

CVPIA Habitat Restoration Program ((b)(1) “other”) FY22 Expenditures

Project	Proposed Activity	Funding
<i>Serpentine Soils Grazing Implementation at Davidson and Baird Ranch Reserves, Morgan Hill, California</i> Santa Clara Valley Habitat Agency	The goals are to improve water supply infrastructure and replace dilapidated perimeter picket fencing with cattle fencing to implement a Grazing Management Plan to reduce severity and extent of invasive plant species, enhance the ecosystem health of grasslands, promote native plant species; and enhance habitat for and increase the abundance and distribution of serpentine-dependent species.	*\$594,401
<i>Boeger Tract Riparian Habitat Restoration</i> The Nature Conservancy	The goals are to: (1) complete project modeling and permitting; (2) replace 51 acres of flood-prone agricultural land with native riparian habitat; and (3) use acoustic monitoring to collect baseline data on riparian songbird species.	**\$60,000 Added to the 2020 grant agreement to cover increased costs for goal (1)
<i>Young Ranch Serpentine Habitat Acquisition on Coyote Ridge</i> Santa Clara Valley Habitat Agency	Acquisition of six parcels totaling 2,150 acres including 670 acres of serpentine grassland habitat supporting bay checkerspot butterflies and their critical habitat, Metcalf Canyon jewelflower, Santa Clara Valley dudleya, CA tiger salamander and CA red-legged frog.	**\$400,000 Completes funding toward the \$1,000,000 grant awarded in FY2021
<i>Continued Recovery Actions for California Red-legged Frog and California Tiger Salamander in Contra Costa County</i> Contra Costa Resource Conservation District	Would restore three livestock ponds that provide breeding habitat for the federally listed CA red-legged frog and CA tiger salamander. The ponds have filled with sediment from natural erosive processes. They would be restored by removing sediment and extending their hydroperiod, thereby increasing habitat availability during the breeding season.	**\$150,000
FY 2022 Allocation \$1,500,000	USFWS BOR	\$653,841 \$846,159
Project Costs	USFWS	\$624,121

Project	Proposed Activity	Funding
Total: \$1,234,121	BOR	\$610,000
Program Operations and Administrative Costs Total: \$265,879	USFWS BOR	\$29,720 \$236,159

*USFWS-funded | **BOR-funded
