5

6 FIRST AMENDMENT TO CONTRACT BETWEEN THE UNITED STATES AND
7 SANTA CLARA VALLEY WATER DISTRICT FOR WATER SERVICE AND
8 OPERATION AND MAINTENANCE OF CERTAIN WORKS OF THE SAN FELIPE
9 DIVISION
10

11
12 THIS AMENDMENT TO CONTRACT No. 7-07-20-W0023, is made this ____ day of
13 _____, 2006 in pursuance generally of the Act of June 17, 1902 (32 Stat. 388), and acts
14 amendatory and supplementary thereto, including but not limited to, the Acts of August 26, 1937
15 (50 Stat. 844), as amended and supplemented; August 4, 1939 (53 Stat. 1187), as amended and
16 supplemented; July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68), August 27, 1967 (81 Stat.
17 173), October 12, 1982 (96 Stat. 1263), October 27, 1986 (100 Stat. 3050), as amended, and Title
18 XXXIV of the Act of October 30, 1992, (106 Stat 4706), all collectively hereinafter referred to
19 as Federal Reclamation law, between THE UNITED STATES OF AMERICA, hereinafter
20 referred to as the United States, and THE SANTA CLARA VALLEY WATER DISTRICT,
21 hereinafter referred to as the Contractor, a public agency of the State of California, duly
22 organized, existing, and acting pursuant to the laws thereof;

23 WITNESSETH, That:

24 EXPLANATORY RECITALS

25 [1st] WHEREAS, the United States has constructed and is operating the Central Valley
26 Project (Project), California, for diversion, storage, carriage, distribution and beneficial use, for

27 flood control, irrigation, municipal, domestic, industrial, fish and wildlife mitigation, protection
28 and restoration, generation and distribution of electric energy, salinity control, navigation and
29 other beneficial uses, of water of the Sacramento River, the American River, the Trinity River,
30 and the San Joaquin River and their tributaries; and

31 [2nd] WHEREAS, the Contractor and the United States entered into a contract for
32 delivery of Central Valley Project water to the Contractor, Contract No. 7-07-20-W0023, dated
33 June 7, 1977, which established terms for the delivery to the Contractor of Central Valley Project
34 Water from January 1, 1988 through December 31, 2027, (hereinafter referred to as the “Existing
35 Contract”); and

36 [3rd] WHEREAS, in 1992, Congress enacted the Central Valley Project Improvement
37 Act (CVPIA) (106 Stat. 4706), which addressed the renewal of existing long-term water service
38 contracts and established that certain terms should be included in contracts renewed or amended
39 after January 1, 1988; and

40 [4th] WHEREAS, to promote compliance with the CVPIA, consistent with the goal of
41 ensuring a reliable long-term water supply for the Contractor, the parties desire to amend the
42 Existing Contract pursuant to Federal Reclamation law on the terms and conditions set forth
43 below;

44 NOW, THEREFORE, in consideration of the mutual and dependent covenants herein
45 contained, it is hereby mutually agreed by the parties hereto as follows:

46 MODIFICATION TO EXISTING CONTRACT

47 1. Article 1 of the Existing Contract entitled DEFINITIONS is amended as
48 follows:

49 a) Subdivisions (d) and (e) are hereby deleted in their entirety and
50 replaced with the following definitions, and the remaining definitions are redesignated (e) –
51 (k) accordingly:

52 (d) “San Felipe Division Facilities” shall mean those existing and future
53 Project facilities generally west of San Luis Reservoir used to divert, store and convey water to
54 the Contractor(s). San Felipe Facilities are divided into reaches, as defined as follows:

55 i) “Reach 1” shall mean the facilities from the Pacheco Tunnel to and
56 including the Pacheco Bifurcation Structure, including but not limited to, the Pacheco Pumping
57 Plant Substation, Pacheco Pumping Plant Substation – 70kvLine, Pacheco Tunnel (including the
58 inlet works in and under San Luis Reservoir), Pacheco Conduit and Pacheco Bifurcation
59 Structure;

60 ii) “Reach 2” shall mean the facilities from, but not including, the
61 Pacheco Bifurcation Structure to and including the Watsonville Turnout facility, and Santa Clara
62 Tunnel and Conduit;

63 iii) “Reach 3” shall mean the facilities from, but not including, the
64 Watsonville Turnout facility to and including the Coyote Pumping Plant, including but not

65 limited to, the Santa Clara Tunnel and Conduit, Coyote Pumping Plant, Coyote Pumping Plant
66 Substation and Coyote Pumping Plant 115 kv Line;

67 iv) “San Benito Facilities” shall mean San Felipe Division Facilities
68 used to deliver water to the San Benito Water District exclusively, including the Hollister
69 Conduit and the San Justo Dam and Reservoir;

70 **b) The following definitions are hereby added to Article 1 as follows:**

71 (l) “Charges” shall mean the payments required by Federal Reclamation law
72 in addition to the Rates and Tiered Pricing Component specified in this Contract as determined
73 annually by the Contracting Officer pursuant to this Contract;

