6 CONTRACT BETWEEN THE UNITED STATES AND  
7 BURTON H. LAUPPE AND KATHRYN L. LAUPPE,  
8 DIVERTER OF WATER FROM SACRAMENTO RIVER SOURCES,  
9 SETTLING WATER RIGHTS DISPUTES AND  
10 PROVIDING FOR PROJECT WATER

11 THIS CONTRACT, hereinafter referred to as "Settlement Contract," is entered into  
12 by THE UNITED STATES OF AMERICA, hereinafter referred to as the United States, made  
13 this 4<sup>th</sup> day of March, 2005, pursuant to the applicable authority granted  
14 to it generally in the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or supplementary  
15 thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844), as amended and  
16 supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented, including but not  
17 limited to Sections 9 and 14 thereto, July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68),  
18 October 12, 1982 (96 Stat. 1263), October 27, 1986 (100 Stat. 3050), as amended, and Title  
19 XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all collectively hereinafter referred to  
20 as Federal Reclamation law, and BURTON H. LAUPPE AND KATHRYN L. LAUPPE,  
21 hereinafter referred to as the Contractor, acting pursuant to Sections 12003 and 12004 of the  
22 California Water Code, with its principal place of business in California;

23 WITNESSETH, that:

24 EXPLANATORY RECITALS

25 [1<sup>st</sup>] WHEREAS, the United States has constructed and is operating the Central Valley  
26 Project, California, for multiple purposes pursuant to its statutory authority; and

27 [2<sup>nd</sup>] WHEREAS, the Contractor has rights to divert, is diverting, and will continue to  
28 divert for reasonable beneficial use, water from the natural flow of the Sacramento River and  
29 tributaries thereto, that would have been flowing therein if the Central Valley Project were not in  
30 existence; and

31 [3<sup>rd</sup>] WHEREAS, the construction and operation of the integrated and coordinated  
32 Central Valley Project has changed and will further change the regimen of the Sacramento,  
33 American, San Joaquin, and Trinity Rivers and the Sacramento-San Joaquin Delta from  
34 unregulated flow to regulated flow; and

35 [4<sup>th</sup>] WHEREAS, the United States has rights to divert, is diverting, and will continue  
36 to divert waters from said Rivers and said Delta in connection with the operation of said Central  
37 Valley Project; and

38 [5<sup>th</sup>] WHEREAS, the Contractor and the United States had a dispute over the  
39 respective rights of the parties to divert and use water from the regulated flow of the Sacramento  
40 River which threatened to result in litigation, and as a means to settle that dispute entered into  
41 Contract No. 14-06-200-1289A, hereinafter referred to as the Existing Contract, which  
42 established terms for the delivery to the Contractor of Central Valley Project Water, and the  
43 quantities of Base Supply the United States and the Contractor agreed may be diverted by the  
44 Contractor from the Sacramento River pursuant to such contract; and

45 [6<sup>th</sup>] WHEREAS, the United States and the Contractor disagree with respect to the  
46 authority of the United States to change the quantities of Base Supply and/or Project Water

47 specified as available for diversion in this Settlement Contract from the quantities specified in  
48 the Existing Contract, and other issues related thereto. That dispute was the subject of litigation  
49 in a lawsuit entitled *Glenn-Colusa Irrigation District, et al. v. United States, et al.* [Civ. No.  
50 S-01-1816 GEB/JFM (E.D. Cal.)], but that litigation was dismissed, without prejudice, pursuant  
51 to a stipulation of dismissal filed by the parties thereto on August 29, 2002. Notwithstanding  
52 that dismissal, the Contractor and the United States enter into this Settlement Contract to renew  
53 the Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law,  
54 and the laws of the State of California; and

55 [7<sup>th</sup>] WHEREAS, to assure the Contractor of the enjoyment and use of the regulated  
56 flow of the said Rivers and the Delta, and to provide for the economical operation of the Central  
57 Valley Project by, and the reimbursement to, the United States for expenditures made for said  
58 Project;

59 NOW, THEREFORE, in consideration of the performance of the herein contained  
60 provisions, conditions, and covenants, it is agreed as follows:

61 DEFINITIONS

62 1. When used herein, unless otherwise expressed or incompatible with the intent  
63 hereof, the term:

64 (a) "Base Supply" shall mean the quantity of Surface Water established in  
65 Articles 3 and 5 which may be diverted by the Contractor from the Sacramento River each month  
66 during the period April through October of each Year without payment to the United States for  
67 such quantities diverted;

68 (b) "Basin-Wide Water Management Plan" shall mean the mutually agreeable  
69 Sacramento River Basinwide Water Management Plan, dated October 11, 2004, developed by

70 Glenn-Colusa Irrigation District, Maxwell Irrigation District, Natomas Central Mutual Water  
71 Company, Pelger Mutual Water Company, Princeton-Codora Glenn Irrigation District, Provident  
72 Irrigation District, Reclamation District 108, Sutter Mutual Water Company, Anderson-  
73 Cottonwood Irrigation District, Meridian Farms Water Company, Reclamation District 1004, and  
74 the U.S. Bureau of Reclamation;

75 (c) "Charges" shall mean the payments for Project Water that the Contractor  
76 is required to pay to the United States in addition to the "Rates" specified in this Settlement  
77 Contract. The Contracting Officer will, on an annual basis, determine the extent of these  
78 Charges. The type and amount of each Charge shall be specified in Exhibit D;

79 (d) "Contract Total" shall mean the sum of the Base Supply and Project Water  
80 available for diversion by the Contractor for the period April 1 through October 31;

81 (e) "Critical Year" shall mean any Year in which either of the following  
82 eventualities exists:

83 (1) The forecasted full natural inflow to Shasta Lake for the current  
84 Water Year, as such forecast is made by the United States on or before February 15 and reviewed  
85 as frequently thereafter as conditions and information warrant, is equal to or less than 3.2 million  
86 acre-feet; or

87 (2) The total accumulated actual deficiencies below 4 million acre-feet  
88 in the immediately prior Water Year or series of successive prior Water Years each of which had  
89 inflows of less than 4 million acre-feet, together with the forecasted deficiency for the current  
90 Water Year, exceed 800,000 acre-feet.

