Dear Ron and Les,  
Yes, this request, as it's proposed below, is consistent with our 2008 BiOp. Effects to delta smelt from this action fall within the effects previously analyzed in the BiOp and drought-related amendments.

Best,  
-Larry

Maria, Dan (Mike), Carl,

Per below, and as we have been discussing at the RTDOT, if you concur with the request please send an email response to Ron's email concurring that this request is consistent with the DOP.

Thanks, Les