74 (m) “Contract,” shall mean the Existing Contract as amended hereby;

75 (n) “Contractor’s Service Area” shall mean the area to which the Contractor is
76 permitted to provide Project Water under this Contract, as set forth on Exhibit “A” attached
77 hereto which may be modified from time to time without amendment to this Contract;

78 (o) “Delivered Water” or “Water Delivered” shall mean Project water
79 diverted for use by the Contractor at the point(s) of delivery approved by the Contracting
80 Officer;

81 (p) “Full Cost Rate” shall mean an annual rate, as determined by the
82 Contracting Officer, that shall amortize the expenditures for construction properly allocable to
83 the Project irrigation or M&I functions, as appropriate, or facilities in service including all O&M
84 deficits funded, less payments, over such periods as may be required under Federal Reclamation

85 law or applicable contract provisions. Interest will accrue on both the construction expenditures
86 and funded O&M deficits from October 12, 1982, on costs outstanding at that date, or from the
87 date incurred in the case of costs arising subsequent to October 12, 1982, and shall be calculated
88 in accordance with subsections 202(3)(b) and (3)(C) of the RRA. The Full Cost Rate includes
89 actual operation, maintenance, and replacement costs consistent with Section 426.2 of the Rules
90 and Regulations of the RRA;

91 (q) "Operating Non-Federal Entity" shall mean the Operating Non-Federal
92 Entity(ies) and their successors or assigns, which have the obligation to operate and maintain all
93 or a portion of the Project facilities including the Division Facilities pursuant to written
94 agreements with the United States. As of the effective date of this Contract, the Operating Non-
95 Federal Entity(ies) were the San Luis & Delta-Mendota Water Authority with respect to certain
96 Delta Division Facilities, Santa Clara Valley Water District with respect to certain Division
97 Facilities, and the San Benito County Water District with respect to certain Division Facilities;

98 (r) "Rates" shall mean the payments determined annually by the Contracting
99 Officer in accordance with the then current applicable ratesetting policies for the Project, as
100 described in Article 11 of this Contract;

101 (s) "M&I Full Cost Water Rate" shall mean the Full Cost Rate applicable to
102 the delivery of M&I Water;

103 (t) “Tiered Pricing Component” shall be the incremental amount to be paid
104 for each acre-foot of Water Delivered as described in subdivision (j) of Article 11 of this
105 Contract.

106 2. **The last sentence of subdivision (b) of Article 7 of the Existing Contract**
107 **entitled WATER SHORTAGE AND APPORTIONMENT is hereby deleted and replaced**
108 **with the following:**

109 “In the event reduced deliveries within the Division are necessary, Project water furnished under
110 this contract for M&I purposes will be allocated in accordance with the CVP M&I Water
111 Shortage Policy. Such Policy shall be amended, modified, or superseded only through public
112 notice and comment procedure.”

113 3. **Article 8 of the Existing Contract entitled QUALITY OF WATER is**
114 **amended to add the following subdivision:**

115 (b) The Contractor shall be responsible for compliance with all State and
116 Federal water quality standards applicable to the Contractor for surface and subsurface
117 agricultural drainage discharges generated through the use of Federal facilities for Water
118 Delivered to the Contractor.

119 4. **Article 9(d)(1) of the Existing Contract entitled POINT OF DELIVERY –**
120 **MEASUREMENT – RESPONSIBILITY FOR DISTRIBUTION – is deleted in its entirety**
121 **and replaced with the following:**

122 9. (d)(1)(i) The Contractor has established a measuring program satisfactory
123 to the Contracting Officer. The Contractor shall ensure that all surface water delivered for
124 irrigation purposes to the Contractor's customers within the Contractor's Service Area is
125 measured at each agricultural turnout and such water delivered for M&I purposes to the
126 Contractor's customers is measured at each M&I service connection. The water measuring
127 devices or water measuring methods of comparable effectiveness must be acceptable to the
128 Contracting Officer. The Contractor shall be responsible for ensuring that its retail customers are
129 installing, operating, and maintaining and repairing all measuring devices and implementing all
130 water measuring methods at no cost to the United States. The Contractor shall use the
131 information obtained from such water measuring devices or water measuring methods to ensure
132 its proper management of the water, to bill water users for water delivered by the Contractor;
133 and, if applicable, to record water delivered for M&I purposes by customer class as defined in
134 the Contractor's water conservation plan provided for in Article 43 of this Contract. Nothing
135 herein contained, however, shall preclude the Contractor from establishing and collecting any
136 charges, assessments, or other revenues authorized by California law. The Contractor shall
137 include a summary of all its annual surface water deliveries in the annual report described in
138 subdivision (c) of Article 43 of this Contract.