91 For the purpose of determining a Critical Year, the computation of inflow to  
92 Shasta Lake shall be performed in a manner that considers the extent of upstream development

93 above Shasta Lake during the year in question, and shall be used as the full natural flow to  
94 Shasta Lake. In the event that major construction has occurred or occurs above Shasta Lake after  
95 September 1, 1963, and which has materially altered or alters the regimen of the stream systems  
96 contributing to Shasta Lake, the computed inflow to Shasta Lake used to define a Critical Year  
97 will be adjusted to eliminate the effect of such material alterations. After consultation with the  
98 State of California, the National Weather Service, and other recognized forecasting agencies, the  
99 Contracting Officer will select the forecast to be used and will make the details of it available to  
100 the Contractor. The same forecasts used by the United States for the operation of the Project  
101 shall be used to make the forecasts hereunder;

102 (f) "CVPIA" shall mean the Central Valley Project Improvement Act,  
103 Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

104 (g) Omitted;

105 (h) Omitted;

106 (i) Omitted;

107 (j) Omitted;

108 (k) Omitted;

109 (l) "Project" shall mean the Central Valley Project owned by the United  
110 States and managed by the Department of the Interior, Bureau of Reclamation;

111 (m) "Project Water" shall mean all Surface Water diverted or scheduled to be  
112 diverted each month during the period April through October of each Year by the Contractor  
113 from the Sacramento River which is in excess of the Base Supply. The United States recognizes  
114 the right of the Contractor to make arrangements for acquisition of water from projects of others  
115 than the United States for delivery through the Sacramento River and tributaries subject to

116 written agreement between Contractor and the United States as to identification of such water,  
117 which water, when so identified, shall not be deemed Project Water under this Settlement  
118 Contract;

119 (n) "Rates" shall mean the payments for Project Water determined annually  
120 by the Contracting Officer in accordance with the then current applicable water ratesetting  
121 policies for the Project, as described in subdivision (a) of Article 8 of this Settlement Contract;

122 (o) "Secretary" or "Contracting Officer" shall mean the Secretary of the  
123 Interior, a duly appointed successor, or an authorized representative acting pursuant to any  
124 authority of the Secretary and through any agency of the Department of the Interior;

125 (p) "Surface Water" shall mean only those waters that are considered as  
126 surface water under California law;

127 (q) "Water Year" shall mean the period commencing with October 1 of one  
128 year and extending through September 30 of the next; and

129 (r) "Year" shall mean a calendar year.

130 TERM OF SETTLEMENT CONTRACT

131 2. (a) This Settlement Contract shall become effective April 1, 2005, and shall  
132 remain in effect until and including March 31, 2045; Provided, that under terms and conditions  
133 mutually agreeable to the parties hereto, renewals may be made for successive periods not to  
134 exceed 40 years each. The terms and conditions of each renewal shall be agreed upon not later  
135 than one year prior to the expiration of the then existing Settlement Contract.

136 (b) With respect to Project Water and the portions of this Settlement Contract  
137 pertaining thereto, upon written request by the Contractor of the Secretary made not later than  
138 one year prior to the expiration of this Settlement Contract, whenever, account being taken of the

139 amount then credited to the costs of construction of water supply works, the remaining amount of  
140 construction costs of water supply work which is properly assignable for ultimate return by the  
141 Contractor as established by the Secretary of the Interior pursuant to (3) of Section 1 of Public  
142 Law 643 (70 Stat. 483), probably can be repaid to the United States within the term of a contract  
143 under subsection 9(d) of the 1939 Reclamation Project Act (53 Stat. 1187), the relevant portions  
144 of this Settlement Contract may be converted to a contract under said subsection 9(d) upon terms  
145 and conditions mutually agreeable to the United States and the Contractor. The Secretary shall  
146 make a determination ten years after the date of execution of this Settlement Contract, and every  
147 five years thereafter, of whether a conversion to a contract under said subsection 9(d) can be  
148 accomplished pursuant to Public Law 643. Notwithstanding any provision of this Settlement  
149 Contract, the Contractor reserves and shall have all rights and benefits under Public Law 643.

150 WATER TO BE FURNISHED TO CONTRACTOR

151 3. (a) Subject to the conditions, limitations, and provisions hereinafter  
152 expressed, the Contractor is hereby entitled and authorized to divert from the Sacramento River  
153 at the locations shown in Exhibit A, for beneficial use within the area delineated on Exhibit B,  
154 (both Exhibits are attached hereto and made a part hereof), the Contract Total designated in  
155 Exhibit A, or any revision thereof.

156 (b) No sale, transfer, exchange, or other disposal of any of the Contract Total  
157 designated in Exhibit A or the right to the use thereof for use on land other than that shown on  
158 Exhibit B shall be made by the Contractor without first obtaining the written consent of the  
159 Contracting Officer. Such consent will not be unreasonably withheld and a decision will be  
160 rendered in a timely manner. For short-term actions that will occur within one year or less, the  
161 decision will be rendered within 30 days after receipt of a complete written proposal. For

162 long-term actions that will occur in a period longer than one year, the decision will be rendered  
163 within 90 days after receipt of a complete written proposal. For a proposal to be deemed  
164 complete by the Contracting Officer, it must comply with all provisions required by State and  
165 Federal law, including information sufficient to enable the Contracting Officer to comply with  
166 the National Environmental Policy Act, the Endangered Species Act, and applicable rules or  
167 regulations then in effect; Provided, that such consent does not authorize the use of Federal  
168 facilities to facilitate or effectuate the sale, transfer, exchange or other disposal of Base Supply.  
169 Such use of Federal facilities will be the subject of a separate agreement to be entered into  
170 between the Contractor and Reclamation.

