8 CONTRACT BETWEEN THE UNITED STATES AND
9 DAVIS RANCHES,
10 DIVERTER OF WATER FROM SACRAMENTO RIVER SOURCES
11 SETTLING WATER RIGHTS DISPUTES AND
12 PROVIDING FOR PROJECT WATER

13 THIS CONTRACT, hereinafter referred to as "Settlement Contract," is entered into
14 by THE UNITED STATES OF AMERICA, hereinafter referred to as the United States, made
15 this ____ day of _____, 2004, pursuant to the applicable authority granted to
16 it generally in the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or supplementary
17 thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844), as amended and
18 supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented, including, but not
19 limited to, Sections 9 and 14 thereto, July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68),
20 October 12, 1982 (96 Stat. 1262), October 27, 1986 (100 Stat. 3050), as amended, and Title
21 XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all collectively hereinafter referred to
22 as Federal Reclamation law, and DAVIS RANCHES, hereinafter referred to as the Contractor, a
23 _____, acting pursuant to Sections 12003 and 12004 of the California Water Code, with
24 its principal place of business in California;

25 WITNESSETH, that:

[1st] WHEREAS, the United States has constructed and is operating the Central Valley Project, California, for multiple purposes pursuant to its statutory authority; and

[2nd] WHEREAS, the Contractor has rights to divert, is diverting, and will continue to divert for reasonable beneficial use, water from the natural flow of the Sacramento River and tributaries thereto, that would have been flowing therein if the Central Valley Project were not in existence; and

[3rd] WHEREAS, the construction and operation of the integrated and coordinated Central Valley Project has changed and will further change the regimen of the Sacramento, American, San Joaquin, and Trinity Rivers and the Sacramento-San Joaquin Delta from unregulated flow to regulated flow; and

[4th] WHEREAS, the United States has rights to divert, is diverting, and will continue to divert waters from said Rivers and said Delta in connection with the operation of said Central Valley Project; and

[5th] WHEREAS, the Contractor and the United States had a dispute over the respective rights of the parties to divert and use water from the regulated flow of the Sacramento River which threatened to result in litigation, and as a means to settle that dispute entered into Contract No. 14-06-200-2146A, hereinafter referred to as the Existing Contract, which established terms for the delivery to the Contractor of Central Valley Project Water, and the quantities of Base Supply the United States and the Contractor agreed may be diverted by the Contractor from the Sacramento River pursuant to such contract; and

[6th] WHEREAS, the United States and the Contractor disagree with respect to the authority of the United States to change the quantities of Base Supply and/or Project Water

1 specified as available for diversion in this Settlement Contract from the quantities specified in
2 the Existing Contract, and other issues related thereto. That dispute was the subject of litigation
3 in a lawsuit entitled *Glenn-Colusa Irrigation District, et al. v. United States, et al.* [Civ. No. S-
4 01-1816 GEB/JFM (E.D. Cal.)], but that litigation was dismissed, without prejudice, pursuant to
5 a stipulation of dismissal filed by the parties thereto on August 29, 2002. Notwithstanding that
6 dismissal, the Contractor and the United States enter into this Settlement Contract to renew the
7 Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and
8 the laws of the State of California; and

9 [7th] WHEREAS, to assure the Contractor of the enjoyment and use of the regulated
10 flow of the said Rivers and the Delta, and to provide for the economical operation of the Central
11 Valley Project by, and the reimbursement to, the United States for expenditures made for said
12 Project.

13 NOW, THEREFORE, in consideration of the performance of the herein contained
14 provisions, conditions, and covenants, it is agreed as follows:

15 DEFINITIONS

16 1. When used herein, unless otherwise expressed or incompatible with the intent
17 hereof, the term:

18 (a) “Base Supply” shall mean the quantity of Surface Water established in
19 Articles 3 and 5 which may be diverted by the Contractor from the Sacramento River each month
20 during the period April through October of each Year without payment to the United States for
21 such quantities diverted;

22 (b) “Basin-Wide Water Management Plan” shall mean the mutually agreeable
23 Sacramento River Basinwide Water Management Plan, dated _____, developed by

1 Glenn-Colusa Irrigation District, Maxwell Irrigation District, Natomas Central Mutual Water
2 Company, Pelger Mutual Water Company, Princeton-Codora-Glenn Irrigation District, Provident
3 Irrigation District, Reclamation District 108, Sutter Mutual Water Company, Anderson-
4 Cottonwood Irrigation District, Meridian Farms Water Company, Reclamation District 1004, and
5 the U.S. Bureau of Reclamation;

6 (c) “Charges” shall mean the payments for Project Water that the Contractor
7 is required to pay to the United States in addition to the “Rates” specified in this Settlement
8 Contract. The Contracting Officer will, on an annual basis, determine the extent of these
9 Charges. The type and amount of each Charge shall be specified in Exhibit D;

10 (d) “Contract Total” shall mean the sum of the Base Supply and Project Water
11 available for diversion by the Contractor for the period April 1 through October 31;

12 (e) “Critical Year” shall mean any Year in which either of the following
13 eventualities exists:

14 (1) The forecasted full natural inflow to Shasta Lake for the current
15 Water Year, as such forecast is made by the United States on or before February 15 and reviewed
16 as frequently thereafter as conditions and information warrant, is equal to or less than 3.2 million
17 acre-feet; or

18 (2) The total accumulated actual deficiencies below 4 million acre-feet
19 in the immediately prior Water Year or series of successive prior Water Years each of which had
20 inflows of less than 4 million acre-feet, together with the forecasted deficiency for the current
21 Water Year, exceed 800,000 acre-feet.

