7 CONTRACT BETWEEN THE UNITED STATES AND
8 PRINCETON-CODORA-GLENN IRRIGATION DISTRICT,
9 DIVERTER OF WATER FROM SACRAMENTO RIVER SOURCES
10 SETTLING WATER RIGHTS DISPUTES AND
11 PROVIDING FOR PROJECT WATER

12 THIS CONTRACT, hereinafter referred to as "Settlement Contract," is entered into
13 by THE UNITED STATES OF AMERICA, hereinafter referred to as the United States, made
14 this 4th day of March, 2005, pursuant to the applicable authority
15 granted to it generally in the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or
16 supplementary thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844),
17 as amended and supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented,
18 including, but not limited to, Sections 9 and 14 thereto, July 2, 1956 (70 Stat. 483), June 21,
19 1963 (77 Stat. 68), October 12, 1982 (96 Stat. 1263), October 27, 1986 (100 Stat. 3050), as
20 amended, and Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all collectively
21 hereinafter referred to as Federal Reclamation law, and PRINCETON-CODORA-GLENN
22 IRRIGATION DISTRICT, hereinafter referred to as the Contractor, a public agency of the State
23 of California, duly organized, existing, and acting pursuant to the laws thereof, with its principal
24 place of business in California;

25 WITNESSETH, that:

26

EXPLANATORY RECITALS

27 [1st] WHEREAS, the United States has constructed and is operating the Central Valley
28 Project, California, for multiple purposes pursuant to its statutory authority; and

29 [2nd] WHEREAS, the Contractor has rights to divert, is diverting, and will continue to
30 divert for reasonable beneficial use, water from the natural flow of the Sacramento River and
31 tributaries thereto, that would have been flowing therein if the Central Valley Project were not in
32 existence and from the Colusa Basin Drain; and

33 [3rd] WHEREAS, the construction and operation of the integrated and coordinated
34 Central Valley Project has changed and will further change the regimen of the Sacramento,
35 American, San Joaquin, and Trinity Rivers and the Sacramento-San Joaquin Delta from
36 unregulated flow to regulated flow; and

37 [4th] WHEREAS, the United States has rights to divert, is diverting, and will continue
38 to divert waters from said Rivers and said Delta in connection with the operation of said Central
39 Valley Project; and

40 [5th] WHEREAS, the Contractor and the United States had a dispute over the
41 respective rights of the parties to divert and use water from the regulated flow of the Sacramento
42 River which threatened to result in litigation, and as a means to settle that dispute entered into
43 Contract No. 14-06-200-849A, hereinafter referred to as the Existing Contract, which established
44 terms for the delivery to the Contractor of Central Valley Project Water, and the quantities of
45 Base Supply the United States and the Contractor agreed may be diverted by the Contractor from
46 the Sacramento River pursuant to such contract; and

47 [6th] WHEREAS, the United States and the Contractor disagree with respect to the
48 authority of the United States to change the quantities of Base Supply and/or Project Water
49 specified as available for diversion in this Settlement Contract from the quantities specified in
50 the Existing Contract, and other issues related thereto. That dispute was the subject of litigation
51 in a lawsuit entitled *Glenn-Colusa Irrigation District, et al. v. United States, et al.* [Civ. No. S-
52 01-1816 GEB/JFM (E.D. Cal.)], but that litigation was dismissed, without prejudice, pursuant to
53 a stipulation of dismissal filed by the parties thereto on August 29, 2002. Notwithstanding that
54 dismissal, the Contractor and the United States enter into this Settlement Contract to renew the
55 Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and
56 the laws of the State of California; and

57 [7th] WHEREAS, to assure the Contractor of the enjoyment and use of the regulated
58 flow of the said Rivers and the Delta, and to provide for the economical operation of the Central
59 Valley Project by, and the reimbursement to, the United States for expenditures made for said
60 Project.

61 NOW, THEREFORE, in consideration of the performance of the herein contained
62 provisions, conditions, and covenants, it is agreed as follows:

63 DEFINITIONS

64 1. When used herein, unless otherwise expressed or incompatible with the intent
65 hereof, the term:

66 (a) "Base Supply" shall mean the quantity of Surface Water established in
67 Articles 3 and 5, which may be diverted by the Contractor from the Sacramento River each

68 month during the period April through October of each Year without payment to the United
69 States for such quantities diverted;

70 (b) "Basin-Wide Water Management Plan" shall mean the mutually agreeable
71 Sacramento River Basinwide Water Management Plan, dated October 11, 2004, developed by
72 Glenn-Colusa Irrigation District, Maxwell Irrigation District, Natomas Central Mutual Water
73 Company, Pelger Mutual Water Company, Princeton-Codora-Glenn Irrigation District, Provident
74 Irrigation District, Reclamation District 108, Sutter Mutual Water Company, Anderson-
75 Cottonwood Irrigation District, Meridian Farms Water Company, Reclamation District 1004, and
76 the U.S. Bureau of Reclamation;

77 (c) "Charges" shall mean the payments for Project Water that the Contractor
78 is required to pay to the United States in addition to the "Rates" specified in this Settlement
79 Contract. The Contracting Officer will, on an annual basis, determine the extent of these
80 Charges. The type and amount of each Charge shall be specified in Exhibit D;

81 (d) "Contract Total" shall mean the sum of the Base Supply and Project Water
82 available for diversion by the Contractor for the period April 1 through October 31;

83 (e) "Critical Year" shall mean any Year in which either of the following
84 eventualities exists:

85 (1) The forecasted full natural inflow to Shasta Lake for the current
86 Water Year, as such forecast is made by the United States on or before February 15 and reviewed
87 as frequently thereafter as conditions and information warrant, is equal to or less than 3.2 million
88 acre-feet; or

89 (2) The total accumulated actual deficiencies below 4 million acre-feet
90 in the immediately prior Water Year or series of successive prior Water Years each of which had
91 inflows of less than 4 million acre-feet, together with the forecasted deficiency for the current
92 Water Year, exceed 800,000 acre-feet.

93 For the purpose of determining a Critical Year, the computation of inflow to
94 Shasta Lake shall be performed in a manner that considers the extent of upstream development
95 above Shasta Lake during the year in question, and shall be used as the full natural flow to
96 Shasta Lake. In the event that major construction has occurred or occurs above Shasta Lake after
97 September 1, 1963, and which has materially altered or alters the regimen of the stream systems
98 contributing to Shasta Lake, the computed inflow to Shasta Lake used to define a Critical Year
99 will be adjusted to eliminate the effect of such material alterations. After consultation with the
100 State of California, the National Weather Service, and other recognized forecasting agencies, the
101 Contracting Officer will select the forecast to be used and will make the details of it available to
102 the Contractor. The same forecasts used by the United States for the operation of the Project
103 shall be used to make the forecasts hereunder;

104 (f) “CVPIA” shall mean the Central Valley Project Improvement Act, Title
105 XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

106 (g) “Eligible Lands” shall mean all lands to which Project Water may be
107 delivered in accordance with Section 204 of the Reclamation Reform Act of October 12, 1982
108 (96 Stat. 1263), as amended, hereinafter referred to as RRA;

109 (h) “Excess Lands” shall mean all lands in excess of the limitations contained
110 in Section 204 of the RRA, other than those lands exempt from acreage limitation under Federal
111 Reclamation law;

112 (i) “Full Cost Rate” shall mean that water rate described in Sections 205(a)(3)
113 or 202(3) of the RRA, whichever is applicable;