171 (c) For the purpose of determining whether Section 3405(a)(1)(M) of the  
172 CVPIA applies to the Contractor as a transferor or transferee of Project Water, the Contracting  
173 Officer acknowledges that the Contractor is within a county, watershed, or other area of origin,  
174 as those terms are utilized under California law.

175 (d) Nothing herein contained shall prevent the Contractor from diverting  
176 water during the months of November through March for beneficial use on the land shown on  
177 Exhibit B or elsewhere to the extent authorized under the laws of the State of California.

178 (e) The United States assumes no responsibility for and neither it nor its'  
179 officers, agents, or employees shall have any liability for or on account of:

- 180 (1) The quality of water to be diverted by the Contractor;  
181 (2) The control, carriage, handling, use, disposal, or distribution of  
182 water diverted by the Contractor outside the facilities constructed and then being operated and  
183 maintained by or on behalf of the United States;

184 (3) Claims of damage of any nature whatsoever, including but not  
185 limited to, property loss or damage, personal injury, or death arising out of or connected with the  
186 control, carriage, handling, use, disposal, or distribution of said water outside of the hereinabove  
187 referred to facilities; and

188 (4) Any damage whether direct or indirect arising out of or in any  
189 manner caused by a shortage of water whether such shortage be on account of errors in  
190 operation, drought, or unavoidable causes.

191 (f) In addition to the provisions of subdivision (e) of Article 3 of this  
192 Contract, if there is a shortage of Project Water because of actions taken by the Contracting  
193 Officer to meet legal obligations then, except as provided in subdivision (a) of Article 30 of this  
194 Contract, no liability shall accrue against the United States or any of its officers, agents, or  
195 employees for any damage, direct or indirect, arising therefrom.

196 RETURN FLOW

197 4. Nothing herein shall be construed as an abandonment or a relinquishment by the  
198 United States of any right it may have to the use of waste, seepage, and return flow water derived  
199 from water diverted by the Contractor hereunder and which escapes or is discharged beyond the  
200 boundaries of the lands shown on Exhibit B; Provided, that this shall not be construed as  
201 claiming for the United States any right to such water which is recovered by the Contractor  
202 pursuant to California law from within the boundaries of the lands shown on Exhibit B, and  
203 which is being used pursuant to this Settlement Contract for surface irrigation or underground  
204 storage for the benefit of the lands shown on Exhibit B by the Contractor.

205 CONSTRAINTS ON THE AVAILABILITY OF WATER

206 5. In a Critical Year, the Contractor shall have the option to:

207 (a) Irrigate not in excess of 75 percent of its irrigable acreage shown on  
208 Exhibit A; or

209 (b) Divert from the Sacramento River not in excess of 75 percent of the  
210 Contract Total shown on Exhibit A, subject to the installation of measurement equipment  
211 satisfactory to the Contracting Officer. The Contractor shall install, operate, and maintain this  
212 equipment at the Contractor's expense. The Contractor shall submit, by April 1 of that Critical  
213 Year, a written schedule to the Contracting Officer indicating the Contract Total to be diverted  
214 by the Contractor during each month of that Critical Year under this Settlement Contract.

215 (c) The amount of any overpayment by the Contractor shall, at its option, be  
216 refunded or credited upon amounts to become due to the United States from the Contractor under  
217 the provisions hereof in the ensuing Year. To the extent of such deficiency such adjustment of  
218 overpayment shall constitute the sole remedy of the Contractor.

219 INTEGRATED WATER MANAGEMENT AND PARTNERSHIPS

220 6. The Contractor and United States desire to work together to maximize the  
221 reasonable beneficial use of water for their mutual benefit. As a consequence, the United States  
222 and the Contractor will work in partnership and with others within the Sacramento Valley,  
223 including other contractors, to facilitate the better integration within the Sacramento Valley of all  
224 water supplies including, but not limited to, the better management and integration of surface  
225 water and groundwater, the development and better utilization of surface water storage, the  
226 effective utilization of waste, seepage and return flow water, and other operational and  
227 management options that may be identified in the future.

228

USE OF WATER FURNISHED TO CONTRACTOR

229

7. (a) Project Water furnished to the Contractor pursuant to this Settlement

230

Contract shall not be delivered or furnished by the Contractor for any purposes other than

231

agricultural purposes without the written consent of the Contracting Officer. For purposes of this

232

Settlement Contract, "agricultural purposes" includes, but is not restricted to, the irrigation of

233

crops, the watering of livestock, incidental domestic use including related landscape irrigation,

234

and underground water replenishment.

235

(b) The Contractor shall comply with requirements applicable to the

236

Contractor in biological opinion(s) prepared as a result of a consultation regarding the execution

237

of this Settlement Contract undertaken pursuant to Section 7 of the Endangered Species Act of

238

1973, as amended that are within the Contractor's legal authority to implement. The Existing

239

Contract, which evidences in excess of 40 years of diversions, for agricultural uses, of the

240

quantities of water provided for in Article 3, and the underlying water rights of the Contractor

241

will be considered in developing an appropriate base-line for the Biological Assessment prepared

242

pursuant to the Endangered Species Act, and in any other needed environmental review.

