

Notification

To: Prospective Offerors, Lake Berryessa Concession Prospectus dated May 15, 2009

Reclamation has received a number of requests from prospective offerors for additional information on dates when the six individual concession areas may be made available to a successful offeror, and the expected condition of each site at that time. Reclamation recognizes the importance of this information to offerors in formulating their proposals. For that reason, Reclamation is developing updated projections of site availability and site conditions based upon progress of ongoing clean-up and removal efforts and related actions. We will incorporate this projection in our formal response to questions from prospective offerors and will release that information on or about July 31, 2009 along with a corresponding update to the Prospectus. In order to provide offerors with sufficient time to evaluate Reclamation's projection and to make any desired changes to their proposal(s), the due date for proposals is extended from August 14, 2009 to September 30, 2009.

If you have any questions, please contact Mr. Drew Lessard at (916) 989-7180 or sha-FOO-LBProspectus@usbr.gov.