114 (j) “Ineligible Lands” shall mean all lands to which Project Water may not be
115 delivered in accordance with Section 204 of the RRA;

116 (k) “Landholder” shall mean a party that directly or indirectly owns or leases
117 nonexempt land, as provided in 43 CFR 426.2;

118 (l) “Project” shall mean the Central Valley Project owned by the United
119 States and managed by the Department of the Interior, Bureau of Reclamation;

120 (m) “Project Water” shall mean all Surface Water diverted or scheduled to be
121 diverted each month during the period April through October of each Year by the Contractor
122 from the Sacramento River which is in excess of the Base Supply. The United States recognizes
123 the right of the Contractor to make arrangements for acquisition of water from projects of others
124 than the United States for delivery through the Sacramento River and tributaries subject to
125 written agreement between Contractor and the United States as to identification of such water
126 which water when so identified shall not be deemed Project Water under this Settlement
127 Contract;

128 (n) “Rates” shall mean the payments for Project Water determined annually
129 by the Contracting Officer in accordance with the then current applicable water ratesetting
130 policies for the Project, as described in subdivision (a) of Article 8 of this Settlement Contract;

131 (o) "Secretary" or "Contracting Officer" shall mean the Secretary of the
132 Interior, a duly appointed successor, or an authorized representative acting pursuant to any
133 authority of the Secretary and through any agency of the Department of the Interior;

134 (p) "Surface Water" shall mean only those waters that are considered as
135 surface water under California law;

136 (q) "Water Year" shall mean the period commencing with October 1 of one
137 year and extending through September 30 of the next; and

138 (r) "Year" shall mean a calendar year.

139 TERM OF SETTLEMENT CONTRACT

140 2. (a) This Settlement Contract shall become effective April 1, 2005, and shall
141 remain in effect until and including March 31, 2045; Provided, that under terms and conditions
142 mutually agreeable to the parties hereto, renewals may be made for successive periods not to
143 exceed 40 years each. The terms and conditions of each renewal shall be agreed upon not later
144 than one year prior to the expiration of the then existing Settlement Contract.

145 (b) With respect to Project Water and the portions of this Settlement Contract
146 pertaining thereto, upon written request by the Contractor of the Secretary made not later than
147 one year prior to the expiration of this Settlement Contract, whenever, account being taken of the
148 amount then credited to the costs of construction of water supply works, the remaining amount of
149 construction costs of water supply work which is properly assignable for ultimate return by the
150 Contractor as established by the Secretary of the Interior pursuant to (3) of Section 1 of Public
151 Law 643 (70 Stat. 483), probably can be repaid to the United States within the term of a contract
152 under subsection 9(d) of the 1939 Reclamation Project Act (53 Stat. 1187), the relevant portions

153 of this Settlement Contract may be converted to a contract under said subsection 9(d) upon terms
154 and conditions mutually agreeable to the United States and the Contractor. The Secretary shall
155 make a determination ten years after the date of execution of this Settlement Contract, and every
156 five years thereafter, of whether a conversion to a contract under said subsection 9(d) can be
157 accomplished pursuant to Public Law 643. Notwithstanding any provision of this Settlement
158 Contract, the Contractor reserves and shall have all rights and benefits under Public Law 643.

159 WATER TO BE FURNISHED TO CONTRACTOR

160 3. (a) Subject to the conditions, limitations, and provisions hereinafter
161 expressed, the Contractor is hereby entitled and authorized to divert from the Sacramento River
162 at the locations shown in Exhibit A, for beneficial use within the area delineated on Exhibit B,
163 (both Exhibits are attached hereto and made a part hereof), the Contract Total designated in
164 Exhibit A, or any revision thereof, in accordance with the monthly operating schedule required
165 by Article 3(c) of this Settlement Contract. The quantity of any water diverted under this
166 Settlement Contract from the Sacramento River, during the period April through October, for use
167 on any lands delineated on Exhibit B, by the owner of such lands or otherwise shall constitute a
168 part of the Contract Total as shown on Exhibit A and shall be subject to all the provisions of this
169 Settlement Contract relating to such Contract Total as if such diversion were made by the
170 Contractor. The United States also confirms its prior recognition contained in its letter dated
171 April 3, 1964, to Glenn-Colusa Irrigation District of that certain contract dated June 2, 1953, as
172 supplemented by July 16, 1954, among the Contractor and Glenn-Colusa Irrigation District,
173 Compton-Delevan Irrigation District, Maxwell Irrigation District, Provident Irrigation District,

174 Jacinto Irrigation District, and Reclamation District No. 2047, commonly referred to as the Five-
175 Party Agreement.

176 (b) The Contractor may have acquired rights to divert water from the
177 Sacramento River during the period April through October, that were obtained after the date of
178 execution of the Existing Contract, or the Contractor may acquire such rights in the future. All
179 diversions made from the Sacramento River, pursuant to such rights, during the period April
180 through October, shall not be considered a part of the quantity of Base Supply and Project Water
181 specified in Exhibit A; Provided, that the quantities diverted pursuant to the above rights shall be
182 identified on the schedule submitted pursuant to Article 3(c) below, and shall not be substituted
183 for any Base Supply or Project Water; Provided, further, that any such identified quantities of
184 other acquired rights may be diverted by the Contractor before incurring any fee pursuant to
185 Article 3(c)(1), below.

186 (c) Before April 1 and before the first day of each month thereafter when a
187 revision is needed, the Contractor shall submit a written schedule to the Contracting Officer
188 indicating the Contract Total to be diverted by the Contractor during each month under this
189 Settlement Contract. The United States shall furnish water to the Contractor in accordance with
190 the monthly operating schedule or any revisions thereof. However, the United States recognizes
191 the need of the Contractor to change from time to time its monthly diversions of water from the
192 quantities shown in Exhibit A; the Contractor may make such changes, provided:

193 (1) that for the quantity of Base Supply diverted in excess of the
194 monthly quantity shown in Exhibit A, and as may be reduced in accordance with Article 5(a),
195 during June, July, August, September, and October of any Water Year, the Contractor shall be

196 charged a rescheduling fee equal to 50 percent of the sum of the storage operations and
197 maintenance rate and the storage capital rate components of the Project ratesetting policy.

198 (2) that in no event shall the total quantity scheduled for diversion by
199 the Contractor from the Sacramento River:

200 (i) During the period April through October exceed the
201 aggregate of the Contract Total for that period shown in Exhibit A or any revision
202 thereof;

203 (ii) During the period July through September exceed the
204 aggregate of the Contract Total for that period shown in Exhibit A or any revision
205 thereof.

206 (d) In the event conditions warrant, the Contracting Officer reserves the right
207 to require the Contractor to submit, at least 72 hours prior to the beginning of each weekly
208 period, its estimate of daily diversion requirements for each such period from the Sacramento
209 River; Provided, however, that changes during any such period may be made upon the giving of
210 72 hours' notice thereof to the Contracting Officer.

211 (e) No sale, transfer, exchange, or other disposal of any of the Contract Total
212 designated in Exhibit A or the right to the use thereof for use on land other than that shown on
213 Exhibit B shall be made by the Contractor without first obtaining the written consent of the
214 Contracting Officer. Such consent will not be unreasonably withheld and a decision will be
215 rendered in a timely manner. For short-term actions that will occur within one year or less, the
216 decision will be rendered within 30 days after receipt of a complete written proposal. For long-
217 term actions that will occur in a period longer than one year, the decision will be rendered within

218 90 days after receipt of a complete written proposal. For a proposal to be deemed complete by
219 the Contracting Officer, it must comply with all provisions required by State and Federal law,
220 including information sufficient to enable the Contracting Officer to comply with the National
221 Environmental Policy Act, the Endangered Species Act, and applicable rules or regulations then
222 in effect; Provided, that such consent does not authorize the use of Federal facilities to facilitate
223 or effectuate the sale, transfer, exchange, or other disposal of Base Supply. Such use of Federal
224 facilities will be the subject of a separate agreement to be entered into between the Contractor
225 and Reclamation.