243

Nothing herein shall be construed to prevent the Contractor from challenging or seeking judicial

244

relief in a court of competent jurisdiction with respect to any biological opinion or other

245

environmental documentation referred to in this Article.

246

RATE AND METHOD OF PAYMENT FOR WATER

247

8. (a) The Contractor shall make payments to the United States as provided in

248

this Article for each acre of land irrigated from April 1, through October 31 each Year.

249

Such payments shall be at Rates and Charges established in accordance with: (i)

250

the Secretary's then current ratesetting policies for the Project; and (ii) applicable Reclamation

251 law and associated rules and regulations, or policies; Provided, that if the Contractor desires to  
252 use Project Water for other than agricultural purposes the Rates and Charges set forth above will  
253 be adjusted by the Contracting Officer to the applicable Rates and Charges for such purposes.  
254 The Rates and Charges applicable to the Contractor upon execution of this Settlement Contract  
255 are set forth in Exhibit D, as may be revised annually. The Secretary's ratesetting policies for  
256 the Project shall be amended, modified, or superseded only through a public notice and comment  
257 procedure.

258 (b) The Contracting Officer shall notify the Contractor of the Rates and  
259 Charges as follows:

260 (1) Prior to July 1 of each Year, the Contracting Officer shall  
261 provide the Contractor an estimate of the Charges for Project Water that will be applied to the  
262 period October 1, of the current Year, through September 30, of the following Year, and the  
263 basis for such estimate. The Contractor shall be allowed not less than two months to review and  
264 comment on such estimates. On or before September 15 of each Year, the Contracting Officer  
265 shall notify the Contractor in writing of the Charges to be in effect during the period October 1 of  
266 the current Year, through September 30, of the following Year, and such notification shall revise  
267 Exhibit D.

268 (2) Prior to October 1 of each Year, the Contracting Officer shall make  
269 available to the Contractor an estimate of the Rates for Project Water for the following Year and  
270 the computations and cost allocations upon which those Rates are based. The Contractor shall be  
271 allowed not less than two months to review and comment on such computations and cost  
272 allocations. By December 31 of each Year, the Contracting Officer shall provide the Contractor

273 with the final Rates to be in effect for the upcoming Year, and such notification shall revise  
274 Exhibit D.

275 (c) The Contractor shall pay the United States for Project Water in the  
276 following manner:

277 (1) With respect to Rates and Charges, on or before May 1 of each  
278 Year, the Contractor shall pay the United States one-half the total amount payable pursuant to  
279 subdivision (a) of this Article and the remainder shall be paid on or before July 1 or such later  
280 date or dates as may be specified by the United States in a written notice to the Contractor:

281 (2) The amount to be paid on or before May 1 of each Year shall be  
282 based on a written estimate, provided to the Contracting Officer by the Contractor on or before  
283 April 1 of each Year, of the total area to be irrigated between April 1 and October 31 of that  
284 Year.

285 (3) The amount to be paid on or before July 1 shall be equal to the  
286 difference between the amount paid on May 1 and the total amount due for the Year, based on  
287 the total area actually irrigated between April 1 and July 1.

288 (4) If additional areas are placed under irrigation on or after July 1, but  
289 before October 31, additional payment shall be made in advance of such additional irrigation at  
290 the Rates and Charges shown in Exhibit D for each additional acre placed under irrigation.

291 (d) Payments to be made by the Contractor to the United States under this  
292 Settlement Contract may be paid from any revenues available to the Contractor. All revenues  
293 received by the United States from the Contractor relating to the delivery of Project Water or the  
294 delivery of non-Project Water through Project facilities shall be allocated and applied in

295 accordance with Federal Reclamation law and the associated rules or regulations, and the then  
296 current Project ratesetting policies for irrigation water.

297 (e) The Contracting Officer shall keep its accounts pertaining to the  
298 administration of the financial terms and conditions of its long-term water service and Settlement  
299 Contracts, in accordance with applicable Federal standards, so as to reflect the application of  
300 Project costs and revenues. The Contracting Officer shall, each Year upon request of the  
301 Contractor, provide to the Contractor a detailed accounting of all Project and Contractor expense  
302 allocations, the disposition of all Project and Contractor revenues, and a summary of all water  
303 delivery information. The Contracting Officer and the Contractor shall enter into good faith  
304 negotiations to resolve any discrepancies or disputes relating to accountings, reports, or  
305 information.

306 (f) The parties acknowledge and agree that the efficient administration of this  
307 Settlement Contract is their mutual goal. Recognizing that experience has demonstrated that  
308 mechanisms, policies, and procedures used for establishing Rates and Charges and/or for making  
309 and allocating payments, other than those set forth in this Article may be in the mutual best  
310 interest of the parties, it is expressly agreed that the parties may enter into agreements to modify  
311 the mechanisms, policies, and procedures for any of those purposes while this Settlement  
312 Contract is in effect without amendment of this Settlement Contract.

313 (g) For the term of this Settlement Contract, Rates under the respective  
314 ratesetting policies for the Project will be established to recover only reimbursable operation and  
315 maintenance (including any deficits) and capital costs of the Project, as those terms are used in  
316 the then-current Project ratesetting policies, and interest, where appropriate, except in instances  
317 where a minimum Rate is applicable in accordance with the relevant Project ratesetting policy.

318 Proposed changes of significance in practices which implement the ratesetting policies for the  
319 Project will not be implemented until the Contracting Officer has provided the Contractor an  
320 opportunity to discuss the nature, need, and impact of the proposed change. The Contractor  
321 retains all rights to challenge the validity of Rates and Charges imposed pursuant to this  
322 Settlement Contract, including but not limited to operation and maintenance expenses and  
323 operation and maintenance deficits, in an appropriate administrative or judicial proceeding.

