Subject: RE: Request for Modified Order - Minimum Allowable Diversion

Les, the Department has participated as part of the RTDOT in the development of the request for Modified Order – Minimum Allowable Diversion. The Department concurs with the request to allow the proposed operations during the April-May pulse period. We believe the proposed operations are consistent with the provisions of the Drought Operations Plan and are consistent with the state endangered species act determinations related to the Drought Operations Plan.

Carl Wilcox

Policy Advisor to the Director for the Delta

Subject: RE: Request for Modified Order - Minimum Allowable Diversion

Maria, Dan (Mike), Carl,

Per below, and as we have been discussing at the RTDOT, if you concur with the request please send an email response to Ron's email concurring that this request is consistent with the DOP.

Thanks, Les