226 (f) For the purpose of determining whether Section 3405(a)(1)(M) of the
227 CVPIA applies to the Contractor as a transferor or transferee of Project Water, the Contracting
228 Officer acknowledges that the Contractor is within a county, watershed, or other area of origin,
229 as those terms are utilized under California law.

230 (g) Nothing herein contained shall prevent the Contractor from diverting
231 water during the months of November through March for beneficial use on the land shown on
232 Exhibit B or elsewhere to the extent authorized under the laws of the State of California.

233 (h) The United States assumes no responsibility for and neither it nor its
234 officers, agents, or employees shall have any liability for or on account of:

- 235 (1) The quality of water to be diverted by the Contractor;
- 236 (2) The control, carriage, handling, use, disposal, or distribution of
237 water diverted by the Contractor outside the facilities constructed and then being operated and
238 maintained by or on behalf of the United States;

239 (3) Claims of damage of any nature whatsoever, including but not
240 limited to, property loss or damage, personal injury, or death arising out of or connected with the
241 control, carriage, handling, use, disposal, or distribution of said water outside of the hereinabove
242 referred to facilities; and

243 (4) Any damage whether direct or indirect arising out of or in any
244 manner caused by a shortage of water whether such shortage be on account of errors in
245 operation, drought, or unavoidable causes.

246 (i) In addition to the provisions of subdivision (h) of Article 3 of this
247 Contract, if there is a shortage of Project Water because of actions taken by the Contracting
248 Officer to meet legal obligations then, except as provided in subdivision (a) of Article 30 of this
249 Contract, no liability shall accrue against the United States or any of its officers, agents, or
250 employees for any damage, direct or indirect, arising therefrom.

251 RETURN FLOW

252 4. Nothing herein shall be construed as an abandonment or a relinquishment by the
253 United States of any right it may have to the use of waste, seepage, and return flow water derived
254 from water diverted by the Contractor hereunder and which escapes or is discharged beyond the
255 boundaries of the lands shown on Exhibit B; Provided, that this shall not be construed as
256 claiming for the United States any right to such water which is recovered by the Contractor
257 pursuant to California law from within the boundaries of the lands shown on Exhibit B or at any
258 location in the Colusa Basin Drain north of Township 17 North, M.D.B.&M., and which is being
259 used pursuant to this Settlement Contract for surface irrigation or underground storage for the
260 benefit of the lands shown on Exhibit B by the Contractor.

261 CONSTRAINTS ON THE AVAILABILITY OF WATER

262 5. (a) In a Critical Year, the Contractor's Base Supply and Project Water agreed
263 to be diverted during the period April through October of the Year in which the principal portion
264 of the Critical Year occurs and, each monthly quantity of said period shall be reduced by
265 25 percent.

266 (b) The amount of any overpayment by the Contractor shall, at its option, be
267 refunded or credited upon amounts to become due to the United States from the Contractor under
268 the provisions hereof in the ensuing Year. To the extent of such deficiency such adjustment of
269 overpayment shall constitute the sole remedy of the Contractor.

270 INTEGRATED WATER MANAGEMENT AND PARTNERSHIPS

271 6. The Contractor and United States desire to work together to maximize the
272 reasonable beneficial use of water for their mutual benefit. As a consequence, the United States
273 and the Contractor will work in partnership and with others within the Sacramento Valley,
274 including other contractors, to facilitate the better integration within the Sacramento Valley of all
275 water supplies including, but not limited to, the better management and integration of surface
276 water and groundwater, the development and better utilization of surface water storage, the
277 effective utilization of waste, seepage and return flow water, and other operational and
278 management options that may be identified in the future.

279 USE OF WATER FURNISHED TO CONTRACTOR

280 7. (a) Project Water furnished to the Contractor pursuant to this Settlement
281 Contract shall not be delivered or furnished by the Contractor for any purposes other than
282 agricultural purposes without the written consent of the Contracting Officer. For purposes of this

283 Settlement Contract, "agricultural purposes" includes, but is not restricted to, the irrigation of
284 crops, the watering of livestock, incidental domestic use including related landscape irrigation,
285 and underground water replenishment.

286 (b) The Contractor shall comply with requirements applicable to the
287 Contractor in biological opinion(s) prepared as a result of a consultation regarding the execution
288 of this Settlement Contract undertaken pursuant to Section 7 of the Endangered Species Act of
289 1973, as amended, that are within the Contractor's legal authority to implement. The Existing
290 Contract, which evidences in excess of 40 years of diversions, for agricultural uses, of the
291 quantities of water provided for in Article 3, and the underlying water rights of the Contractor
292 will be considered in developing an appropriate base-line for the Biological Assessment prepared
293 pursuant to the Endangered Species Act, and in any other needed environmental review.
294 Nothing herein shall be construed to prevent the Contractor from challenging or seeking judicial
295 relief in a court of competent jurisdiction with respect to any biological opinion or other
296 environmental documentation referred to in this Article.

297 RATE AND METHOD OF PAYMENT FOR WATER

298 8. (a) The Contractor shall make payments to the United States as provided in
299 this Article for all Project Water shown in Exhibit A as follows:

300 (1) 75 percent of the amount shown as Project Water shall be paid for
301 by the Contractor in each Year; and in addition

302 (2) the Contractor shall pay for Project Water actually diverted in
303 excess of 75 percent of the amount shown as Project Water.

304 Such payments shall be at Rates and Charges established in accordance with: (i) the
305 Secretary's then-current ratesetting policies for the Project; and (ii) applicable Reclamation law
306 and associated rules and regulations, or policies; Provided, that if the Contractor desires to use
307 Project Water for other than agricultural purposes the Rates and Charges set forth above will be
308 adjusted by the Contracting Officer to the applicable Rates and Charges for such purposes. The
309 Rates and Charges applicable to the Contractor upon execution of this Settlement Contract are
310 set forth in Exhibit D, as may be revised annually. The Secretary's ratesetting policies for the
311 Project shall be amended, modified, or superseded only through a public notice and comment
312 procedure. The Contracting Officer shall adjust the amount of Project Water for which payment
313 is required to the extent of any reduction in diversions of Project Water made in accordance with
314 the water conservation provisions of Article 29(e).

315 (b) The Contracting Officer shall notify the Contractor of the Rates and
316 Charges as follows:

317 (1) Prior to July 1 of each Year, the Contracting Officer shall provide
318 the Contractor an estimate of the Charges for Project Water that will be applied to the period
319 October 1, of the current Year, through September 30, of the following Year, and the basis for
320 such estimate. The Contractor shall be allowed not less than two months to review and comment
321 on such estimates. On or before September 15 of each Year, the Contracting Officer shall notify
322 the Contractor in writing of the Charges to be in effect during the period October 1 of the current
323 Year, through September 30, of the following Year, and such notification shall revise Exhibit D.