324 (h) Except as provided in subsection 3405(a)(1)(B) of the CVPIA, the Rates  
325 for Project Water transferred, exchanged, or otherwise disposed of, by the Contractor shall be the  
326 Contractor's Rates adjusted upward or downward to reflect the changed costs of delivery (if any)  
327 of the transferred, exchanged, or otherwise disposed of Project Water to the transferee's point of  
328 delivery in accordance with the then-current ratesetting policies for the Project. Except as  
329 provided in subsection 3407(d)(2)(A) of the CVPIA, the Charges for Project Water transferred,  
330 exchanged, or otherwise disposed of, by the Contractor shall be the Contractor's Charges  
331 specified in Exhibit D. If the Contractor is receiving lower Rates and Charges because of  
332 inability to pay and is transferring, exchanging, or otherwise disposing of Project Water to  
333 another entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and  
334 Charges for transferred, exchanged, or otherwise disposed of Project Water shall be the  
335 Contractor's Rates and Charges unadjusted for ability to pay.

336 (i) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting  
337 Officer is authorized to adjust determinations of ability to pay every five years.

338 (j) Each payment to be made pursuant to subdivisions (a) and (c) of this  
339 Article shall be made at the office of the Bureau of Reclamation, MP Region: Mid-Pacific,

340 P.O. Box 894242, Los Angeles, CA 90189-4242, or at such other place as the United States may  
341 designate in a written notice to the said Contractor. Payments shall be made by cash transaction,  
342 wire, or any other mechanism as may be agreed to in writing by the Contractor and the  
343 Contracting Officer. In event there should be a default in the payment of the amount due, the  
344 delinquent payment provisions of Article 13 shall apply. The Contractor shall not be relieved of  
345 the whole or any part of its said obligation by, on account of, or notwithstanding, as the case may  
346 be its failure, refusal, or neglect to divert the quantity of Project Water shown on Exhibit A.

347 AGREEMENT ON WATER QUANTITIES

348 9. (a) During the term of this Settlement Contract and any renewals thereof:

349 (1) It shall constitute full agreement as between the United States and  
350 the Contractor as to the quantities of water and the allocation thereof between Base Supply and  
351 Project Water which may be diverted by the Contractor from the Sacramento River for beneficial  
352 use on the land shown on Exhibit B from April 1 through October 31, which said diversion, use,  
353 and allocation shall not be disturbed so long as the Contractor shall fulfill all of its obligations  
354 hereunder;

355 (2) Neither party shall claim any right against the other in conflict with  
356 the provisions of Article 9(a)(1) hereof.

357 (b) Nothing herein contained is intended to or does limit rights of the  
358 Contractor against others than the United States or of the United States against any person other  
359 than the Contractor; Provided, however, that in the event the Contractor, the United States, or  
360 any other person shall become a party to a general adjudication of rights to the use of water of  
361 the Sacramento River system, this Settlement Contract shall not jeopardize the rights or position  
362 of either party hereto or of any other person and the rights of all such persons in respect to the

363 use of such water shall be determined in such proceedings the same as if this Settlement Contract  
364 had not been entered into, and if final judgment in any such general adjudication shall determine  
365 that the rights of the parties hereto are different from the rights as assumed herein, the parties  
366 shall negotiate an amendment to give effect to such judgment. In the event the parties are unable  
367 to agree on an appropriate amendment they shall, within 60 days of determining that there is an  
368 impasse, employ the services of a neutral mediator, experienced in resolving water rights  
369 disputes, to assist in resolving the impasse. The cost of the mediation will be shared equally. A  
370 failure to reach agreement on an amendment within 60 days of the end of mediation will cause  
371 the immediate termination of this Settlement Contract.

372 (c) In the event that the California State Water Resources Control Board or a  
373 court of competent jurisdiction issues a final decision or order modifying the terms and  
374 conditions of the water rights of either party to this Settlement Contract in order to impose Bay-  
375 Delta water quality obligations, the Contractor and the United States shall promptly meet to  
376 determine whether or not to modify any of the terms of this Settlement Contract to comply with  
377 the final decision or order. If within 60 days of the date of the issuance of the final decision or  
378 order the parties are not able to reach agreement regarding either the need to modify this  
379 Settlement Contract or the manner in which this Settlement Contract is to be modified, the  
380 parties shall promptly retain a neutral mediator, experienced in resolving water right disputes, to  
381 assist the parties in resolving their dispute. The cost of the mediator shall be shared equally. In  
382 the event that either of the parties to this Settlement Contract determines that the parties will not  
383 be able to develop mutually-agreeable modification(s) to this Settlement Contract even with the  
384 assistance of a mediator, either of the parties to this Settlement Contract may attempt to resolve  
385 the impasse by seeking appropriate judicial relief including, but not limited to, filing a general

386 adjudication of the rights to the use of water in the Sacramento River system. The foregoing  
387 provisions of this sub-article shall only apply to the incremental obligations contained within a  
388 final decision or order of the State Water Resources Control Board that reflects a modification to  
389 the obligations imposed in State Water Resources Control Board Revised Water Rights Decision  
390 1641 dated March 15, 2000, and its associated 1995 Water Quality Control Plan which, taken  
391 together, will be considered the baseline for the application of the provisions of this sub-article.

