I understand there may be a problem opening the attachment in my earlier email so I am sending again with the attachments directly attached, and the body of the attached email below:

On April 18, 2014, the Department of Water Resources (DWR) and U. S. Bureau of Reclamation (Reclamation) submitted a request for modifications to the Order, revised on April 11, 2014, that approved a temporary urgency change in license and permit terms and conditions for the State Water Project and the Central Valley Project requiring compliance with Delta water quality objectives in response to drought conditions (Revised Order). Attached is an April 18, 2014 State Water Board, Executive Director Order modifying the Revised Order in response to DWR and Reclamation's request.

The April 18, 2014 request from DWR and Reclamation and other information concerning this matter are posted on the State Water Board's website at:[http://www.waterboards.ca.gov/waterrights/water\\_issues/programs/drought/tucp.shtml](http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/tucp.shtml).

In order to be fully considered, comments on the April 18, 2014 Order must be submitted by **noon on Monday, April 28, 2014**. Submit comments to State Water Resources Control Board, c/o Michael Buckman, P.O.