139 (d)(1)(ii) To the extent the information has not otherwise been
140 provided, upon the effective date of this Contract, the Contractor shall provide to the Contracting
141 Officer a written report describing the measurement devices or water measuring methods being

142 used or to be used to implement subdivision (d)(1)(i) of this Article and identifying the
143 agricultural turnouts and the M&I service connections or alternative measurement programs
144 approved by the Contracting Officer, at which such measurement devices or water measuring
145 methods are being used, and, if applicable, identifying the locations at which such devices and/or
146 methods are not yet being used including a time schedule for implementation at such locations.
147 The Contracting Officer shall advise the Contractor in writing within 60 days as to the adequacy,
148 and necessary modifications, if any, of the measuring devices or water measuring methods
149 identified in the Contractor's report and if the Contracting Officer does not respond in such time,
150 they shall be deemed adequate. If the Contracting Officer notifies the Contractor that the
151 measuring devices or methods are inadequate, the parties shall within 60 days following the
152 Contracting Officer's response, negotiate in good faith the earliest practicable date by which the
153 Contractor shall modify said measuring devices and/or measuring methods as required by the
154 Contracting Officer to ensure compliance with subdivision (d)(1)(i) of this Article.”

155 (d)(1)(iii) All new surface water delivery systems installed within the
156 Contractor's Service Area after the effective date of this Contract shall also comply with the
157 measurement provisions described in subdivision (d)(1)(i) of this Article.”

158 (d)(1)(iv) The Contractor shall inform the Contracting Officer and the
159 State of California in writing by April 30 of each Year of the monthly volume of surface water
160 delivered within the Contractor's Service Area during the previous Year.”

161 (d)(1)(v) The Contractor shall inform the Contracting Officer and the
162 Operating Non-Federal Entity on or before the 20th calendar day of each month of the quantity
163 of Agricultural Water and M&I Water taken during the preceding month.

164 5. Article 11 of the Existing Contract entitled **RATES OF PAYMENT FOR**
165 **WATER** and Article 12 of the Existing Contract entitled **METHOD OF PAYMENT FOR**
166 **WATER** are hereby deleted in their entirety and replaced with the following:

167 **RATES AND METHOD OF PAYMENT FOR WATER**

168 11. (a) The Contractor shall pay the United States as provided in this Article for
169 all Delivered Water at Rates, Charges, and the Tiered Pricing Component established in
170 accordance with: (i) the Secretary of the Interior's Irrigation Ratesetting Policy and the
171 Secretary's then-existing ratesetting policy for M&I water. Such ratesetting policies shall be
172 amended, modified, or superseded only through a public notice and comment procedure; (ii)
173 applicable Federal Reclamation law and associated rules and regulations, or policies; and (iii)
174 other applicable provisions of this Contract. Payments shall be made by cash transaction,
175 electronic funds transfer, or any other mechanism as may be agreed to in writing by the
176 Contractor and the Contracting Officer. The Rates, Charges, and Tiered Pricing Component
177 applicable to the Contractor upon execution of this Contract are set forth in Exhibit "B," which
178 shall be attached hereto, as may be revised annually.

179 (b) The Contracting Officer shall notify the Contractor of the Rates, Charges,
180 and Tiered Pricing Component as follows:

181 (1) Prior to July 1 of each calendar year, the Contracting Officer shall
182 provide the Contractor an estimate of the Charges for Project water that will be applied to the
183 period October 1, of the current calendar year, through September 30, of the following calendar
184 year, and the basis for such estimate. The Contractor shall be allowed not less than two months
185 to review and comment on such estimates. On or before September 15 of each calendar year, the
186 Contracting Officer shall notify the Contractor in writing of the Charges to be in effect during the
187 period October 1 of the current calendar year, through September 30, of the following calendar
188 year, and such notification shall revise Exhibit “B.”

189 (2) Prior to October 1 of each calendar year, the Contracting Officer
190 shall make available to the Contractor an estimate of the Rates and Tiered Pricing Component
191 for Project water for the following year and the computations and cost allocations upon which
192 those Rates are based. The Contractor shall be allowed not less than two months to review and
193 comment on such computations and cost allocations. By December 31 of each calendar year, the
194 Contracting Officer shall provide the Contractor with the final Rates and Tiered Pricing
195 Component to be in effect for the upcoming year, and such notification shall revise Exhibit “B.”

196 (c) At the time the Contractor submits the initial schedule for the delivery of
197 Project water for each year pursuant to Article 4 of this Contract, the Contractor shall make an
198 advance payment to the United States equal to the total amount payable pursuant to the
199 applicable Rate(s) set under subdivision (a) of this Article, for the Project water scheduled to be
200 delivered pursuant to this Contract during the first two calendar months of the year. Before the

201 end of the first month and before the end of each calendar month thereafter, the Contractor shall
202 make an advance payment to the United States, at the Rate(s) set under subdivision (a) of this
203 Article, for the water scheduled to be delivered pursuant to this Contract during the second
204 month immediately following. Adjustments between advance payments for water scheduled and
205 payments at Rates due for Water Delivered shall be made before the end of the following month;
206 Provided, That any revised schedule submitted by the Contractor pursuant to Article 4 of this
207 Contract which increases the amount of Water Delivered pursuant to this Contract during any
208 month shall be accompanied with appropriate advance payment, at the Rates then in effect, to
209 assure that Project water is not delivered to the Contractor in advance of such payment. In any
210 month in which the quantity of Water Delivered to the Contractor pursuant to this Contract
211 equals the quantity of water scheduled and paid for by the Contractor, no additional Project water
212 shall be delivered to the Contractor unless and until an advance payment at the Rates then in
213 effect for such additional Project water is made. Final adjustment between the advance
214 payments for the water scheduled and payments for the quantities of Water Delivered during
215 each year pursuant to this Contract shall be made as soon as practicable but no later than April
216 30th of the following year.

