Bonnie,

I have reviewed the proposed actions to authorize minor construction activities such as the demolition and removal of trailers, decks, stairs, sheds, etc., and all remaining properties at the **Putah Creek Resort**.

I concur the proposed actions do not affect Indian Trust Assets. The nearest ITAs to the proposed site are approximately 18 miles from the location. The two ITA's are the Rumsey Rancheria and it is North of the proposed site, and the Middletown Rancheria and it is NW .

Patricia,

Here is the ARG GIS map that I told you about that includes the seven resort areas at LB. These maps are being included with all the current CEC submissions that have been sent from Lake Berryessa--so far I don't think this has presented any problems on your end. If there is anything else I can do to help out with this effort, please let me know. Thanks. Bonnie