324 (2) Prior to October 1 of each Year, the Contracting Officer shall make
325 available to the Contractor an estimate of the Rates for Project Water for the following Year and

326 the computations and cost allocations upon which those Rates are based. The Contractor shall be
327 allowed not less than two months to review and comment on such computations and cost
328 allocations. By December 31 of each Year, the Contracting Officer shall provide the Contractor
329 with the final Rates to be in effect for the upcoming Year, and such notification shall revise
330 Exhibit D.

331 (c) The Contractor shall pay the United States for Project Water in the
332 following manner:

333 (1) With respect to Rates, prior to May 1 of each Year, the Contractor
334 shall pay the United States one-half the total amount payable pursuant to subdivision (a) of this
335 Article and the remainder shall be paid prior to July 1 or such later date or dates as may be
336 specified by the United States in a written notice to the Contractor; Provided, however, that if at
337 any time during the Year the amount of Project Water diverted by the Contractor shall equal the
338 amount for which payment has been made, the Contractor shall pay for the remaining amount of
339 such water as shown in Exhibit A in advance of any further diversion of Project Water.

340 (2) With respect to Charges, the Contractor shall also make a payment
341 to the United States, in addition to the Rate(s) in subdivision (c)(1) of this Article, at the Charges
342 then in effect, before the end of the month following the month of delivery or transfer. The
343 payments shall be consistent with the quantities of Project Water delivered or transferred.
344 Adjustment for overpayment or underpayment of Charges shall be made through the adjustment
345 of payments due to the United States for Charges for the next month. Any amount to be paid for
346 past due payment of Charges shall be computed pursuant to Article 13 of this Settlement
347 Contract.

348 (d) Payments to be made by the Contractor to the United States under this
349 Settlement Contract may be paid from any revenues available to the Contractor. All revenues
350 received by the United States from the Contractor relating to the delivery of Project Water or the
351 delivery of non-Project Water through Project facilities shall be allocated and applied in
352 accordance with Federal Reclamation law and the associated rules or regulations, and the then
353 current Project ratesetting policies for irrigation water.

354 (e) The Contracting Officer shall keep its accounts pertaining to the
355 administration of the financial terms and conditions of its long-term water service and Settlement
356 Contracts, in accordance with applicable Federal standards, so as to reflect the application of
357 Project costs and revenues. The Contracting Officer shall, each Year upon request of the
358 Contractor, provide to the Contractor a detailed accounting of all Project and Contractor expense
359 allocations, the disposition of all Project and Contractor revenues, and a summary of all water
360 delivery information. The Contracting Officer and the Contractor shall enter into good faith
361 negotiations to resolve any discrepancies or disputes relating to accountings, reports, or
362 information.

363 (f) The parties acknowledge and agree that the efficient administration of this
364 Settlement Contract is their mutual goal. Recognizing that experience has demonstrated that
365 mechanisms, policies, and procedures used for establishing Rates and Charges and/or for making
366 and allocating payments, other than those set forth in this Article may be in the mutual best
367 interest of the parties, it is expressly agreed that the parties may enter into agreements to modify
368 the mechanisms, policies, and procedures for any of those purposes while this Settlement
369 Contract is in effect without amendment of this Settlement Contract.

370 (g) For the term of this Settlement Contract, Rates under the respective
371 ratesetting policies for the Project will be established to recover only reimbursable operation and
372 maintenance (including any deficits) and capital costs of the Project, as those terms are used in
373 the then current Project ratesetting policies, and interest, where appropriate, except in instances
374 where a minimum Rate is applicable in accordance with the relevant Project ratesetting policy.
375 Proposed changes of significance in practices which implement the ratesetting policies for the
376 Project will not be implemented until the Contracting Officer has provided the Contractor an
377 opportunity to discuss the nature, need, and impact of the proposed change. The Contractor
378 retains all rights to challenge the validity of Rates and Charges imposed pursuant to this
379 Settlement Contract, including but not limited to operation and maintenance expenses and
380 operation and maintenance deficits, in an appropriate administrative or judicial proceeding.

381 (h) Except as provided in subsection 3405(a)(1)(B) of the CVPIA, the Rates
382 for Project Water transferred, exchanged, or otherwise disposed of, by the Contractor shall be the
383 Contractor's Rates adjusted upward or downward to reflect the changed costs of delivery (if any)
384 of the transferred, exchanged, or otherwise disposed of Project Water to the transferee's point of
385 delivery in accordance with the then-current ratesetting policies for the Project. Except as
386 provided in subsection 3407(d)(2)(A) of the CVPIA, the Charges for Project Water transferred,
387 exchanged, or otherwise disposed of, by the Contractor shall be the Contractor's Charges
388 specified in Exhibit D. If the Contractor is receiving lower Rates and Charges because of
389 inability to pay and is transferring, exchanging, or otherwise disposing of Project Water to
390 another entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and

391 Charges for transferred, exchanged, or otherwise disposed of Project Water shall be the
392 Contractor's Rates and Charges unadjusted for ability to pay.

393 (i) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting
394 Officer is authorized to adjust determinations of ability to pay every five years.

395 (j) Each payment to be made pursuant to subdivisions (a) and (c) of this
396 Article shall be made at the office of the Bureau of Reclamation, MP Region: Mid-Pacific,
397 P.O. Box 894242, Los Angeles, CA 90189-4242, or at such other place as the United States may
398 designate in a written notice to the said Contractor. Payments shall be made by cash transaction,
399 wire, or any other mechanism as may be agreed to in writing by the Contractor and the
400 Contracting Officer. In the event there should be a default in the payment of the amount due, the
401 delinquent payment provisions of Article 13 shall apply. The Contractor shall not be relieved of
402 the whole or any part of its said obligation by, on account of, or notwithstanding, as the case may
403 be:

404 (1) Its failure, refusal, or neglect to divert 75 percent of the quantity of
405 Project Water shown on Exhibit A;

406 (2) The default in payment to it by any water user of assessments,
407 tolls, or other charges levied by or owing to said Contractor;

408 (3) Any judicial determination that any assessment, toll, or other
409 charge referred to in subsection 8(c)(2) of this Settlement Contract is irregular, void, or
410 ineffectual; or

411 (4) Any injunctive process enjoining or restraining the Contractor
412 from making or collecting any such assessment, toll, or other charge referred to in subsection
413 8(c)(2) of this Settlement Contract.

414 AGREEMENT ON WATER QUANTITIES

415 9. (a) During the term of this Settlement Contract and any renewals thereof:

416 (1) It shall constitute full agreement as between the United States and
417 the Contractor as to the quantities of water and the allocation thereof between Base Supply and
418 Project Water which may be diverted by the Contractor from the Sacramento River for beneficial
419 use on the land shown on Exhibit B from April 1 through October 31, which said diversion, use,
420 and allocation shall not be disturbed so long as the Contractor shall fulfill all of its obligations
421 hereunder;

422 (2) Neither party shall claim any right against the other in conflict with
423 the provisions of Article 9(a)(1) hereof.

424 (b) Nothing herein contained is intended to or does limit rights of the
425 Contractor against others than the United States or of the United States against any person other
426 than the Contractor; Provided, however, that in the event the Contractor, the United States, or
427 any other person shall become a party to a general adjudication of rights to the use of water of
428 the Sacramento River system, this Settlement Contract shall not jeopardize the rights or position
429 of either party hereto or of any other person and the rights of all such persons in respect to the
430 use of such water shall be determined in such proceedings the same as if this Settlement Contract
431 had not been entered into, and if final judgment in any such general adjudication shall determine
432 that the rights of the parties hereto are different from the rights as assumed herein, the parties

433 shall negotiate an amendment to give effect to such judgment. In the event the parties are unable
434 to agree on an appropriate amendment they shall, within 60 days of determining that there is an
435 impasse, employ the services of a neutral mediator, experienced in resolving water rights
436 disputes, to assist in resolving the impasse. The cost of the mediation will be shared equally. A
437 failure to reach agreement on an amendment within 60 days of the end of mediation will cause
438 the immediate termination of this Settlement Contract.