22 For the purpose of determining a Critical Year, the computation of inflow to
23 Shasta Lake shall be performed in a manner that considers the extent of upstream development

1 above Shasta Lake during the year in question, and shall be used as the full natural flow to
2 Shasta Lake. In the event that major construction has occurred or occurs above Shasta Lake after
3 September 1, 1963, and which has materially altered or alters the regimen of the stream systems
4 contributing to Shasta Lake, the computed inflow to Shasta Lake used to define a Critical Year
5 will be adjusted to eliminate the effect of such material alterations. After consultation with the
6 State of California, the National Weather Service, and other recognized forecasting agencies, the
7 Contracting Officer will select the forecast to be used and will make the details of it available to
8 the Contractor. The same forecasts used by the United States for the operation of the Project
9 shall be used to make the forecasts hereunder;

10 (f) "CVPIA" shall mean the Central Valley Project Improvement Act, Title
11 XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

12 (g) "Eligible Lands" shall mean all lands to which Project Water may be
13 delivered in accordance with Section 204 of the Reclamation Reform Act of October 12, 1982
14 (96 Stat. 1263), as amended, hereinafter referred to as RRA;

15 (h) "Excess Lands" shall mean all lands in excess of the limitations contained
16 in Section 204 of the RRA, other than those lands exempt from acreage limitation under Federal
17 Reclamation law;

18 (i) "Full Cost Rate" shall mean that water rate described in Sections 205(a)(3)
19 or 202(3) of the RRA, whichever is applicable;

20 (j) "Ineligible Lands" shall mean all lands to which Project Water may not be
21 delivered in accordance with Section 204 of the RRA;

22 (k) "Landholder" shall mean a party that directly or indirectly owns or leases
23 nonexempt land, as provided in 43 CFR 426.2;

1 (l) “Project” shall mean the Central Valley Project owned by the United
2 States and managed by the Department of the Interior, Bureau of Reclamation;

3 (m) “Project Water” shall mean all Surface Water diverted or scheduled to be
4 diverted each month during the period April through October of each Year by the Contractor
5 from the Sacramento River which is in excess of the Base Supply. The United States recognizes
6 the right of the Contractor to make arrangements for acquisition of water from projects of others
7 than the United States for delivery through the Sacramento River and tributaries subject to
8 written agreement between Contractor and the United States as to identification of such water
9 which water when so identified shall not be deemed Project Water under this Settlement
10 Contract;

11 (n) “Rates” shall mean the payments for Project Water determined annually
12 by the Contracting Officer in accordance with the then current applicable water ratesetting
13 policies for the Project, as described in subdivision (a) of Article 8 of this Settlement Contract;

14 (o) “Secretary” or “Contracting Officer” shall mean the Secretary of the
15 Interior, a duly appointed successor, or an authorized representative acting pursuant to any
16 authority of the Secretary and through any agency of the Department of the Interior;

17 (p) “Surface Water” shall mean only those waters that are considered as
18 surface water under California law;

19 (q) “Water Year” shall mean the period commencing with October 1 of 1 year
20 and extending through September 30 of the next; and

21 (r) “Year” shall mean a calendar year.

1 at the locations shown in Exhibit A, for beneficial use within the area delineated on Exhibit B,
2 (both Exhibits are attached hereto and made a part hereof), the Contract Total designated in
3 Exhibit A, or any revision thereof, in accordance with the monthly operating schedule required
4 by Article 3(c) of this Settlement Contract. The quantity of any water diverted under this
5 Settlement Contract from the Sacramento River, during the period April through October, for use
6 on any lands delineated on Exhibit B, by the owner of such lands or otherwise shall constitute a
7 part of the Contract Total as shown on Exhibit A and shall be subject to all the provisions of this
8 Settlement Contract relating to such Contract Total as if such diversion were made by the
9 Contractor. The Contractor reserves the right to, and may at its option, divert water for
10 beneficial use under License No. 4056 on Application 12412, License No. 5796 on Application
11 13000, License No. 7062 on Application 13001, and License No. 4057 on Application 13002
12 from the Colusa Basin Drain to the extent permitted under California law for beneficial use
13 within the area delineated on Exhibit B. Nothing in this Contract shall be deemed to interfere
14 with the Contractor's rights to diversions into and out of the Colusa Basin Drain and Glenn-
15 Colusa Irrigation District's (District) canal which the Contractor has under an agreement with the
16 District dated August 9, 1963, and recorded in Book 314 of Official Records of Colusa County,
17 California at pages 372 through 383, and which diversions are for beneficial use within the area
18 delineated on Exhibit B. The lawfulness of the Contractor's points of diversion for said area
19 from the Colusa Basin Drain or said District's canal will not be challenged by, or on behalf of,
20 the Bureau of Reclamation except in the case of a general stream adjudication provided for in
21 subdivisions (b) and (c) of Article 9.

22 (b) The Contractor may have acquired rights to divert water from the
23 Sacramento River during the period April through October, that were obtained after the date of

1 execution of the Existing Contract, or the Contractor may acquire such rights in the future. All
2 diversions made from the Sacramento River, pursuant to such rights, during the period April
3 through October, shall not be considered a part of the quantity of Base Supply and Project Water
4 specified in Exhibit A; Provided, that the quantities diverted pursuant to the above rights shall be
5 identified on the schedule submitted pursuant to Article 3(c) below, and shall not be substituted
6 for any Base Supply or Project Water; Provided, further, that any such identified quantities of
7 other acquired rights may be diverted by the Contractor before incurring any fee pursuant to
8 Article 3(c)(1), below.

9 (c) Before April 1 and before the first day of each month thereafter when a
10 revision is needed, the Contractor shall submit a written schedule to the Contracting Officer
11 indicating the Contract Total to be diverted by the Contractor during each month under this
12 Settlement Contract. The United States shall furnish water to the Contractor in accordance with
13 the monthly operating schedule or any revisions thereof. However, the United States recognizes
14 the need of the Contractor to change from time to time its monthly diversions of water from the
15 quantities shown in Exhibit A; the Contractor may make such changes, provided:

16 (1) that for the quantity of Base Supply diverted in excess of the
17 monthly quantity shown in Exhibit A, and as may be reduced in accordance with Article 5(a),
18 during June, July, August, September, or October of any Water Year, the Contractor shall be
19 charged a rescheduling fee equal to 50 percent of the sum of the storage operations and
20 maintenance rate and the storage capital rate components of the Project ratesetting policy.

21 (2) that in no event shall the total quantity scheduled for diversion by
22 the Contractor from the Sacramento River:

1 (i) During the period April through October exceed the
2 aggregate of the Contract Total for that period shown in Exhibit A or any revision
3 thereof;

4 (ii) During the period July through September exceed the
5 aggregate of the Contract Total for that period shown in Exhibit A or any revision
6 thereof.

