Also, enclosed is my business card and the Yuma County website card if you need any additional information please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Gail Gallagher".