217 (d) The Contractor shall also make a payment in addition to the Rate(s) in
218 subdivision (c) of this Article to the United States for Water Delivered, at the Charges and the
219 appropriate Tiered Pricing Component then in effect, before the end of the month following the
220 month of delivery; Provided, That the Contractor may be granted

221 an exception from the Tiered Pricing Component pursuant to subdivision (j)(2) of this Article.
222 The payments shall be consistent with the quantities of agricultural water and M&I water
223 delivered as shown in the water delivery report for the subject month prepared by the Operating
224 Non-Federal Entity(ies) or, if there is no Operating Non-Federal Entity, by the Contracting
225 Officer. The water delivery report shall be deemed a bill for the payment of Charges and the
226 applicable Tiered Pricing Component for Water Delivered. Adjustment for overpayment or
227 underpayment of Charges shall be made through the adjustment of payments due to the United
228 States for Charges for the next month. Any amount to be paid for past due payment of Charges
229 and the Tiered Pricing Component shall be computed pursuant to Article 14 of this Contract.

230 (e) The Contractor shall pay for any Water Delivered under subdivision (g) or
231 (h) of Article 3 of this Contract as determined by the Contracting Officer pursuant to applicable
232 statutes, associated regulations, any applicable provisions or guidelines or ratesetting policies;
233 Provided, That the Rate for Water Delivered under subdivision (g) or (h) of Article 3 of this
234 Contract shall be no more than the otherwise applicable Rate for agricultural water or M&I water
235 under subdivision (a) of this Article;

236 (f) Payments to be made by the Contractor to the United States under this
237 Contract may be paid from any revenues available to the Contractor.

238 (g) All revenues received by the United States from the Contractor relating to
239 the delivery of Project water or the delivery of non-Project water through Project facilities shall

240 be allocated and applied in accordance with Federal Reclamation law and the associated rules or
241 regulations, and the then current Project ratesetting policies for M&I water or agricultural water.

242 (h) The Contracting Officer shall keep its accounts pertaining to the
243 administration of the financial terms and conditions of its long-term contracts, in accordance
244 with applicable Federal standards, so as to reflect the application of Project costs and revenues.
245 The Contracting Officer shall, each year upon request of the Contractor, provide to the
246 Contractor a detailed accounting of all Project and Contractor expense allocations, the
247 disposition of all Project and Contractor revenues, and a summary of all water delivery
248 information. The Contracting Officer and the Contractor shall enter into good faith negotiations
249 to resolve any discrepancies or disputes relating to accountings, reports, or information.

250 (i) The parties acknowledge and agree that the efficient administration of this
251 Contract is their mutual goal. Recognizing that experience has demonstrated that mechanisms,
252 policies, and procedures used for establishing Rates, Charges, and Tiered Pricing Component,
253 and/or for making and allocating payments, other than those set forth in this Article may be in
254 the mutual best interest of the parties, it is expressly agreed that the parties may enter into
255 agreements to modify the mechanisms, policies, and procedures for any of those purposes while
256 this Contract is in effect without amending this Contract.

257 (j) (1) Beginning at such time as deliveries of Project water in a year
258 exceed 80 percent of the total available pursuant to this Contract, then before the end of the

259 month following the month of delivery the Contractor shall make an additional payment to the
260 United States equal to the applicable Tiered Pricing Component. The Tiered Pricing Component
261 for the amount of Water Delivered in excess of 80 percent of the total available pursuant to this
262 Contract, but less than or equal to 90 percent of that total, shall equal one-half of the difference
263 between the Rate established under subdivision (a) of this Article and the Full Cost Rate for
264 agricultural water or Full Cost Rate for M&I water, whichever is applicable. The Tiered Pricing
265 Component for the amount of Water Delivered which exceeds 90 percent of the total available
266 pursuant to this Contract shall equal the difference between (i) the Rate established under
267 subdivision (a) of this Article and (ii) the Full Cost Rate for agricultural water or Full Cost Rate
268 for M&I water, whichever is applicable.

269 (2) Subject to the Contracting Officer's written approval, the
270 Contractor may request and receive an exemption from such Tiered Pricing Component for
271 Project water delivered to produce a crop which the Contracting Officer determines will provide
272 significant and quantifiable habitat values for waterfowl in fields where the water is used and the
273 crops are produced; Provided, That the exemption from the Tiered Pricing Component for
274 agricultural water shall apply only if such habitat values can be assured consistent with the
275 purposes of the CVPIA through binding agreements executed with or approved by the
276 Contracting Officer prior to use of such water.