392 (d) In the event this Settlement Contract terminates, the rights of the parties to  
393 thereafter divert and use water shall exist as if this Settlement Contract had not been entered into;  
394 and the fact that as a compromise settlement of a controversy as to the respective rights of the  
395 parties to divert and use water and the yield of such rights during the term hereof, this Settlement  
396 Contract places a limit on the Contract Total to be diverted annually by the Contractor during the  
397 Settlement Contract term and segregates it into Base Supply and Project Water shall not  
398 jeopardize the rights or position of either party with respect to its water rights or the yield thereof  
399 at all times after the Settlement Contract terminates. It is further agreed that the Contractor at all  
400 times will first use water to the use of which it is entitled by virtue of its own water rights, and  
401 neither the provisions of this Settlement Contract, action taken thereunder, nor payments made  
402 thereunder to the United States by the Contractor shall be construed as an admission that any part  
403 of the water used by the Contractor during the term of this Settlement Contract was in fact water  
404 to which it would not have been entitled under water rights owned by it nor shall receipt of  
405 payments thereunder by the United States from the Contractor be construed as an admission that  
406 any part of the water used by the Contractor during the term of this Settlement Contract was in  
407 fact water to which it would have been entitled under water rights owned by it.

408

MEASUREMENT OF WATER

409

10. (a) All water diverted by the Contractor from the Sacramento River will be

410

diverted at the existing point or points of diversion shown on Exhibit A or at such other points as

411

may be mutually agreed upon in writing by the Contracting Officer and the Contractor.

412

(b) The right of ingress to and egress from all points of diversion is hereby

413

granted to all authorized employees of the United States. The Contractor also hereby grants to

414

the United States the right to install, operate, maintain, and replace measuring equipment on

415

diversion or carriage facilities at each point of diversion as the Contracting Officer deems

416

necessary.

417

(c) The Contractor shall not modify, alter, remove, or replace diversion

418

facilities or do any other act which would alter the effectiveness or accuracy of the measuring

419

equipment installed by the United States or its representatives unless and until the Contracting

420

Officer has been notified with due diligence and has been given an opportunity to modify such

421

measuring equipment in such manner as may be necessary or appropriate. In the event of an

422

emergency the Contractor shall notify the United States within a reasonable time thereafter as to

423

the existence of the emergency and the nature and extent of such modification, alteration,

424

removal, or replacement of diversion facilities.

425

(d) The Contractor shall pay the United States for the costs to repair, relocate,

426

or replace measurement equipment when the Contractor modifies, alters, removes, or replaces

427

diversion or carriage facilities.

428

RULES AND REGULATIONS

429

11. The parties agree that the delivery of Project Water for irrigation use or use of

430

Federal facilities pursuant to this Settlement Contract is subject to Federal Reclamation law,

431 including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C.390aa et seq.), as  
432 amended and supplemented, and the rules and regulations promulgated by the Secretary of the  
433 Interior under Federal Reclamation law.

434 GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

435 12. (a) The obligation of the Contractor to pay the United States as provided in  
436 this Settlement Contract is a general obligation of the Contractor notwithstanding the manner in  
437 which the obligation may be distributed among the Contractor's water users and notwithstanding  
438 the default of individual water users in their obligations to the Contractor.

439 (b) The payment of Charges becoming due hereunder is a condition precedent  
440 to receiving benefits under this Settlement Contract. The United States shall not make water  
441 available to the Contractor through Project facilities during any period in which the Contractor  
442 may be in arrears in the advance payment of water Rates due the United States. The Contractor  
443 shall not furnish water made available pursuant to this Settlement Contract for lands or parties  
444 which are in arrears in the advance payment of water rates levied or established by the  
445 Contractor.

446 (c) With respect to subdivision (b) of this Article, the Contractor shall have no  
447 obligation to require advance payment for water Rates which it levies.

448 CHARGES FOR DELINQUENT PAYMENTS

449 13. (a) The Contractor shall be subject to interest, administrative and penalty  
450 charges on delinquent installments or payments. When a payment is not received by the due  
451 date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond  
452 the due date. When a payment becomes 60 days delinquent, the Contractor shall pay an  
453 administrative charge to cover additional costs of billing and processing the delinquent payment.  
454 When a payment is delinquent 90 days or more, the Contractor shall pay an additional penalty  
455 charge of six percent per year for each day the payment is delinquent beyond the due date.  
456 Further, the Contractor shall pay any fees incurred for debt collection services associated with a  
457 delinquent payment.

458 (b) The interest charge rate shall be the greater of the rate prescribed quarterly  
459 in the Federal Register by the Department of the Treasury for application to overdue payments,  
460 or the interest rate of one-half of one percent per month prescribed by Section 6 of the  
461 Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be  
462 determined as of the due date and remain fixed for the duration of the delinquent period.

463 (c) When a partial payment on a delinquent account is received, the amount  
464 received shall be applied, first to the penalty, second to the administrative charges, third to the  
465 accrued interest, and finally to the overdue payment.

466

QUALITY OF WATER

467

14. The operation and maintenance of Project facilities shall be performed in such

468

manner as is practicable to maintain the quality of raw water made available through such

469

facilities at the highest level reasonably attainable as determined by the Contracting Officer. The

470

United States does not warrant the quality of water and is under no obligation to construct or

471

furnish water treatment facilities to maintain or better the quality of water.

472

WATER AND AIR POLLUTION CONTROL

473

15. The Contractor, in carrying out this Settlement Contract, shall comply with all

474

applicable water and air pollution laws and regulations of the United States and the State of

475

California, and shall obtain all required permits or licenses from the appropriate Federal, State,

476

or local authorities.