439 (c) In the event that the California State Water Resources Control Board or a
440 court of competent jurisdiction issues a final decision or order modifying the terms and
441 conditions of the water rights of either party to this Settlement Contract in order to impose
442 Bay-Delta water quality obligations, the Contractor and the United States shall promptly meet to
443 determine whether or not to modify any of the terms of this Settlement Contract to comply with
444 the final decision or order, including, but not limited to, the applicability of the rescheduling
445 charge in Article 3(c)(1) of this Settlement Contract. If within 60 days of the date of the issuance
446 of the final decision or order the parties are not able to reach agreement regarding either the need
447 to modify this Settlement Contract or the manner in which this Settlement Contract is to be
448 modified, the parties shall promptly retain a neutral mediator, experienced in resolving water
449 right disputes, to assist the parties in resolving their dispute. The cost of the mediator shall be
450 shared equally. In the event that either of the parties to this Settlement Contract determines that
451 the parties will not be able to develop mutually-agreeable modification(s) to this Settlement
452 Contract even with the assistance of a mediator, either of the parties to this Settlement Contract
453 may attempt to resolve the impasse by seeking appropriate judicial relief including, but not
454 limited to, filing a general adjudication of the rights to the use of water in the Sacramento River

455 system. The foregoing provisions of this sub-article shall only apply to the incremental
456 obligations contained within a final decision or order of the State Water Resources Control
457 Board that reflects a modification to the obligations imposed in State Water Resources Control
458 Board Revised Water Rights Decision 1641 dated March 15, 2000, and its associated 1995 Water
459 Quality Control Plan which, taken together, will be considered the baseline for the application of
460 the provisions of this sub-article.

461 (d) In the event this Settlement Contract terminates, the rights of the parties to
462 thereafter divert and use water shall exist as if this Settlement Contract had not been entered into;
463 and the fact that as a compromise settlement of a controversy as to the respective rights of the
464 parties to divert and use water and the yield of such rights during the term hereof, this Settlement
465 Contract places a limit on the Contract Total to be diverted annually by the Contractor during the
466 Settlement Contract term and segregates it into Base Supply and Project Water shall not
467 jeopardize the rights or position of either party with respect to its water rights or the yield thereof
468 at all times after the Settlement Contract terminates. It is further agreed that the Contractor at all
469 times will first use water to the use of which it is entitled by virtue of its own water rights, and
470 neither the provisions of this Settlement Contract, action taken thereunder, nor payments made
471 thereunder to the United States by the Contractor shall be construed as an admission that any part
472 of the water used by the Contractor during the term of this Settlement Contract was in fact water
473 to which it would not have been entitled under water rights owned by it nor shall receipt of
474 payments thereunder by the United States from the Contractor be construed as an admission that
475 any part of the water used by the Contractor during the term of this Settlement Contract was in
476 fact water to which it would have been entitled under water rights owned by it.

477

MEASUREMENT OF WATER

478

10. (a) All water diverted by the Contractor from the Sacramento River will be

479

diverted at the existing point or points of diversion shown on Exhibit A or at such other points as

480

may be mutually agreed upon in writing by the Contracting Officer and the Contractor.

481

(b) All water diverted from the Sacramento River pursuant to this Settlement

482

Contract will be measured or caused to be measured by the United States at each point of

483

diversion with existing equipment or equipment to be installed, operated, and maintained by the

484

United States, and/or others, under contract with and at the option of the United States. The

485

equipment and methods used to make such measurement shall be in accordance with sound

486

engineering practices. Upon request of the Contractor, the accuracy of such measurements will

487

be investigated by the Contracting Officer and any errors appearing therein will be corrected.

488

(c) The right of ingress to and egress from all points of diversion is hereby

489

granted to all authorized employees of the United States. The Contractor also hereby grants to

490

the United States the right to install, operate, maintain, and replace such equipment on diversion

491

or carriage facilities at each point of diversion as the Contracting Officer deems necessary.

492

(d) The Contractor shall not modify, alter, remove, or replace diversion

493

facilities or do any other act which would alter the effectiveness or accuracy of the measuring

494

equipment installed by the United States or its representatives unless and until the Contracting

495

Officer has been notified with due diligence and has been given an opportunity to modify such

496

measuring equipment in such manner as may be necessary or appropriate. In the event of an

497

emergency the Contractor shall notify the United States within a reasonable time thereafter as to

498 the existence of the emergency and the nature and extent of such modification, alteration,
499 removal, or replacement of diversion facilities.

500 (e) The Contractor shall pay the United States for the costs to repair, relocate,
501 or replace measurement equipment when the Contractor modifies, alters, removes, or replaces
502 diversion or carriage facilities.

503 (f) Contractor and Contracting Officer shall develop a mutually agreeable
504 surface water delivery water measurement program which shall be implemented by the
505 Contractor, and such measurement program shall be consistent with the conservation and
506 efficiency criteria for evaluating water conservation plans as provided in Article 29(a).

507 (g) All new surface water delivery systems installed within the lands
508 delineated on Exhibit B after the effective date of this Settlement Contract shall also comply with
509 the measurement provisions described in this Article.

510 RULES AND REGULATIONS

511 11. The parties agree that the delivery of Project Water for irrigation use or use of
512 Federal facilities pursuant to this Settlement Contract is subject to Federal Reclamation law,
513 including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C. 390aa et seq.), as
514 amended and supplemented, and the rules and regulations promulgated by the Secretary of the
515 Interior under Federal Reclamation law.

516 GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

517 12. (a) The obligation of the Contractor to pay the United States as provided in
518 this Settlement Contract is a general obligation of the Contractor notwithstanding the manner in
519 which the obligation may be distributed among the Contractor's water users and notwithstanding
520 the default of individual water users in their obligations to the Contractor.

521 (b) The payment of Charges becoming due hereunder is a condition precedent
522 to receiving benefits under this Settlement Contract. The United States shall not make water
523 available to the Contractor through Project facilities during any period in which the Contractor
524 may be in arrears in the advance payment of water Rates due the United States. The Contractor
525 shall not furnish water made available pursuant to this Settlement Contract for lands or parties
526 which are in arrears in the advance payment of water rates levied or established by the
527 Contractor.

528 (c) With respect to subdivision (b) of this Article, the Contractor shall have no
529 obligation to require advance payment for water Rates which it levies.

530 CHARGES FOR DELINQUENT PAYMENTS

531 13. (a) The Contractor shall be subject to interest, administrative and penalty
532 charges on delinquent installments or payments. When a payment is not received by the due
533 date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond
534 the due date. When a payment becomes 60 days delinquent, the Contractor shall pay an
535 administrative charge to cover additional costs of billing and processing the delinquent payment.
536 When a payment is delinquent 90 days or more, the Contractor shall pay an additional penalty
537 charge of six percent per year for each day the payment is delinquent beyond the due date.
538 Further, the Contractor shall pay any fees incurred for debt collection services associated with a
539 delinquent payment.

540 (b) The interest charge rate shall be the greater of the rate prescribed quarterly
541 in the Federal Register by the Department of the Treasury for application to overdue payments,
542 or the interest rate of one-half of one percent per month prescribed by Section 6 of the
543 Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be
544 determined as of the due date and remain fixed for the duration of the delinquent period.