277 (3) For purposes of determining the applicability of the Tiered Pricing
278 Component pursuant to this Article, Water Delivered shall include Project water that the

279 Contractor transfers to others and Project water provided to the Contractor pursuant to
280 subdivision (h) of Article 3 of this Contract, but shall not include Project water transferred to the
281 Contractor.

282 (k) For the term of this Contract, Rates applied under the respective
283 ratesetting policies will be established to recover only reimbursable O&M (including any
284 deficits) and capital costs of the Project, as those terms are used in the then-current Project
285 ratesetting policies, and interest, where appropriate, except in instances where a minimum Rate is
286 applicable in accordance with the relevant Project ratesetting policy. Changes of significance in
287 practices which implement the Contracting Officer's ratesetting policies will not be implemented
288 until the Contracting Officer has provided the Contractor an opportunity to discuss the nature,
289 need, and impact of the proposed change.

290 (l) Except as provided in subsections 3405(a)(1)(B) and 3405(f) of the
291 CVPIA, the Rates for Project water transferred by the Contractor shall be the Contractor's Rates
292 adjusted upward or downward to reflect the changed costs, if any, incurred by the Contracting
293 Officer in the delivery of the transferred Project water to the transferee's point of delivery in
294 accordance with the then applicable Project ratesetting policy. If the Contractor is receiving
295 lower Rates and Charges because of inability to pay and is transferring Project water to another
296 entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and Charges
297 for transferred Project water shall not be adjusted to reflect the Contractor's inability to pay.

298 (m) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting
299 Officer is authorized to adjust determinations of ability to pay every five years.

300 REPAYMENT OBLIGATION

301 The Contractor's repayment obligation is described below:

302 12. (a) Repayment of San Felipe Division Facilities. The Contractor and
303 San Benito County Water District are each entering into contracts with the United States
304 committing to repay their separate, individual share of the total reimbursable capital costs for the
305 San Felipe Division Facilities. These contracts collectively will provide for repayment of the
306 unpaid reimbursable capital costs as of September 30, 2006. Until the final accounting of such
307 costs is available, the Contractor's and San Benito County Water District's interim repayment
308 terms will be based on the September 30, 2004, reimbursable capital costs for the San Felipe
309 Division Facilities, which totaled \$319,417,648, as shown on Exhibit C, which exhibit may be
310 revised by mutual agreement of the parties and San Benito County Water District without
311 amending this Contract. These reimbursable capital costs for the San Felipe Division Facilities
312 are summarized below:

313 (1) Reach 1 Facilities. The total reimbursable capital cost of Reach 1
314 Facilities including allocated interest during construction as of September 30, 2004, is
315 \$154,488,043.

316 (2) Reach 2 Facilities and Reach 3 Facilities. The total reimbursable

317 capital cost of Reach 2 Facilities and Reach 3 Facilities including allocated interest during
318 construction, as of September 30, 2004, is \$101,192,916.

319 (3) San Benito Facilities. The total reimbursable capital costs of the
320 San Benito Facilities including allocated interest during construction as of September 30, 2004,
321 is \$63,736,689.

322 (4) Interest During Construction. The total reimbursable interest
323 during construction, as of September 30, 2004, is \$32,227,149.

324 (b) Final Accounting for San Felipe Division Facilities. In the event that the
325 September 30, 2006, final accounting of the unpaid reimbursable capital costs for the San Felipe
326 Division Facilities is not available by December 31, 2007, the Contractor's and San Benito
327 County Water District's repayment obligations will be based on the most recent total
328 reimbursable capital costs available, and include all payments through December 31, 2007.

329 (c) San Felipe Division Facilities Interest Rates. The interest rate for the
330 Pacheco Tunnel Inlet used for M&I purposes is 3.137 percent per annum. The interest rate for
331 the San Felipe Division Facilities, not including the Pacheco Tunnel Inlet, used for M&I
332 purposes is 3.50 percent per annum. Any calculation or recalculation of the annual payment
333 schedule shown in Exhibit D in this Contract, or in any subsequent renewed or amended contract
334 during the remainder of the 50-year repayment period, shall be based on these interest rates.

335 (d) Repayment of Unpaid Capital Interest. The Contractor shall pay for

336 unpaid capital interest, consistent with the “Agreement Among the United States, City of Fresno,
337 City of Coalinga, Contra Costa Water District, Keswick County Service Area #25, Mountain
338 Gate Community Services District, Sacramento Municipal Utility District, San Juan Water
339 District, Santa Clara Valley Water District, Shasta County Water Agency, and City of Tracy for
340 Settlement of the CVP M&I Ratesetting Lawsuit” entered into in 2005 to resolve City of Fresno
341 v. United States, Civ. No. F-03-5350 (E.D.Cal). As specified in the settlement agreement, the
342 interest rate for the unpaid balance shall be 3.50 percent per annum.

343 (e) Repayment Obligation and Annual Payment Schedule.