477

EQUAL OPPORTUNITY

478

16. During the performance of this Settlement Contract, the Contractor agrees as

479

follows:

480

(a) The Contractor will not discriminate against any employee or applicant for

481

employment because of race, color, religion, sex, or national origin. The Contractor will take

482

affirmative action to ensure that applicants are employed, and that employees are treated during

483

employment, without regard to their race, color, religion, sex, or national origin. Such action

484

shall include, but not be limited to, the following: Employment, upgrading, demotion, or

485

transfer; recruitment or recruitment advertising; layoff or termination, rates of payment or other

486

forms of compensation; and selection for training, including apprenticeship. The Contractor

487

agrees to post in conspicuous places, available to employees and applicants for employment,

488

notices to be provided by the Contracting Officer setting forth the provisions of this

489

nondiscrimination clause.

490

(b) The Contractor will, in all solicitations or advertisements for employees

491

placed by or on behalf of the Contractor, state that all qualified applicants will receive

492

consideration for employment without discrimination because of race, color, religion, sex, or

493

national origin.

494

(c) The Contractor will send to each labor union or representative of workers

495

with which it has a collective bargaining agreement or other contract or understanding, a notice,

496

to be provided by the Contracting Officer, advising the said labor union or workers'

497 representative of the Contractor's commitments under Section 202 of Executive Order 11246 of  
498 September 24, 1965, and shall post copies of the notice in conspicuous places available to  
499 employees and applicants for employment.

500 (d) The Contractor will comply with all provisions of Executive Order  
501 No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders  
502 of the Secretary of Labor.

503 (e) The Contractor will furnish all information and reports required by said  
504 amended Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or  
505 pursuant thereto, and will permit access to its books, records, and accounts by the Contracting  
506 Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with  
507 such rules, regulations, and orders.

508 (f) In the event of the Contractor's noncompliance with the nondiscrimination  
509 clauses of this Settlement Contract or with any of the said rules, regulations, or orders, this  
510 Settlement Contract may be canceled, terminated, or suspended, in whole or in part, and the  
511 Contractor may be declared ineligible for further Government contracts in accordance with  
512 procedures authorized in said amended Executive Order, and such other sanctions may be  
513 imposed and remedies invoked as provided in said Executive Order, or by rule, regulation, or  
514 order of the Secretary of Labor, or as otherwise provided by law.

515 (g) The Contractor will include the provisions of paragraphs (a) through (g) in  
516 every subcontract or purchase order unless exempted by the rules, regulations, or orders of the  
517 Secretary of Labor issued pursuant to Section 204 of said amended Executive Order, so that such  
518 provisions will be binding upon each subcontractor or vendor. The Contractor will take such  
519 action with respect to any subcontract or purchase order as may be directed by the Secretary of  
520 Labor as a means of enforcing such provisions, including sanctions for noncompliance:  
521 Provided, however, that in the event the Contractor becomes involved in, or is threatened with,  
522 litigation with a subcontractor or vendor as a result of such direction, the Contractor may request  
523 the United States to enter into such litigation to protect the interests of the United States.

524 17. Omitted.

525 18. Omitted.

526 BOOKS, RECORDS, AND REPORTS

527 19. The Contractor shall establish and maintain accounts and other books and records  
528 pertaining to administration of the terms and conditions of this Settlement Contract, including:  
529 the Contractor's financial transactions, water supply data, and Project land and right-of-way  
530 agreements; the water users' land-use (crop census), land ownership, land-leasing and water use  
531 data; and other matters that the Contracting Officer may require. Reports thereon shall be  
532 furnished to the Contracting Officer in such form and on such date or dates as the Contracting  
533 Officer may require. Subject to applicable Federal laws and regulations, each party to this

534 Settlement Contract shall have the right during office hours to examine and make copies of each  
535 other's books and official records relating to matters covered by this Settlement Contract.

536 CHANGE OF PLACE OF USE

537 20. Unless the written consent of the United States is first obtained no change shall be  
538 made in the place of water use shown on Exhibit B.

539 21. Omitted.

540 NOTICES

541 22. Any notice, demand, or request authorized or required by this Settlement Contract  
542 shall be deemed to have been given, on behalf of the Contractor, when mailed, postage prepaid,  
543 or delivered to the Area Manager, Northern California Area Office, Bureau of Reclamation,  
544 16349 Shasta Dam Boulevard, Shasta Lake, California 96019, and on behalf of the United  
545 States, when mailed, postage prepaid, or delivered to Burton H. and Kathryn L. Lauppe, 11000  
546 Garden Highway, Sacramento, California 95837-9106. The designation of the addressee or the  
547 address may be changed by notice given in the same manner as provided in this Article for other  
548 notices.

549 ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

550 23. (a) The provisions of this Settlement Contract shall apply to and bind the  
551 successors and assigns of the parties hereto, but no assignment or transfer of this Settlement  
552 Contract or any right or interest therein shall be valid until approved in writing by the  
553 Contracting Officer.

554 (b) The assignment of any right or interest in this Settlement Contract by  
555 either party shall not interfere with the rights or obligations of the other party to this Settlement  
556 Contract absent the written concurrence of said other party.

557 (c) The Contracting Officer shall not unreasonably condition or withhold his  
558 approval of any proposed assignment.

559 OFFICIALS NOT TO BENEFIT

560  
561 24. No Member of or Delegate to Congress, Resident Commissioner, or official of the  
562 Contractor shall benefit from this Settlement Contract other than as a water user or landowner in  
563 the same manner as other water users or landowners.

564

CONTINGENT UPON APPROPRIATION OR ALLOTMENT OF FUNDS

565

25. The expenditure or advance of any money or the performance of any obligation of the United States under this Settlement Contract shall be contingent upon appropriation or allotment of funds. Absence of appropriation or allotment of funds shall not relieve the Contractor from any obligations under this Settlement Contract. No liability shall accrue to the United States in case funds are not appropriated or allotted.