7 (d) In the event conditions warrant, the Contracting Officer reserves the right
8 to require the Contractor to submit, at least 72 hours prior to the beginning of each weekly
9 period, its estimate of daily diversion requirements for each such period from the Sacramento
10 River: Provided, however, that changes during any such period may be made upon the giving of
11 72 hours' notice thereof to the Contracting Officer.

12 (e) No sale, transfer, exchange, or other disposal of any of the Contract Total
13 designated in Exhibit A or the right to the use thereof for use on land other than that shown on
14 Exhibit B shall be made by the Contractor without first obtaining the written consent of the
15 Contracting Officer. Such consent will not be unreasonably withheld and a decision will be
16 rendered in a timely manner. For short-term actions that will occur within 1 year or less, the
17 decision will be rendered within 30 days after receipt of a complete written proposal. For long-
18 term actions that will occur in a period longer than 1 year, the decision will be rendered within
19 90 days after receipt of a complete written proposal. For a proposal to be deemed complete by
20 the Contracting Officer, it must comply with all provisions required by State and Federal law,
21 including information sufficient to enable the Contracting Officer to comply with the National
22 Environmental Policy Act, the Endangered Species Act, and applicable rules or regulations then
23 in effect; Provided that, such consent does not authorize the use of Federal facilities to facilitate

1 or effectuate the sale, transfer, exchange, or other disposal of Base Supply. Such use of Federal
2 facilities will be the subject of a separate agreement to be entered into between the Contractor
3 and Reclamation.

4 (f) For the purpose of determining whether Section 3405(a)(1)(M) of the
5 CVPIA applies to the Contractor as a transferor or transferee of Project Water, the Contracting
6 Officer acknowledges that the Contractor is within a county, watershed, or other area of origin,
7 as those terms are utilized under California law.

8 (g) Nothing herein contained shall prevent the Contractor from diverting
9 water during the months of November through March for beneficial use on the land shown on
10 Exhibit B or elsewhere to the extent authorized under the laws of the State of California.

11 (h) The United States assumes no responsibility for and neither it nor its
12 officers, agents, or employees shall have any liability for or on account of:

13 (1) The quality of water to be diverted by the Contractor;

14 (2) The control, carriage, handling, use, disposal, or distribution of
15 water diverted by the Contractor outside the facilities constructed and then being operated and
16 maintained by or on behalf of the United States;

17 (3) Claims of damage of any nature whatsoever, including but not
18 limited to, property loss or damage, personal injury, or death arising out of or connected with the
19 control, carriage, handling, use, disposal, or distribution of said water outside of the hereinabove
20 referred to facilities; and

21 (4) Any damage whether direct or indirect arising out of or in any
22 manner caused by a shortage of water whether such shortage be on account of errors in
23 operation, drought, or unavoidable causes.

1 all water supplies including, but not limited to, the better management and integration of surface
2 water and groundwater, the development and better utilization of surface water storage, the
3 effective utilization of waste, seepage and return flow water, and other operational and
4 management options that may be identified in the future.

5 USE OF WATER FURNISHED TO CONTRACTOR

6 7. (a) Project Water furnished to the Contractor pursuant to this Settlement
7 Contract shall not be delivered or furnished by the Contractor for any purposes other than
8 agricultural purposes without the written consent of the Contracting Officer. For purposes of this
9 Settlement Contract, “agricultural purposes” includes, but is not restricted to, the irrigation of
10 crops, the watering of livestock, incidental domestic use including related landscape irrigation, or
11 underground water replenishment.

12 (b) The Contractor shall comply with requirements applicable to the
13 Contractor in biological opinion(s) prepared as a result of a consultation regarding the execution
14 of this Settlement Contract undertaken pursuant to Section 7 of the Endangered Species Act of
15 1973, as amended, that are within the Contractor’s legal authority to implement. The Contractor
16 shall comply with the limitations or requirements imposed by environmental documentation
17 applicable to the Contractor and within its legal authority to implement. The Existing Contract,
18 which evidences in excess of 40 years of diversions, for agricultural uses, of the quantities of
19 water provided for in Article 3, and the underlying water rights of the Contractor will be
20 considered in developing an appropriate base-line for the Biological Assessment prepared
21 pursuant to the Endangered Species Act, and in any other needed environmental review.

22 Nothing herein shall be construed to prevent the Contractor from challenging or seeking judicial

1 relief in a court of competent jurisdiction with respect to any biological opinion or other
2 environmental documentation referred to in this Article.

3 RATE AND METHOD OF PAYMENT FOR WATER

4 8. (a) The Contractor shall make payments to the United States as provided in
5 this Article for all Project Water shown in Exhibit A as follows:

6 (1) 75 percent of the amount shown as Project Water shall be paid for
7 by the Contractor in each Year; and in addition

8 (2) the Contractor shall pay for Project Water actually diverted in
9 excess of 75 percent of the amount shown as Project Water.

10 Such payments shall be at Rates and Charges established in accordance with: (i) the
11 Secretary's then-current ratesetting policies for the Project; and (ii) applicable Reclamation law
12 and associated rules and regulations, or policies: Provided, that if the Contractor desires to use
13 Project Water for other than agricultural use the Rates and Charges set forth above will be
14 adjusted by the Contracting Officer to the applicable Rates and Charges for such use. The Rates
15 and Charges applicable to the Contractor upon execution of this Settlement Contract are set forth
16 in Exhibit D, as may be revised annually. The Secretary's ratesetting policies for the Project
17 shall be amended, modified, or superseded only through a public notice and comment procedure.
18 The Contracting Officer shall adjust the amount of Project Water for which payment is required
19 to the extent of any reduction in diversions of Project Water made in accordance with the water
20 conservation provisions of Article 29(e).

21 (b) The Contracting Officer shall notify the Contractor of the Rates and
22 Charges as follows:

1 (1) Prior to July 1 of each Year, the Contracting Officer shall provide
2 the Contractor an estimate of the Charges for Project Water that will be applied to the period
3 October 1, of the current Year, through September 30, of the following Year, and the basis for
4 such estimate. The Contractor shall be allowed not less than 2 months to review and comment
5 on such estimates. On or before September 15 of each Year, the Contracting Officer shall notify
6 the Contractor in writing of the Charges to be in effect during the period October 1 of the current
7 Year, through September 30, of the following Year, and such notification shall revise Exhibit D.