344 (1) Interim Repayment Obligation. The Contractor’s interim
345 repayment obligation will be computed by totaling its separate, individual share of reimbursable
346 capital costs for Reach 1 Facilities, Reach 2 Facilities and Reach 3 Facilities, as of September 30,
347 2004, shown on Exhibit C, plus its unpaid capital interest, minus its accumulated repayment as of
348 September 30, 2004. The Contractor’s annual payment schedule shown on Exhibit D reflects an
349 allocation of Reach 1 Facilities cost to the Contractor of 78 percent, and a stepped repayment
350 structure.

351 (2) Final Repayment Obligation. Using the same allocation of Reach
352 1 Facilities cost to the Contractor and the same stepped repayment structure as in subparagraph
353 (e)(1), the Contractor’s final repayment obligation for San Felipe Division Facilities will be
354 computed by totaling its separate, individual share of reimbursable capital costs for Reach 1

355 Facilities, Reach 2 Facilities and Reach 3 Facilities, as of September 30, 2006, plus its final
356 balance of unpaid capital interest, minus its final accumulated repayment. The reimbursable
357 San Felipe Division capital costs shown on Exhibit C, and the Contractor's annual payment
358 schedule on Exhibit D will be revised in a manner consistent with the above, without amending
359 this Contract.

360 (f) Supplemental Payments and Relief from Payment Schedule.

361 (1) The Contractor may, at any time prior to the expiration of this
362 Contract, make supplemental payment(s) of all or part of the unpaid balance for any or part of
363 the Contractor's share of Reach 1 Facilities, Reach 2 Facilities or Reach 3 Facilities, or its unpaid
364 capital interest, in which case the repayment schedule in Exhibit D will be shortened and will
365 maintain the same stepped repayment structure over the remaining repayment period. Exhibit D
366 may be revised by mutual agreement of the Parties without amending this Contract.

367 (2) If circumstances arise that compromise the Contractor's ability to
368 make payments according to Exhibit D, the Contractor may request a deferment of said
369 payments consistent with Reclamation law, and if approved, Exhibit D shall be revised
370 accordingly by mutual agreement without amending this Contract.

371 (g) Upon repayment of the amounts required under this Article, Contractor
372 shall have no further repayment obligations associated with the capital costs of the San Felipe
373 Division Facilities or unpaid capital interest.

374 6. **Article 14 of the Existing Contract entitled PENALTY FOR DELINQUENT**

375 **PAYMENTS** is deleted in its entirety and replaced with the following:

376 **CHARGES FOR DELINQUENT PAYMENTS**

377 14. (a) The Contractor shall be subject to interest, administrative and penalty charges
378 on delinquent installments or payments. When a payment is not received by the due date, the
379 Contractor shall pay an interest charge for each day the payment is delinquent beyond the due
380 date. When a payment becomes sixty (60) days delinquent, the Contractor shall pay an
381 administrative charge to cover additional costs of billing and processing the delinquent payment.
382 When a payment is delinquent ninety (90) days or more, the Contractor shall pay an additional
383 penalty charge of six (6%) percent per year for each day the payment is delinquent beyond the
384 due date. Further, the Contractor shall pay any fees incurred for debt collection services
385 associated with a delinquent payment.

386
387 (b) The interest charge rate shall be the greater of the rate prescribed quarterly
388 in the Federal Register by the Department of the Treasury for application to overdue payments, or
389 the interest rate of one-half of one (0.5%) percent per month prescribed by Section 6 of the
390 Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be
391 determined as of the due date and remain fixed for the duration of the delinquent period.

392
393 (c) When a partial payment on a delinquent account is received, the amount
394 received shall be applied, first to the penalty, second to the administrative charges, third to the
395 accrued interest, and finally to the overdue payment.

396 7. **Subdivision 5 of Article 16 of the Existing Contract entitled CONVEYANCE**
397 **OF NON-PROJECT WATER** is hereby amended by deleting the words:

398 “the provisions of Articles 24, 25, and 26 hereof” and substituting the words “subdivision (b) of
399 Article 31 of this Contract.”

400 8. **Article 17 of the Existing Contract entitled TRANSFER OF CARE, OPERATION,**
401 **AND MAINTENANCE OF SANTA CLARA FACILITIES TO THE**

402 **CONTRACTOR** is hereby amended by changing its designation as article 17, to article
403 **“17.1”, and the following is added as article 17:**

404 **OPERATION AND MAINTENANCE BY OPERATING NON-FEDERAL ENTITY**

405 17. (a) The operation and maintenance (O&M) of a portion of the Project
406 facilities which serve the Contractor, and responsibility for funding a portion of the costs of such
407 O&M, have been transferred to the San Luis & Delta-Mendota Water Authority, an Operating
408 Non-Federal Entity by separate agreement (8-07-20-X0354) between the United States and the
409 Operating Non-Federal Entity San Luis & Delta-Mendota Water Authority. That separate
410 agreement shall not interfere with or affect the rights or obligations of the Contractor or the
411 United States hereunder.