545 (c) When a partial payment on a delinquent account is received, the amount
546 received shall be applied, first to the penalty, second to the administrative charges, third to the
547 accrued interest, and finally to the overdue payment.

548 QUALITY OF WATER

549 14. The operation and maintenance of Project facilities shall be performed in such
550 manner as is practicable to maintain the quality of raw water made available through such
551 facilities at the highest level reasonably attainable as determined by the Contracting Officer. The

552 United States does not warrant the quality of water and is under no obligation to construct or
553 furnish water treatment facilities to maintain or better the quality of water.

554 WATER AND AIR POLLUTION CONTROL

555 15. The Contractor, in carrying out this Settlement Contract, shall comply with all
556 applicable water and air pollution laws and regulations of the United States and the State of
557 California, and shall obtain all required permits or licenses from the appropriate Federal, State,
558 or local authorities.

559 EQUAL OPPORTUNITY

560 16. During the performance of this Settlement Contract, the Contractor agrees as
561 follows:

562 (a) The Contractor will not discriminate against any employee or applicant for
563 employment because of race, color, religion, sex, or national origin. The Contractor will take
564 affirmative action to ensure that applicants are employed, and that employees are treated during
565 employment, without regard to their race, color, religion, sex, or national origin. Such action
566 shall include, but not be limited to, the following: Employment, upgrading, demotion, or
567 transfer; recruitment or recruitment advertising; layoff or termination, rates of payment or other
568 forms of compensation; and selection for training, including apprenticeship. The Contractor
569 agrees to post in conspicuous places, available to employees and applicants for employment,
570 notices to be provided by the Contracting Officer setting forth the provisions of this
571 nondiscrimination clause.

572 (b) The Contractor will, in all solicitations or advertisements for employees
573 placed by or on behalf of the Contractor, state that all qualified applicants will receive
574 consideration for employment without discrimination because of race, color, religion, sex, or
575 national origin.

576 (c) The Contractor will send to each labor union or representative of workers
577 with which it has a collective bargaining agreement or other contract or understanding, a notice,
578 to be provided by the Contracting Officer, advising the said labor union or workers'
579 representative of the Contractor's commitments under Section 202 of Executive Order No. 11246
580 of September 24, 1965, as amended, and shall post copies of the notice in conspicuous places
581 available to employees and applicants for employment.

582 (d) The Contractor will comply with all provisions of Executive Order No.
583 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders of
584 the Secretary of Labor.

585 (e) The Contractor will furnish all information and reports required by said
586 amended Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or
587 pursuant thereto, and will permit access to its books, records, and accounts by the Contracting
588 Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with
589 such rules, regulations, and orders.

590 (f) In the event of the Contractor's noncompliance with the nondiscrimination
591 clauses of this Settlement Contract or with any of the said rules, regulations, or orders, this
592 Settlement Contract may be canceled, terminated, or suspended, in whole or in part, and the
593 Contractor may be declared ineligible for further Government contracts in accordance with
594 procedures authorized in said amended Executive Order, and such other sanctions may be
595 imposed and remedies invoked as provided in said Executive Order, or by rule, regulation, or
596 order of the Secretary of Labor, or as otherwise provided by law.

597 (g) The Contractor will include the provisions of paragraphs (a) through (g) in
598 every subcontract or purchase order unless exempted by the rules, regulations, or orders of the
599 Secretary of Labor issued pursuant to Section 204 of said amended Executive Order, so that such
600 provisions will be binding upon each subcontractor or vendor. The Contractor will take such
601 action with respect to any subcontract or purchase order as may be directed by the Secretary of
602 Labor as a means of enforcing such provisions, including sanctions for noncompliance:
603 Provided, however, that in the event the Contractor becomes involved in, or is threatened with,
604 litigation with a subcontractor or vendor as a result of such direction, the Contractor may request
605 the United States to enter into such litigation to protect the interests of the United States.

606 COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

607 17. (a) The Contractor shall comply with Title VI of the Civil Rights Act of 1964
608 (42 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112, as amended), the
609 Age Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other applicable civil rights
610 laws, as well as with their respective implementing regulations and guidelines imposed by the
611 U.S. Department of the Interior and/or Bureau of Reclamation.

612 (b) These statutes require that no person in the United States shall, on the
613 grounds of race, color, national origin, handicap, or age, be excluded from participation in, be
614 denied the benefits of, or be otherwise subjected to discrimination under any program or activity
615 receiving financial assistance from the Bureau of Reclamation. By executing this Settlement
616 Contract, the Contractor agrees to immediately take any measures necessary to implement this
617 obligation, including permitting officials of the United States to inspect premises, programs, and
618 documents.

619 (c) The Contractor makes this agreement in consideration of and for the
620 purpose of obtaining any and all Federal grants, loans, contracts, property discounts, or other
621 Federal financial assistance extended after the date hereof to the Contractor by the Bureau of
622 Reclamation, including installment payments after such date on account of arrangements for
623 Federal financial assistance which were approved before such date. The Contractor recognizes
624 and agrees that such Federal assistance will be extended in reliance on the representations and
625 agreements made in this Article, and that the United States reserves the right to seek judicial
626 enforcement thereof.

627 MINGLING OF CONTRACTOR'S PROJECT AND NON-PROJECT WATER

628 18. (a) Project Water must of necessity be transported by the Contractor to its
629 water users by means of the same works and channels used for the transport of its non-Project
630 Water including Base Supply. Notwithstanding such mingling of water, the provisions of Article
631 11 hereof shall be applicable only to Project Water, and such mingling of water shall not in any
632 manner subject to the provisions of Article 11 hereof the Contractor's non-Project Water
633 including Base Supply.

634 (b) If required in accordance with subdivision (c) of this Article, the
635 Contractor shall install and maintain such measuring equipment and distribution facilities and
636 maintain such records as may be necessary to determine the amounts of water delivered to
637 Excess Lands served by the Contractor. The Contractor shall not within any month deliver to
638 Ineligible Lands water in excess of the non-Project Water, including Base Supply, for that
639 month. The Contracting Officer or authorized representative shall have the right at all
640 reasonable times to inspect such records and measuring equipment.

641 (c) The Contractor will not be considered in violation of the requirement that
642 Project Water be delivered only to Eligible Lands during any month of the irrigation season that
643 the water requirement for beneficial use on Eligible Lands for that month is equal to or in excess

644 of the Project Water for that month as shown on Exhibit A or any revision thereof pursuant to
645 subdivision (c) of Article 3. The water requirement for beneficial use on Eligible Lands will be
646 determined by multiplying:

647 (1) the number of irrigable acres of the particular types of crops grown
648 in that year on the acreage designated as eligible by

649 (2) the Unit Duties as set forth in Exhibit C attached hereto and made
650 a part hereof, or by such other Unit Duties mutually agreed upon by the Contractor and the
651 Contracting Officer. In order to make the computation of the water requirement for Eligible
652 Lands, on April 1 of each Year and concurrently with its order for water for the irrigation season,
653 the Contractor shall designate the acreage of and type of crops to be grown on its Eligible Lands
654 that irrigation season. During any month the water requirement as above determined for crops
655 growing on Eligible Lands during such month is equal to or in excess of the Project Water for
656 that month as provided herein the Contractor shall not be required to measure the water delivered
657 to Excess Lands. Any month the said water requirement is less than the amount of Project Water
658 as provided herein, the Contractor will be required to measure water delivered to excess land in
659 accordance with subdivision (b) hereof.