8 (2) Prior to October 1 of each Year, the Contracting Officer shall make
9 available to the Contractor an estimate of the Rates for Project Water for the following Year and
10 the computations and cost allocations upon which those Rates are based. The Contractor shall be
11 allowed not less than 2 months to review and comment on such computations and cost
12 allocations. By December 31 of each Year, the Contracting Officer shall provide the Contractor
13 with the final Rates to be in effect for the upcoming Year, and such notification shall revise
14 Exhibit D.

15 (c) The Contractor shall pay the United States for Project Water in the
16 following manner:

17 (1) With respect to Rates, prior to May 1 of each Year, the Contractor
18 shall pay the United States one-half the total amount payable pursuant to subdivision (a) of this
19 Article and the remainder shall be paid prior to July 1 or such later date or dates as may be
20 specified by the United States in a written notice to the Contractor: Provided, however, that if at
21 any time during the Year the amount of Project Water diverted by the Contractor shall equal the
22 amount for which payment has been made, the Contractor shall pay for the remaining amount of
23 such water as shown in Exhibit A in advance of any further diversion of Project Water.

1 (2) With respect to Charges, the Contractor shall also make a payment
2 to the United States, in addition to the Rate(s) in subdivision (c)(1) of this Article, at the Charges
3 then in effect, before the end of the month following the month of delivery or transfer. The
4 payments shall be consistent with the quantities of Project Water delivered or transferred.
5 Adjustment for overpayment or underpayment of Charges shall be made through the adjustment
6 of payments due to the United States for Charges for the next month. Any amount to be paid for
7 past due payment of Charges shall be computed pursuant to Article 13 of this Settlement
8 Contract.

9 (d) Payments to be made by the Contractor to the United States under this
10 Settlement Contract may be paid from any revenues available to the Contractor.

11 (1) All revenues received by the United States from the Contractor
12 relating to the delivery of Project Water or the delivery of non-Project Water through Project
13 facilities shall be allocated and applied in accordance with Federal Reclamation law and the
14 associated rules or regulations, and the then current Project ratesetting policies for irrigation
15 water.

16 (e) The Contracting Officer shall keep its accounts pertaining to the
17 administration of the financial terms and conditions of its long-term water service and Settlement
18 Contracts, in accordance with applicable Federal standards, so as to reflect the application of
19 Project costs and revenues. The Contracting Officer shall, each Year upon request of the
20 Contractor, provide to the Contractor a detailed accounting of all Project and Contractor expense
21 allocations, the disposition of all Project and Contractor revenues, and a summary of all water
22 delivery information. The Contracting Officer and the Contractor shall enter into good faith

1 negotiations to resolve any discrepancies or disputes relating to accountings, reports, or
2 information.

3 (f) The parties acknowledge and agree that the efficient administration of this
4 Settlement Contract is their mutual goal. Recognizing that experience has demonstrated that
5 mechanisms, policies, and procedures used for establishing Rates and Charges and/or for making
6 and allocating payments, other than those set forth in this Article may be in the mutual best
7 interest of the parties, it is expressly agreed that the parties may enter into agreements to modify
8 the mechanisms, policies, and procedures for any of those purposes while this Settlement
9 Contract is in effect without amendment of this Settlement Contract.

10 (g) For the term of this Settlement Contract, Rates under the respective
11 ratesetting policies for the Project will be established to recover only reimbursable operation and
12 maintenance (including any deficits) and capital costs of the Project, as those terms are used in
13 the then current Project ratesetting policies, and interest, where appropriate, except in instances
14 where a minimum Rate is applicable in accordance with the relevant Project ratesetting policy.
15 Proposed changes of significance in practices which implement the ratesetting policies for the
16 Project will not be implemented until the Contracting Officer has provided the Contractor an
17 opportunity to discuss the nature, need, and impact of the proposed change. The Contractor
18 retains all rights to challenge the validity of Rates and Charges imposed pursuant to this
19 Settlement Contract, including but not limited to operation and maintenance expenses and
20 operation and maintenance deficits, in an appropriate administrative or judicial proceeding.

21 (h) Except as provided in subsection 3405(a)(1)(B) of the CVPIA, the Rates
22 for Project Water transferred, exchanged, or otherwise disposed of, by the Contractor shall be the
23 Contractor's Rates adjusted upward or downward to reflect the changed costs of delivery (if any)

1 of the transferred, exchanged, or otherwise disposed of Project Water to the transferee's point of
2 delivery in accordance with the then-current ratesetting policies for the Project. Except as
3 provided in subsection 3407(d)(2)(A) of the CVPIA, the Charges for Project Water transferred,
4 exchanged, or otherwise disposed of, by the Contractor shall be the Contractor's Charges
5 specified in Exhibit D. If the Contractor is receiving lower Rates and Charges because of
6 inability to pay and is transferring, exchanging, or otherwise disposing of Project Water to
7 another entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and
8 Charges for transferred, exchanged, or otherwise disposed of Project Water shall be the
9 Contractor's Rates and Charges unadjusted for ability to pay.

10 (i) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting
11 Officer is authorized to adjust determinations of ability to pay every 5 years.

12 (j) Each payment to be made pursuant to subdivisions (a) and (b) of this
13 Article shall be made at the office of the Bureau of Reclamation, Mid-Pacific Region, File
14 No. 11546, P.O. Box 6000, San Francisco, California 94160-1546, or at such other place as the
15 United States may designate in a written notice to the said Contractor. Payments shall be made
16 by cash transaction, wire, or any other mechanism as may be agreed to in writing by the
17 Contractor and the Contracting Officer. In the event there should be a default in the payment of
18 the amount due, the delinquent payment provisions of Article 13 shall apply. The Contractor
19 shall not be relieved of the whole or any part of its said obligation by, on account of, or
20 notwithstanding, as the case may be:

21 (1) Its failure, refusal, or neglect to divert 75 percent of the quantity of
22 Project Water shown on Exhibit A;

1 (2) The default in payment to it by any water user of assessments,
2 tolls, or other charges levied by or owing to said Contractor;

3 (3) Any judicial determination that any assessment, toll, or other
4 charge referred to in subsection 8(c)(2) of this Settlement Contract is irregular, void, or
5 ineffectual; or

6 (4) Any injunctive process enjoining or restraining the Contractor
7 from making or collecting any such assessment, toll, or other charge referred to in subsection
8 8(c)(2) of this Settlement Contract.