412 (b) The Contracting Officer has previously notified the Contractor in writing
413 that the Operation and Maintenance of a portion of the Project facilities which serve the
414 Contractor has been transferred to the Operating Non-Federal Entity San Luis & Delta-Mendota
415 Water Authority, and therefore, the Contractor shall pay directly to the Operating Non-Federal
416 Entity San Luis & Delta-Mendota Water Authority, or to any successor approved by the
417 Contracting Officer under the terms and conditions of the separate agreement between the United
418 States and the Operating Non-Federal Entity San Luis & Delta-Mendota Water Authority
419 described in subdivision (a) of this Article, all rates, charges, or assessments of any kind,
420 including any assessment for reserve funds, which the Operating Non-Federal Entity San Luis &
421 Delta-Mendota Water Authority or such successor determines, sets, or establishes for the O&M

422 of the portion of the Project facilities operated and maintained by the Operating Non-Federal
423 Entity San Luis & Delta-Mendota Water Authority or such successor. Such direct payments to
424 the Operating Non-Federal Entity San Luis & Delta-Mendota Water Authority or such successor
425 shall not relieve the Contractor of its obligation to pay directly to the United States the
426 Contractor's share of the Project Rates, Charges, and Tiered Pricing Component except to the
427 extent the Operating Non-Federal Entity San Luis & Delta-Mendota Water Authority collects
428 payments on behalf of the United States in accordance with the separate agreement identified in
429 subdivision (a) of this Article.

430 (c) For so long as the O&M of any portion of the Project facilities serving the
431 Contractor is performed by the Operating Non-Federal Entity San Luis & Delta-Mendota Water
432 Authority, or any successor thereto, the Contracting Officer shall adjust those components of the
433 Rates for Water Delivered under this Contract representing the cost associated with the activity
434 being performed by the Operating Non-Federal Entity San Luis & Delta-Mendota Water
435 Authority or its successor

436 (d) In the event the O&M of the Project facilities operated and maintained by
437 the Operating Non-Federal Entity San Luis & Delta-Mendota Water Authority is re-assumed by
438 the United States during the term of this Contract, the Contracting Officer shall so notify the
439 Contractor, in writing, and present to the Contractor a revised Exhibit "B" which shall include
440 the portion of the Rates to be paid by the Contractor for Project Water under this Contract
441 representing the O&M costs of the portion of such Project facilities which have been re-assumed.

442 The Contractor shall, thereafter, in the absence of written notification from the Contracting
443 Officer to the contrary, pay the Rates, Charges, and Tiered Pricing Component specified in the
444 revised Exhibit “B” directly to the United States in compliance with Article 7 of this Contract.

445

446 9. **The Existing Contract is hereby amended to add Articles 18.1 and 18.2 entitled**
447 **OPERATION AND MAINTENANCE BY SANTA CLARA VALLEY WATER**
448 **DISTRICT; and RIGHT TO RECOVER COSTS INCURRED BY SANTA CLARA**
449 **VALLEY WATER DISTRICT:**

450 OPERATION AND MAINTENANCE BY SANTA CLARA VALLEY WATER DISTRICT

451 18.1 (a) The O&M of a portion of the Division Facilities have been transferred to
452 Santa Clara Valley Water District by separate agreement (Contract No. 6-07-20-X0290) between
453 the United States and the existing San Felipe Division Contractors. Unless otherwise expressly
454 set forth herein, nothing in this Contract is intended to affect the rights and obligations set forth
455 in Contract No. 6-07-20-X0290. The United States and the Contractor agree that this Contract,
456 and any amendments or renewals thereto, shall be considered to be within the definition of
457 “Contract” as provided in Contract No. 6-07-20-X0290, so that the execution of this Contract
458 shall not impact the effectiveness of Contract No. 6-07-20-X0290, and Contract No. 6-07-20-
459 X0290 is hereby deemed to so provide.

460 (b) The Contractor is authorized under Contract No. 6-07-20-X0290 and this
461 Contract to undertake activities necessary for the complete care, operation, maintenance and

462 replacement of Reach 1 Facilities, Reach 2 Facilities and Reach 3 Facilities, to maintain efficient
463 and reliable operating condition and fulfillment of authorized San Felipe Division purposes. The
464 Contracting Officer shall use its best efforts to promptly review proposals for work to be
465 undertaken by the Contractor pursuant to said agreement, and to promptly coordinate and
466 facilitate such work. To the extent that the approval or determination of the Contracting Officer
467 is required in connection with any such activities, such approval or determination shall not be
468 unreasonably withheld.

469 RIGHT TO RECOVER COSTS INCURRED BY SANTA CLARA VALLEY WATER
470 DISTRICT

471 18.2 (a) Subject to Articles 18.2(b) and 18.2(c) of this Contract, the Contractor, as
472 the Operating Non-Federal Entity, has the right to require any entity or individual to pay the
473 Contractor an amount(s) to recover costs incurred by the Contractor for Reach 1 Facilities, Reach
474 2 Facilities and Reach 3 Facilities, in addition to O&M costs, provided that such amount(s) are
475 just and reasonable. In any contract or approval by the Contracting Officer to deliver water
476 through such Facilities, the Contracting Officer shall require the entity or individual to pay such
477 amount(s) to the Contractor, upon presentation of Contractor's invoice therefore.