660 BOOKS, RECORDS, AND REPORTS

661 19. The Contractor shall establish and maintain accounts and other books and records
662 pertaining to administration of the terms and conditions of this Settlement Contract, including:
663 the Contractor's financial transactions, water supply data, and Project land and right-of-way
664 agreements; the water users' land-use (crop census), land ownership, land-leasing and water use
665 data; and other matters that the Contracting Officer may require. Reports thereon shall be
666 furnished to the Contracting Officer in such form and on such date or dates as the Contracting
667 Officer may require. Subject to applicable Federal laws and regulations, each party to this
668 Settlement Contract shall have the right during office hours to examine and make copies of each
669 other's books and official records relating to matters covered by this Settlement Contract.

670

CHANGE OF PLACE OF USE OR ORGANIZATION

671

20. (a) Unless the written consent of the United States is first obtained no change

672

shall be made in the place of water use shown on Exhibit B.

673

(b) While this Settlement Contract is in effect, no change shall be made in the

674

area of the Contractor as shown on its Exhibit B, by inclusion, exclusion, annexation, or

675

detachment of lands, by dissolution, consolidation, or merger or otherwise; except upon the

676

Contracting Officer's written consent thereto. Such consent will not be unreasonably withheld

677

and a decision will be provided in a timely manner.

678

(c) In the event lands are annexed to or detached from the area of the

679

Contractor, as provided herein, the quantity of Project Water to be diverted may be increased or

680

decreased, as may be appropriate, pursuant to a supplemental agreement to be executed in

681

respect thereto.

682

CONSOLIDATION OF CONTRACTING ENTITIES

683

21. Consolidation of Contractors may be approved by the Contracting Officer

684

provided: (i) the Contracting Officer approves the form and organization of the resulting entity

685

and the utilization by it of the Contract Total; and (ii) the obligations of the Contractors are

686

assumed by such entity.

687

No such consolidation shall be valid unless and until approved by the Contracting

688

Officer.

689

NOTICES

690

22. Any notice, demand, or request authorized or required by this Settlement Contract

691

shall be deemed to have been given, on behalf of the Contractor, when mailed, postage prepaid,

692 or delivered to the Area Manager, Northern California Area Office, Bureau of Reclamation,
693 16349 Shasta Dam Boulevard, Shasta Lake, California 96019, and on behalf of the United
694 States, when mailed, postage prepaid, or delivered to the Board of Directors of the Princeton-
695 Codora-Glenn Irrigation District, P.O. Box 98 (252 Commercial Street), Princeton, California
696 95970. The designation of the addressee or the address may be changed by notice given in the
697 same manner as provided in this Article for other notices.

698 ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

699 23. (a) The provisions of this Settlement Contract shall apply to and bind the
700 successors and assigns of the parties hereto, but no assignment or transfer of this Settlement
701 Contract or any right or interest therein shall be valid until approved in writing by the
702 Contracting Officer.

703 (b) The assignment of any right or interest in this Settlement Contract by
704 either party shall not interfere with the rights or obligations of the other party to this Settlement
705 Contract absent the written concurrence of said other party.

706 (c) The Contracting Officer shall not unreasonably condition or withhold his
707 approval of any proposed assignment.

OFFICIALS NOT TO BENEFIT

708 24. (a) No Member of or Delegate to Congress, Resident Commissioner, or
709 official of the Contractor shall benefit from this Settlement Contract other than as a water user or
710 landowner in the same manner as other water users or landowners.

711 (b) No officer or member of the governing board of the Contractor shall
712 receive any benefit that may arise by reason of this Settlement Contract other than as a
713 landowner within the Contractor's Service Area and in the same manner as other landowners
714 within the said service area.

715 CONTINGENT UPON APPROPRIATION OR ALLOTMENT OF FUNDS

716 25. The expenditure or advance of any money or the performance of any obligation of
717 the United States under this Settlement Contract shall be contingent upon appropriation or
718 allotment of funds. Absence of appropriation or allotment of funds shall not relieve the
719 Contractor from any obligations under this Settlement Contract. No liability shall accrue to the
720 United States in case funds are not appropriated or allotted.

721

CONFIRMATION OF SETTLEMENT CONTRACT

722

723

724

725

726

727

728

26. The Contractor, after the execution of this Settlement Contract, shall promptly seek to secure a decree of a court of competent jurisdiction of the State of California, if appropriate, confirming the execution of this Settlement Contract. The Contractor shall furnish the United States a certified copy of the final decree, the validation proceedings, and all pertinent supporting records of the court approving and confirming this Settlement Contract, and decreeing and adjudging it to be lawful, valid, and binding on the Contractor. This Settlement Contract shall not be binding on the United States until such final decree has been secured.

729

UNAVOIDABLE GROUNDWATER PERCOLATION

730

731

732

733

27. To the extent applicable, the Contractor shall not be deemed to have delivered Project Water to Excess Lands or Ineligible Lands if such lands are irrigated with groundwater that reaches the underground strata as an unavoidable result of the delivery of Project Water by the Contractor to Eligible Lands.

734

PRIVACY ACT COMPLIANCE

735

736

737

738

739

28. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et seq.) in maintaining Landholder acreage certification and reporting records, required to be submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

740

741

742

743

(b) With respect to the application and administration of the criminal penalty provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees responsible for maintaining the certification and reporting records referenced in (a) above are considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

744

745

746

747

748

(c) The Contracting Officer or a designated representative shall provide the Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of information contained in the Landholder's certification and reporting records.

749

750

751

752

(d) The Contracting Officer shall designate a full-time employee of the Bureau of Reclamation to be the System Manager who shall be responsible for making decisions on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The Contractor is authorized to grant requests by individuals for access to their own records.

753 (e) The Contractor shall forward promptly to the System Manager each
754 proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed
755 under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System
756 Manager with information and records necessary to prepare an appropriate response to the
757 requester. These requirements do not apply to individuals seeking access to their own
758 certification and reporting forms filed with the Contractor pursuant to 43 CFR 426.18, unless the
759 requester elects to cite the Privacy Act as a basis for the request.

760 WATER CONSERVATION

761 29. (a) Prior to the diversion of Project Water, the Contractor shall be
762 implementing an effective water conservation and efficiency program based on the Basin-Wide
763 Water Management Plan and/or Contractor's water conservation plan that has been determined
764 by the Contracting Officer to meet the conservation and efficiency criteria for evaluating water
765 conservation plans established under Federal law. The water conservation and efficiency
766 program shall contain definite water conservation objectives, appropriate economically feasible
767 water conservation measures, and time schedules for meeting those objectives. Continued
768 diversion of Project Water pursuant to this Settlement Contract shall be contingent upon the
769 Contractor's continued implementation of such water conservation program. In the event the
770 Contractor's water conservation plan or any revised water conservation plan completed pursuant
771 to subdivision (c) of Article 29 of this Settlement Contract have not yet been determined by the
772 Contracting Officer to meet such criteria, due to circumstances which the Contracting Officer
773 determines are beyond the control of the Contractor, Project Water deliveries shall be made
774 under this Settlement Contract so long as the Contractor diligently works with the Contracting
775 Officer to obtain such determination at the earliest practicable date, and thereafter the Contractor

776 immediately begins implementing its water conservation and efficiency program in accordance
777 with the time schedules therein.

778 (b) The Contractor shall submit to the Contracting Officer a report on the
779 status of its implementation of the water conservation plan on the reporting dates specified in the
780 then existing conservation and efficiency criteria established under Federal law.