9 AGREEMENT ON WATER QUANTITIES

10 9. (a) During the term of this Settlement Contract and any renewals thereof:

11 (1) It shall constitute full agreement as between the United States and
12 the Contractor as to the quantities of water and the allocation thereof between Base Supply and
13 Project Water which may be diverted by the Contractor from the Sacramento River for beneficial
14 use on the land shown on Exhibit B which said diversion, use, and allocation shall not be
15 disturbed so long as the Contractor shall fulfill all of its obligations hereunder;

16 (2) Neither party shall claim any right against the other in conflict with
17 the provisions of Article 9(a)(1) hereof.

18 (b) Nothing herein contained is intended to or does limit rights of the
19 Contractor against others than the United States or of the United States against any person other
20 than the Contractor: Provided, however, that in the event the Contractor, the United States, or
21 any other person shall become a party to a general adjudication of rights to the use of water of
22 the Sacramento River system, this Settlement Contract shall not jeopardize the rights or position
23 of either party hereto or of any other person and the rights of all such persons in respect to the

1 use of such water shall be determined in such proceedings the same as if this Settlement Contract
2 had not been entered into, and if final judgment in any such general adjudication shall determine
3 that the rights of the parties hereto are different from the rights as assumed herein, the parties
4 shall negotiate an amendment to give effect to such judgment. In the event the parties are unable
5 to agree on an appropriate amendment they shall, within 60 days of determining that there is an
6 impasse, employ the services of a neutral mediator, experienced in resolving water rights
7 disputes, to assist in resolving the impasse. The cost of the mediation will be shared equally. A
8 failure to reach agreement on an amendment within 60 days of the end of mediation will cause
9 the immediate termination of this Settlement Contract.

10 (c) In the event that the California State Water Resources Control Board or a
11 court of competent jurisdiction issues a final decision or order modifying the terms and
12 conditions of the water rights of either party to this Settlement Contract in order to impose Bay-
13 Delta water quality obligations, the Contractor and the United States shall promptly meet to
14 determine whether or not to modify any of the terms of this Settlement Contract to comply with
15 the final decision or order, including, but not limited to, the applicability of the rescheduling
16 charge in Article 3(c)(1) of this Settlement Contract. If within 60 days of the date of the issuance
17 of the final decision or order the parties are not able to reach agreement regarding either the need
18 to modify this Settlement Contract or the manner in which this Settlement Contract is to be
19 modified, the parties shall promptly retain a neutral mediator, experienced in resolving water
20 right disputes, to assist the parties in resolving their dispute. The cost of the mediator shall be
21 shared equally. In the event that either of the parties to this Settlement Contract determines that
22 the parties will not be able to develop mutually-agreeable modification(s) to this Settlement
23 Contract even with the assistance of a mediator, either of the parties to this Settlement Contract

1 may attempt to resolve the impasse by seeking appropriate judicial relief including, but not
2 limited to, filing a general adjudication of the rights to the use of water in the Sacramento River
3 system. The foregoing provisions of this sub-article shall only apply to the incremental
4 obligations contained within a final decision or order of the State Water Resources Control
5 Board that reflects a modification to the obligations imposed in State Water Resources Control
6 Board Revised Water Rights Decision 1641 dated March 15, 2000, and its associated 1995 Water
7 Quality Control Plan which, taken together, will be considered the baseline for the application of
8 the provisions of this sub-article.

9 (d) In the event this Settlement Contract terminates, the rights of the parties to
10 thereafter divert and use water shall exist as if this Settlement Contract had not been entered into;
11 and the fact that as a compromise settlement of a controversy as to the respective rights of the
12 parties to divert and use water and the yield of such rights during the term hereof, this Settlement
13 Contract places a limit on the Contract Total to be diverted annually by the Contractor during the
14 Settlement Contract term and segregates it into Base Supply and Project Water shall not
15 jeopardize the rights or position of either party with respect to its water rights or the yield thereof
16 at all times after the Settlement Contract terminates. It is further agreed that the Contractor at all
17 times will first use water to the use of which it is entitled by virtue of its own water rights, and
18 neither the provisions of this Settlement Contract, action taken thereunder, nor payments made
19 thereunder to the United States by the Contractor shall be construed as an admission that any part
20 of the water used by the Contractor during the term of this Settlement Contract was in fact water
21 to which it would not have been entitled under water rights owned by it nor shall receipt of
22 payments thereunder by the United States from the Contractor be construed as an admission that

1 any part of the water used by the Contractor during the term of this Settlement Contract was in
2 fact water to which it would have been entitled under water rights owned by it.

3 MEASUREMENT OF WATER

4 10. (a) All water diverted by the Contractor from the Sacramento River will be
5 diverted at the existing point or points of diversion shown on Exhibit A or at such other points as
6 may be mutually agreed upon in writing by the Contracting Officer and the Contractor.

7 (b) All water diverted from the Sacramento River pursuant to this Settlement
8 Contract will be measured or caused to be measured by the United States at each point of
9 diversion with existing equipment or equipment to be installed, operated, and maintained by the
10 United States, and/or others, under contract with and at the option of the United States. The
11 equipment and methods used to make such measurement shall be in accordance with sound
12 engineering practices. Upon request of the Contractor, the accuracy of such measurements will
13 be investigated by the Contracting Officer and any errors appearing therein will be corrected.

14 (c) The right of ingress to and egress from all points of diversion is hereby
15 granted to all authorized employees of the United States. The Contractor also hereby grants to
16 the United States the right to install, operate, maintain, and replace such equipment on diversion
17 or carriage facilities at each point of diversion as the Contracting Officer deems necessary.

18 (d) The Contractor shall not modify, alter, remove, or replace diversion
19 facilities or do any other act which would alter the effectiveness or accuracy of the measuring
20 equipment installed by the United States or its representatives unless and until the Contracting
21 Officer has been notified with due diligence and has been given an opportunity to modify such
22 measuring equipment in such manner as may be necessary or appropriate. In the event of an
23 emergency the Contractor shall notify the United States within a reasonable time thereafter as to

1 the existence of the emergency and the nature and extent of such modification, alteration,
2 removal, or replacement of diversion facilities.

