

## **APPENDIX 7.5**

### **OPERATING & MAINTENANCE PLANS**

Normally this section would include existing Operating and Maintenance Plans from the current concession operation(s). However, the only current operation that has them is Pleasure Cove because of being recently authorized to operate on an interim basis due to the termination of the previous concessionaire. The Operating and Maintenance Plans for Pleasure Cove are modeled on the Draft Operating and Maintenance Plans already displayed as contract exhibits in this prospectus. Those plans can be reviewed in this prospectus at PART 6 – Exhibit F (Maintenance Plan) and PART 6 – Exhibit G (Operating Plan).

It is important for all bidders to submit a Draft Operating Plan and Draft Maintenance Plan that reflects the components of their unique proposal.
