Project Implementation Next Steps

- Record of Decision/Notice of Determination early 2019
- Next several years will focus on engineering, permitting, and real estate actions to implement the selected alternative
- Construction scheduled to begin in 2020 (with clearing and grubbing) and substantial construction in 2021
### Stakeholder Involvement

- **Two-way stakeholder communication is important to Reclamation and DWR**

- **Reclamation and DWR will work during 2019 to develop a long-term process to involve stakeholders in project implementation and adaptive management activities**

- **That process will be developed during 2019 for implementation in 2020**

- **In 2019, Reclamation and DWR would like to continue coordination through the Working Group at project milestones (about 4 meetings per year)**