3 (e) The Contractor shall pay the United States for the costs to repair, relocate,
4 or replace measurement equipment when the Contractor modifies, alters, removes, or replaces
5 diversion or carriage facilities.

6 (f) Contractor and Contracting Officer shall develop a mutually agreeable
7 surface water delivery water measurement program which shall be implemented by the
8 Contractor, and such measurement program shall be consistent with the conservation and
9 efficiency criteria for evaluating water conservation plans as provided in Article 29(a).

10 (g) All new surface water delivery systems installed within the lands
11 delineated on Exhibit B after the effective date of this Settlement Contract shall also comply with
12 the measurement provisions described in this Article.

13 RULES AND REGULATIONS

14 11. The parties agree that the delivery of Project Water for irrigation use or use of
15 Federal facilities pursuant to this Settlement Contract is subject to Federal Reclamation law,
16 including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C. 390aa et seq.), as
17 amended and supplemented, and the rules and regulations promulgated by the Secretary of the
18 Interior under Federal Reclamation law.

19 GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

20 12. (a) The obligation of the Contractor to pay the United States as provided in
21 this Settlement Contract is a general obligation of the Contractor notwithstanding the manner in
22 which the obligation may be distributed among the Contractor's water users and notwithstanding
23 the default of individual water users in their obligations to the Contractor.

24 (b) The payment of Charges becoming due hereunder is a condition precedent
25 to receiving benefits under this Settlement Contract. The United States shall not make water
26 available to the Contractor through Project facilities during any period in which the Contractor

1 may be in arrears in the advance payment of water Rates due the United States. The Contractor
2 shall not furnish water made available pursuant to this Settlement Contract for lands or parties
3 which are in arrears in the advance payment of water rates levied or established by the
4 Contractor.

5 (c) With respect to subdivision (b) of this Article, the Contractor shall have no
6 obligation to require advance payment for water Rates which it levies.

7 CHARGES FOR DELINQUENT PAYMENTS

8 13. (a) The Contractor shall be subject to interest, administrative and penalty
9 charges on delinquent installments or payments. When a payment is not received by the due
10 date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond
11 the due date. When a payment becomes 60 days delinquent, the Contractor shall pay an
12 administrative charge to cover additional costs of billing and processing the delinquent payment.
13 When a payment is delinquent 90 days or more, the Contractor shall pay an additional penalty
14 charge of six percent per year for each day the payment is delinquent beyond the due date.
15 Further, the Contractor shall pay any fees incurred for debt collection services associated with a
16 delinquent payment.

17 (b) The interest charge rate shall be the greater of the rate prescribed quarterly
18 in the Federal Register by the Department of the Treasury for application to overdue payments,
19 or the interest rate of one-half of one percent per month prescribed by Section 6 of the
20 Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be
21 determined as of the due date and remain fixed for the duration of the delinquent period.

22 (c) When a partial payment on a delinquent account is received, the amount
23 received shall be applied, first to the penalty, second to the administrative charges, third to the
24 accrued interest, and finally to the overdue payment.

25 QUALITY OF WATER

26 14. The operation and maintenance of Project facilities shall be performed in such
27 manner as is practicable to maintain the quality of raw water made available through such
28 facilities at the highest level reasonably attainable as determined by the Contracting Officer. The
29 United States does not warrant the quality of water and is under no obligation to construct or
30 furnish water treatment facilities to maintain or better the quality of water.

1 Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with
2 such rules, regulations, and orders.

3 (f) In the event of the Contractor's noncompliance with the nondiscrimination
4 clauses of this Settlement Contract or with any of the said rules, regulations, or orders, this
5 Settlement Contract may be canceled, terminated, or suspended, in whole or in part, and the
6 Contractor may be declared ineligible for further Government contracts in accordance with
7 procedures authorized in said amended Executive Order, and such other sanctions may be
8 imposed and remedies invoked as provided in said Executive Order, or by rule, regulation, or
9 order of the Secretary of Labor, or as otherwise provided by law.

10 (g) The Contractor will include the provisions of paragraphs (a) through (g) in
11 every subcontract or purchase order unless exempted by the rules, regulations, or orders of the
12 Secretary of Labor issued pursuant to Section 204 of said amended Executive Order, so that such
13 provisions will be binding upon each subcontractor or vendor. The Contractor will take such
14 action with respect to any subcontract or purchase order as may be directed by the Secretary of
15 Labor as a means of enforcing such provisions, including sanctions for noncompliance:
16 Provided, however, that in the event the Contractor becomes involved in, or is threatened with,
17 litigation with a subcontractor or vendor as a result of such direction, the Contractor may request
18 the United States to enter into such litigation to protect the interests of the United States.

19 COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

20 17. Omitted

21 MINGLING OF CONTRACTOR'S PROJECT AND NON-PROJECT WATER

22 18. (a) Project Water must of necessity be transported by the Contractor for its
23 use by means of the same works and channels used for the transport of its non-Project Water
24 including Base Supply. Notwithstanding such mingling of water, the provisions of Article 11
25 hereof shall be applicable only to Project Water, and such mingling of water shall not in any
26 manner subject to the provisions of Article 11 hereof the Contractor's non-Project Water
27 including Base Supply.

28 (b) If required in accordance with subdivision (c) of this Article, the
29 Contractor shall install and maintain such measuring equipment and distribution facilities and
30 maintain such records as may be necessary to determine the amounts of water delivered to
31 Excess Lands served by the Contractor. The Contractor shall not within any month deliver to

1 Ineligible Lands water in excess of the non-Project Water, including Base Supply, for that
2 month. The Contracting Officer or authorized representative shall have the right at all
3 reasonable times to inspect such records and measuring equipment.

4 (c) The Contractor will not be considered in violation of the requirement that
5 Project Water be delivered only to Eligible Lands during any month of the irrigation season that
6 the water requirement for beneficial use on Eligible Lands for that month is equal to or in excess
7 of the Project Water for that month as shown on Exhibit A or any revision thereof pursuant to
8 subdivision (c) of Article 3. The water requirement for beneficial use on Eligible Lands will be
9 determined by multiplying:

10 (1) the number of irrigable acres of the particular types of crops grown
11 in that year on the acreage designated as eligible by

12 (2) the Unit Duties as set forth in Exhibit C attached hereto and made
13 a part hereof, or by such other Unit Duties mutually agreed upon by the Contractor and the
14 Contracting Officer. In order to make the computation of the water requirement for Eligible
15 Lands, on April 1 of each Year and concurrently with its order for water for the irrigation season,
16 the Contractor shall designate the acreage of and type of crops to be grown on its Eligible Lands
17 that irrigation season. During any month the water requirement as above determined for crops
18 growing on Eligible Lands during such month is equal to or in excess of the Project Water for
19 that month as provided herein the Contractor shall not be required to measure the water delivered
20 to Excess Lands. Any month the said water requirement is less than the amount of Project Water
21 as provided herein, the Contractor will be required to measure water delivered to excess land in
22 accordance with subdivision (b) hereof.