781 (c) At five-year intervals, the Contractor shall revise its water conservation
782 plan to reflect the then current conservation and efficiency criteria for evaluating water
783 conservation plans established under Federal law and submit such revised water management
784 plan to the Contracting Officer for review and evaluation. The Contracting Officer will then
785 determine if the water conservation plan meets Reclamation's then current conservation and
786 efficiency criteria for evaluating water conservation plans established under Federal law.

787 (d) If the Contractor is engaged in direct groundwater recharge, such activity
788 shall be described in the Contractor's water conservation plan.

789 (e) In order to provide incentives for water conservation, the Contractor may
790 reduce the amount of Project Water for which payment is required under Article 8(a) in
791 accordance with the provisions of this Article 29(e).

792 (1) On or before February 15 of any Water Year, the Contractor may
793 file with Reclamation an offer to reduce Project Water use, hereinafter referred to as Offer. The
794 Offer shall specify the maximum quantity of Project Water to be diverted by the Contractor for
795 each month that Project Water is available for that Water Year under this Settlement Contract.
796 The Contracting Officer shall provide the Contractor with a decision, in writing, to the Offer on

797 or before March 15 of that Water Year. The dates specified in this Article 29(e)(1) can be
798 changed if mutually agreed to, in writing, by the Contractor and Contracting Officer.

799 (2) If Reclamation accepts the Offer, the Contractor's payment
800 obligation under Article 8(a)(1) shall be reduced to the maximum quantity of Project Water to be
801 diverted by the Contractor as specified in the Offer. The Contractor shall not divert Project
802 Water in excess of the quantities set forth in the Offer; Provided, however, if the Contractor's
803 diversions of Project Water exceed the quantities set forth in the Offer, the Contractor shall pay
804 to Reclamation the applicable Rates and Charges plus an amount equal to the applicable Rates
805 and Charges, unadjusted for ability to pay, for each acre-foot of Project Water diverted in excess
806 of the quantities set forth in the Offer.

807 (3) If Reclamation decides not to accept the Offer, the Contractor's
808 payment obligation will remain as specified in Article 8(a)(1).

809 (4) The provisions of this Article 29(e) shall be in addition to and shall
810 not affect the provisions of Article 3(e) pertaining to the sale, transfer, exchange, or other
811 disposal of the Contract Total designated in Exhibit A.

812 OPINIONS AND DETERMINATIONS

813 30. (a) Where the terms of this Settlement Contract provide for actions to be
814 based upon the opinion or determination of either party to this Settlement Contract, said terms
815 shall not be construed as permitting such action to be predicated upon arbitrary, capricious, or
816 unreasonable opinions or determinations. Both parties, notwithstanding any other provisions of
817 this Settlement Contract, expressly reserve the right to seek relief from and appropriate
818 adjustment for any such arbitrary, capricious, or unreasonable opinion or determination. Each

819 opinion or determination by either party shall be provided in a timely manner. Nothing in
820 subdivision (a) of Article 30 of this Settlement Contract is intended to or shall affect or alter the
821 standard of judicial review applicable under Federal law to any opinion or determination
822 implementing a specific provision of Federal law embodied in statute or regulation.

823 (b) The Contracting Officer shall have the right to make determinations
824 necessary to administer this Settlement Contract that are consistent with the provisions of this
825 Settlement Contract, the laws of the United States and of the State of California, and the rules
826 and regulations promulgated by the Secretary of the Interior. Such determinations shall be made
827 in consultation with the Contractor to the extent reasonably practicable.

828 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

829 31. (a) In addition to all other payments to be made by the Contractor pursuant to
830 this Settlement Contract, the Contractor shall pay to the United States, within 60 days after
831 receipt of a bill and detailed statement submitted by the Contracting Officer to the Contractor for
832 such specific items of direct cost incurred by the United States for work requested by the
833 Contractor associated with this Settlement Contract plus indirect costs in accordance with
834 applicable Bureau of Reclamation policies and procedures. All such amounts referred to in this
835 Article shall not exceed the amount agreed to in writing in advance by the Contractor. This
836 Article shall not apply to costs for routine contract administration.

837 (b) All advances for miscellaneous costs incurred for work requested by the
838 Contractor pursuant to Article 31 of this Settlement Contract shall be adjusted to reflect the
839 actual costs when the work has been completed. If the advances exceed the actual costs incurred,
840 the difference will be refunded to the Contractor. If the actual costs exceed the Contractor's

841 advances, the Contractor will be billed for the additional costs pursuant to Article 31 of this
842 Settlement Contract.

843 WAIVER OF DEFAULT

844 32. The waiver by either party to this Settlement Contract as to any default shall not
845 be construed as a waiver of any other default or as authority of the other party to continue such
846 default or to make, do, or perform, or not to make, do, or perform, as the case may be, any act or
847 thing which would constitute a default.

848 IN WITNESS WHEREOF, the parties hereto have executed this Settlement Contract as
849 of the day and year first hereinabove written.

**BOARD OF DIRECTORS
PRINCETON-CODORA-GLENN IRRIGATION DISTRICT**

RESOLUTION NO. 2005- 1

**RESOLUTION APPROVING LONG-TERM RENEWAL
OF CONTRACT BETWEEN THE UNITED STATES AND
PRINCETON-CODORA-GLENN IRRIGATION DISTRICT, DIVERTER OF
WATER FROM SACRAMENTO RIVER SOURCES, SETTling WATER
RIGHTS DISPUTES AND PROVIDING FOR PROJECT WATER**

AS A BASIS AND PREMISE for this Resolution, the Board of Directors of PRINCETON-CODORA-GLENN IRRIGATION DISTRICT (District) finds and states as follows:

1. The District has, since April 3, 1964, held a water rights settlement contract with the United States Department of the Interior, Bureau of Reclamation ("Reclamation") bearing Contract No. 14-06-200-849A (the "Original Contract").

2. The Original Contract would have expired on March 31, 2004.

3. In advance of that expiration, the District and Reclamation entered into negotiations for a long-term renewal of the Original Contract.

4. By Act of Congress, the Original Contract was extended for a period of two years, because the negotiations and related procedures had not been completed by March 31, 2004.

5. The negotiations and related procedures have now been completed, and Reclamation has presented to the District the agreed upon final form of renewal contract bearing Contract No. 14-06-200-849A-R-1 (the "Renewal Contract").

6. It would be in the best interests of the District to approve the Renewal Contract and to authorize the officials and staff of the District to carry out any actions necessary to implement the Renewal Contract.

NOW, THEREFORE, be it RESOLVED, ADJUDGED and ORDAINED that:

1. The Board of Directors of the PRINCETON-CODORA-GLENN IRRIGATION DISTRICT hereby approves the Renewal Contract between Reclamation and the District.

2. The President and Secretary of the Board of Directors or any other officials of the District are authorized and directed to execute the Renewal Contract on behalf of the District.

CERTIFICATION

I, BRENDA POGUE the duly and regularly appointed Secretary of the PRINCETON-CODORA-GLENN IRRIGATION DISTRICT, hereby certify that the foregoing is a true, correct and exact copy of a Resolution of the Board of Directors of PRINCETON-CODORA-GLENN IRRIGATION DISTRICT, duly and regularly passed and adopted at a meeting of the said Board of Directors at Princeton, California, on February 21, 2005, the original of which is on file in my office and duly and regularly entered in the official records of proceedings of the Board of Directors of PRINCETON-CODORA-GLENN IRRIGATION DISTRICT.

Dated: Feb. 22, 2005
