Reclamation to Hold Lake Berryessa Community Forum Meeting November 4 at the Lake Berryessa Senior Center

NAPA, Calif. – The Bureau of Reclamation will hold the next meeting of the Lake Berryessa Community Forum on Wednesday, Nov. 4, 2015, at the Lake Berryessa Senior Center. Forum meetings are designed to promote public input on recreation opportunities and services at Lake Berryessa.

The public is invited to attend the Forum meeting, which will be held:

Wednesday, November 4, 6-8 p.m.

Lake Berryessa Senior Center
4380 Spanish Flat Loop Road
Napa, CA 94558

At the meeting, Lake Berryessa's new Park Manager, Margaret Bailey, and Warren Kasper, Acting Chief, Recreation Resources Division, will be introduced. Reclamation will provide an overview of the 2015 recreation season; review our partnerships and work accomplished; discuss possible fire rehabilitation projects; and explain where we are in the bid process for new long-term concession contracts. Reclamation received several bids in mid-September, which are still being evaluated. This is a confidential process, and additional information cannot be released until the process is complete. Reclamation will then hold a Forum meeting to update the public on the status of the bids.

To be added to the Lake Berryessa email/mailing lists or to request special assistance to attend the meeting, please contact Janet Sierzputowski, Public Affairs Office, at 916-978-5112 (TTY 800-877-8339) or jsierzputowski@usbr.gov.

Lake Berryessa is managed by Reclamation's Central California Area Office as part of the Solano Project. Additional information is available at <http://www.usbr.gov/mp/ccao/berryessa/index.html>.

###

Reclamation is the largest wholesale water supplier and the second largest producer of hydroelectric power in the United States, with operations and facilities in the 17 Western States. Its facilities also provide substantial flood control, recreation, and fish and wildlife benefits. Visit our website at <http://www.usbr.gov>.