1 Contract or any right or interest therein shall be valid until approved in writing by the
2 Contracting Officer.

3 (b) The assignment of any right or interest in this Settlement Contract by
4 either party shall not interfere with the rights or obligations of the other party to this Settlement
5 Contract absent the written concurrence of said other party.

6 (c) The Contracting Officer shall not unreasonably condition or withhold his
7 approval of any proposed assignment.

8 OFFICIALS NOT TO BENEFIT

9 24. (a) No Member of or Delegate to Congress, Resident Commissioner, or
10 official of the Contractor shall benefit from this Settlement Contract other than as a water user or
11 landowner in the same manner as other water users or landowners.

12 (b) No officer or member of the governing board of the Contractor shall
13 receive any benefit that may arise by reason of this Settlement Contract other than as a
14 landowner within the Contractor's service area and in the same manner as other landowners
15 within the said service area.

16 CONTINGENT UPON APPROPRIATION OR ALLOTMENT OF FUNDS

17 25. The expenditure or advance of any money or the performance of any obligation of
18 the United States under this Settlement Contract shall be contingent upon appropriation or
19 allotment of funds. Absence of appropriation or allotment of funds shall not relieve the
20 Contractor from any obligations under this Settlement Contract. No liability shall accrue to the
21 United States in case funds are not appropriated or allotted.

22 CONFIRMATION OF SETTLEMENT CONTRACT

23 26. The Contractor, after the execution of this Settlement Contract, shall promptly
24 seek to secure a decree of a court of competent jurisdiction of the State of California, if
25 appropriate, confirming the execution of this Settlement Contract. The Contractor shall furnish
26 the United States a certified copy of the final decree, the validation proceedings, and all pertinent
27 supporting records of the court approving and confirming this Settlement Contract, and
28 decreeing and adjudging it to be lawful, valid, and binding on the Contractor. This Settlement
29 Contract shall not be binding on the United States until such final decree has been secured.

30 UNAVOIDABLE GROUNDWATER PERCOLATION

31 27. To the extent applicable, the Contractor shall not be deemed to have delivered
32 Project Water to Excess Lands or Ineligible Lands if such lands are irrigated with groundwater

1 that reaches the underground strata as an unavoidable result of the delivery of Project Water by
2 the Contractor to Eligible Lands.

3 PRIVACY ACT COMPLIANCE

4 28. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a)
5 (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et
6 seq.) in maintaining Landholder acreage certification and reporting records, required to be
7 submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation
8 Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

9 (b) With respect to the application and administration of the criminal penalty
10 provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees
11 responsible for maintaining the certification and reporting records referenced in (a) above are
12 considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

13 (c) The Contracting Officer or a designated representative shall provide the
14 Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau
15 of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--
16 Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of
17 information contained in the Landholder's certification and reporting records.

18 (d) The Contracting Officer shall designate a full-time employee of the
19 Bureau of Reclamation to be the System Manager who shall be responsible for making decisions
20 on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The
21 Contractor is authorized to grant requests by individuals for access to their own records.

22 (e) The Contractor shall forward promptly to the System Manager each
23 proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed
24 under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System
25 Manager with information and records necessary to prepare an appropriate response to the
26 requester. These requirements do not apply to individuals seeking access to their own
27 certification and reporting forms filed with the Contractor pursuant to 43 CFR 426.18, unless the
28 requester elects to cite the Privacy Act as a basis for the request.

29 WATER CONSERVATION

30 29. (a) Prior to the diversion of Project Water, the Contractor shall be
31 implementing an effective water conservation and efficiency program based on the Basin-Wide
32 Water Management Plan and/or Contractor's water conservation plan that has been determined
33 by the Contracting Officer to meet the conservation and efficiency criteria for evaluating water

1 conservation plans established under Federal law. The water conservation and efficiency
2 program shall contain definite water conservation objectives, appropriate economically feasible
3 water conservation measures, and time schedules for meeting those objectives. Continued
4 diversion of Project Water pursuant to this Settlement Contract shall be contingent upon the
5 Contractor's continued implementation of such water conservation program. In the event the
6 Contractor's water conservation plan or any revised water conservation plan completed pursuant
7 to subdivision (c) of Article 29 of this Settlement Contract have not yet been determined by the
8 Contracting Officer to meet such criteria, due to circumstances which the Contracting Officer
9 determines are beyond the control of the Contractor, Project Water deliveries shall be made
10 under this Settlement Contract so long as the Contractor diligently works with the Contracting
11 Officer to obtain such determination at the earliest practicable date, and thereafter the Contractor
12 immediately begins implementing its water conservation and efficiency program in accordance
13 with the time schedules therein.

14 (b) The Contractor shall submit to the Contracting Officer a report on the
15 status of its implementation of the water conservation plan on the reporting dates specified in the
16 then existing conservation and efficiency criteria established under Federal law.

17 (c) At 5-year intervals, the Contractor shall revise its water conservation plan
18 to reflect the then current conservation and efficiency criteria for evaluating water conservation
19 plans established under Federal law and submit such revised water management plan to the
20 Contracting Officer for review and evaluation. The Contracting Officer will then determine if
21 the water conservation plan meets Reclamation's then current conservation and efficiency
22 criteria for evaluating water conservation plans established under Federal law.

1 (d) If the Contractor is engaged in direct ground-water recharge, such activity
2 shall be described in the Contractor’s water conservation plan.

3 (e) In order to provide incentives for water conservation, the Contractor may
4 reduce the amount of Project Water for which payment is required under Article 8(a) in
5 accordance with the provisions of this Article 29(e).