478 (b) Unless otherwise agreed, the Contractor's right to recover capital costs
479 from San Benito County Water District is limited to such capital costs for its share of Reach 1
480 Facilities that are not paid directly to the United States by San Benito County Water District
481 under the terms of Contract No. 8-07-20-W0130A. San Benito County Water District's share of
482 Reach 1 Facilities shall be based on Article 3(b) of Contract No. 6-07-20-X0290 or as otherwise

483 mutually agreed upon by the Contractor and San Benito County Water District in a separate
484 contract.

485 (c) Amount(s) imposed by the Contractor to recover costs from Pajaro Valley
486 Water Management Agency shall include previous and current costs, and Pajaro Valley Water
487 Management Agency's share of capital repayment, all of which are to be consistent with the
488 cost-sharing provisions of Contract No. 6-07-20-X290, or as otherwise mutually agreed by the
489 Contractor and Pajaro Valley Water Management Agency in a separate contract. Such contract
490 and amount(s) collected pursuant thereto shall satisfy the requirements of Article 3 of Contract
491 No. 6-07-20-X0290.

492 10. **Article 24 of the Existing Contract entitled LANDS NOT TO RECEIVE**
493 **WATER FURNISHED TO CONTRACTOR BY UNITED STATES UNTIL OWNERS**
494 **THEREOF EXECUTE CERTAIN CONTRACTS**, Article 25 of the Existing Contract
495 entitled **VALUATION AND SALE OF EXCESS LANDS** and Article 26 of the Existing
496 Contract entitled **EXCESS LANDS** are hereby deleted in their entirety and the following is
497 added as subdivision (b) of Article 31 of the Existing Contract entitled **RULES AND**
498 **REGULATIONS:**

499 (b) Except as provided by the San Felipe Division Act of August 28, 1967 (81
500 Stat. 173), the parties agree that the delivery of agricultural water or use of Federal facilities
501 pursuant to this Contract is subject to Federal Reclamation law, including but not limited to the
502 Reclamation Reform Act of 1982 (43 U.S.C.390aa et seq.), as amended and supplemented, and

503 the rules and regulations promulgated by the Secretary of the Interior under Federal Reclamation
504 law.

505 11. **The Existing Contract is hereby amended to add Article 43 entitled WATER**

506 **CONSERVATION:**

507 WATER CONSERVATION

508 43. (a) Prior to the delivery of water provided from or conveyed through
509 Federally constructed or Federally financed facilities pursuant to this contract, the Contractor
510 shall be implementing an effective water conservation and efficiency program based on the
511 Contractor's water conservation plan that has been determined by the Contracting Officer to meet
512 the conservation and efficiency criteria for evaluating water conservation plans established under
513 Federal law. The water conservation and efficiency program shall contain definite water
514 conservation objectives, appropriate economically feasible water conservation measures, and
515 time schedules for meeting those objectives. Continued Project water delivery pursuant to this
516 contract shall be contingent upon the Contractor's continued implementation of such water
517 conservation program. In the event the Contractor's water conservation plan or any revised water
518 conservation plan completed pursuant to this Contract have not yet been determined by the
519 Contracting Officer to meet such criteria, due to circumstances which the Contracting Officer
520 determines are beyond the control of the Contractor, water deliveries shall be made under this
521 contract so long as the Contractor diligently works with the Contracting Officer to obtain such
522 determination at the earliest practicable date, and thereafter the Contractor immediately begins

523 implementing its water conservation and efficiency program in accordance with the time
524 schedules therein.

525 (b) Should the amount of M&I Water delivered pursuant to subdivision (b) of
526 Article 3 of this Contract equal or exceed 2,000 acre-feet per Year, the Contractor shall
527 implement the Best Management Practices identified by the time frames issued by the California
528 Urban Water Conservation Council for such M&I Water unless any such practice is determined
529 by the Contracting Officer to be inappropriate for the Contractor.

530 (c) The Contractor shall submit to the Contracting Officer a report on the
531 status of its implementation of the water conservation plan on the reporting dates specified in the
532 then existing conservation and efficiency criteria established under Federal law.

533 (d) At 5 year intervals, the Contractor shall revise its water conservation plan
534 to reflect the then current conservation and efficiency criteria for evaluating water conservation
535 plans established under Federal law and submit such revised water management plan to the
536 Contracting Officer for review and evaluation. The Contracting Officer will then determine if
537 the water conservation plan meets Reclamation's then current conservation and efficiency
538 criteria for evaluating water conservation plans established under Federal law.

539 (e) If the Contractor is engaged in direct groundwater recharge, such activity
540 shall be described in the Contractor's water conservation plan.

541 12. Except as expressly modified by the provisions hereof, the Existing
542 Contract shall remain in full force and effect.

543 IN WITNESS WHEREOF, the parties hereto have executed this First Amendment to Contract
544 No. 7-07-20-W0023 on the day and year first above written.