6 (1) On or before February 15 of any Water Year, the Contractor may
7 file with Reclamation an offer to reduce Project Water use, hereinafter referred to as Offer. The
8 Offer shall specify the maximum quantity of Project Water to be diverted by the Contractor for
9 each month that Project Water is available for that Water Year under this Settlement Contract.
10 The Contracting Officer shall provide the Contractor with a decision, in writing, to the Offer on
11 or before March 15 of that Water Year. The dates specified in this Article 29(e)(1) can be
12 changed if mutually agreed to, in writing, by the Contractor and Contracting Officer.

13 (2) If Reclamation accepts the Offer, the Contractor’s payment
14 obligation under Article 8(a)(1) shall be reduced to the maximum quantity of Project Water to be
15 diverted by the Contractor as specified in the Offer. The Contractor shall not divert Project
16 Water in excess of the quantities set forth in the Offer: Provided, however, if the Contractor’s
17 diversions of Project Water exceed the quantities set forth in the Offer, the Contractor shall pay
18 to Reclamation the applicable Rates and Charges plus an amount equal to the applicable Rates
19 and Charges, unadjusted for ability to pay, for each acre-foot of Project Water diverted in excess
20 of the quantities set forth in the Offer.

21 (3) If Reclamation decides not to accept the Offer, the Contractor’s
22 payment obligation will remain as specified in Article 8(a)(1).

1 (4) The provisions of this Article 29(e) shall be in addition to and shall
2 not affect the provisions of Article 3(e) pertaining to the sale, transfer, exchange, or other
3 disposal of the Contract Total designated in Exhibit A.

4 OPINIONS AND DETERMINATIONS

5 30. (a) Where the terms of this Settlement Contract provide for actions to be
6 based upon the opinion or determination of either party to this Settlement Contract, said terms
7 shall not be construed as permitting such action to be predicated upon arbitrary, capricious, or
8 unreasonable opinions or determinations. Both parties, notwithstanding any other provisions of
9 this Settlement Contract, expressly reserve the right to seek relief from and appropriate
10 adjustment for any such arbitrary, capricious, or unreasonable opinion or determination. Each
11 opinion or determination by either party shall be provided in a timely manner. Nothing in
12 subdivision (a) of Article 30 of this Settlement Contract is intended to or shall affect or alter the
13 standard of judicial review applicable under Federal law to any opinion or determination
14 implementing a specific provision of Federal law embodied in statute or regulation.

15 (b) The Contracting Officer shall have the right to make determinations
16 necessary to administer this Settlement Contract that are consistent with the provisions of this
17 Settlement Contract, the laws of the United States and of the State of California, and the rules
18 and regulations promulgated by the Secretary of the Interior. Such determinations shall be made
19 in consultation with the Contractor to the extent reasonably practicable.

20 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

21 31. (a) In addition to all other payments to be made by the Contractor pursuant to
22 this Settlement Contract, the Contractor shall pay to the United States, within 60 days after
23 receipt of a bill and detailed statement submitted by the Contracting Officer to the Contractor for

1 such specific items of direct cost incurred by the United States for work requested by the
2 Contractor associated with this Settlement Contract plus indirect costs in accordance with
3 applicable Bureau of Reclamation policies and procedures. All such amounts referred to in this
4 Article shall not exceed the amount agreed to in writing in advance by the Contractor. This
5 Article shall not apply to costs for routine contract administration.

6 (b) All advances for miscellaneous costs incurred for work requested by the
7 Contractor pursuant to Article 31 of this Settlement Contract shall be adjusted to reflect the
8 actual costs when the work has been completed. If the advances exceed the actual costs incurred,
9 the difference will be refunded to the Contractor. If the actual costs exceed the Contractor's
10 advances, the Contractor will be billed for the additional costs pursuant to Article 31 of this
11 Settlement Contract.

12 WAIVER OF DEFAULT

13 32. The waiver by either party to this Settlement Contract as to any default shall not
14 be construed as a waiver of any other default or as authority of the other party to continue such
15 default or to make, do, or perform, or not to make, do, or perform, as the case may be, any act or
16 thing which would constitute a default.

17 CONTRACT ASSIGNMENT OR TERMINATION UPON TRANSFER OF LAND

18 33. (a) The rights and obligations of the Contractor may be transferred in
19 connection with the transfer of title to the land or any portion thereof delineated on Exhibit B on
20 the following terms and conditions:

21 (1) A voluntary inter vivos transfer may be made, upon mutual
22 agreement of the United States and the Contractor, to a person eligible to hold title to the land as
23 a nonexcess landowner:

1 (2) A voluntary inter vivos transfer may be made to a person ineligible
2 to hold title to the land as a nonexcess landowner provided that no Project Water may thereafter
3 be used on Excess Lands and the assignee shall not be privileged to obtain such use of Project
4 Water on Excess Lands.

5 (3) In the event the title of the Contractor to such land, or any portion
6 thereof, is transferred by operation of law, such as by conveyance in satisfaction of a mortgage,
7 by inheritance, or by devise, the rights and obligations of the Contractor shall pass with the title
8 and the land shall be subject to provisions of Reclamation law pertaining to such transfers. Any
9 transfer of the rights and obligations of this Settlement Contract by the person acquiring title by
10 operation of law shall be in accordance with provisions of subsection (1) or (2) above.

11 (b) The Contractor shall notify the Contracting Officer in writing of any
12 proposed transfer of this Settlement Contract. In addition, in the case of a partial assignment the
13 Contractor shall:

14 (1) Designate the proportionate quantities of Base Supply and Project
15 Water which it desires to assign;

16 (2) Furnish the United States with a copy of the deed transferring title.

17 (c) No transfer of this Settlement Contract shall be effective unless and until
18 approved by the Contracting Officer, and, if approved, shall be effective from the date of such
19 approval.

20 (d) Upon mutual agreement between the United States and the
21 Contractor, this Settlement Contract or a portion thereof may be terminated and the new
22 landowner will have the privilege of entering into a Settlement Contract for water service for a

1 proportionate share of the Contract Total provided he is duly qualified to receive water for such
2 land.

3 TERMINATION

4 34. This Settlement Contract will terminate upon mutual agreement of the parties
5 prior to the end of the term or any renewal thereof.

6 IN WITNESS WHEREOF, the parties hereto have executed this Settlement
7 Contract as of the day and year first hereinabove written.