566

567

568

569

570

CONFIRMATION OF SETTLEMENT CONTRACT

571

26. The Contractor, after the execution of this Settlement Contract, shall promptly seek to secure a decree of a court of competent jurisdiction of the State of California, if appropriate, confirming the execution of this Settlement Contract. The Contractor shall furnish the United States a certified copy of the final decree, the validation proceedings, and all pertinent supporting records of the court approving and confirming this Settlement Contract, and decreeing and adjudging it to be lawful, valid, and binding on the Contractor. This Settlement Contract shall not be binding on the United States until such final decree has been secured.

572

573

574

575

576

577

578

27. Omitted.

579

PRIVACY ACT COMPLIANCE

580

28. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et seq.) in maintaining Landholder acreage certification and reporting records, required to be submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

581

582

583

584

585

(b) With respect to the application and administration of the criminal penalty provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees responsible for maintaining the certification and reporting records referenced in (a) above are considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

586

587

588

589

(c) The Contracting Officer or a designated representative shall provide the Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of information contained in the Landholder's certification and reporting records.

590

591

592

593

594

(d) The Contracting Officer shall designate a full-time employee of the Bureau of Reclamation to be the System Manager who shall be responsible for making decisions on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The Contractor is authorized to grant requests by individuals for access to their own records.

595

596

597

598

(e) The Contractor shall forward promptly to the System Manager each proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed

599

600 under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System  
601 Manager with information and records necessary to prepare an appropriate response to the  
602 requester. These requirements do not apply to individuals seeking access to their own  
603 certification and reporting forms filed with the Contractor pursuant to 43 CFR 426.18, unless the  
604 requester elects to cite the Privacy Act as a basis for the request.

605 WATER CONSERVATION

606 29. (a) Prior to the diversion of Project Water, the Contractor shall be  
607 implementing an effective water conservation and efficiency program based on the Basin-Wide  
608 Water Management Plan and/or Contractor's water conservation plan that has been determined  
609 by the Contracting Officer to meet the conservation and efficiency criteria for evaluating water  
610 conservation plans established under Federal law. The water conservation and efficiency  
611 program shall contain definite water conservation objectives, appropriate economically feasible  
612 water conservation measures, and time schedules for meeting those objectives. Continued  
613 diversion of Project Water pursuant to this Settlement Contract shall be contingent upon the  
614 Contractor's continued implementation of such water conservation program. In the event the  
615 Contractor's water conservation plan or any revised water conservation plan completed pursuant  
616 to subdivision (d) of Article 29 of this Settlement Contract have not yet been determined by the  
617 Contracting Officer to meet such criteria, due to circumstances which the Contracting Officer  
618 determines are beyond the control of the Contractor, Project Water deliveries shall be made  
619 under this Settlement Contract so long as the Contractor diligently works with the Contracting  
620 Officer to obtain such determination at the earliest practicable date, and thereafter the Contractor  
621 immediately begins implementing its water conservation and efficiency program in accordance  
622 with the time schedules therein.

645 (b) The Contracting Officer shall have the right to make determinations  
646 necessary to administer this Settlement Contract that are consistent with the provisions of this  
647 Settlement Contract, the laws of the United States and of the State of California, and the rules  
648 and regulations promulgated by the Secretary of the Interior. Such determinations shall be made  
649 in consultation with the Contractor to the extent reasonably practicable.

650 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

651 31. (a) In addition to all other payments to be made by the Contractor pursuant to  
652 this Settlement Contract, the Contractor shall pay to the United States, within 60 days after  
653 receipt of a bill and detailed statement submitted by the Contracting Officer to the Contractor for  
654 such specific items of direct cost incurred by the United States for work requested by the  
655 Contractor associated with this Settlement Contract plus indirect costs in accordance with  
656 applicable Bureau of Reclamation policies and procedures. All such amounts referred to in this  
657 Article shall not exceed the amount agreed to in writing in advance by the Contractor. This  
658 Article shall not apply to costs for routine contract administration.

659 (b) All advances for miscellaneous costs incurred for work requested by the  
660 Contractor pursuant to Article 31 of this Settlement Contract shall be adjusted to reflect the  
661 actual costs when the work has been completed. If the advances exceed the actual costs incurred,  
662 the difference will be refunded to the Contractor. If the actual costs exceed the Contractor's  
663 advances, the Contractor will be billed for the additional costs pursuant to Article 31 of this  
664 Settlement Contract.

665 WAIVER OF DEFAULT

666 32. The waiver by either party to this Settlement Contract as to any default shall not  
667 be construed as a waiver of any other default or as authority of the other party to continue such

668 default or to make, do, or perform, or not to make, do, or perform, as the case may be, any act or  
669 thing which would constitute a default.

670 CONTRACT ASSIGNMENT OR TERMINATION UPON TRANSFER OF LAND

671 33. (a) The rights and obligations of the Contractors may be transferred in  
672 connection with the transfer of title to the land or any portion thereof delineated on Exhibit B on  
673 the following terms and conditions:

674 (1) A voluntary inter vivos transfer may be made, upon mutual  
675 agreement of the United States and the Contractors, to a person eligible to hold title to the land as  
676 a nonexcess landowner; and

677 (2) In the event the title of the Contractors to such land, or any portion  
678 thereof, is transferred by operation of law, such as by conveyance in satisfaction of a mortgage,  
679 by inheritance, or by device, the rights and obligations of the Contractors shall pass with the title  
680 and the land shall be subject to provisions of Reclamation law pertaining to such transfers. Any  
681 transfer of the rights and obligations of this Settlement Contract by the person acquiring title by  
682 operation of law shall be in accordance with provisions of subsection (1) above.

683 (b) The Contractors shall notify the Contracting Officer in writing of any  
684 proposed transfer of this Settlement Contract. In addition, in the case of a partial assignment the  
685 Contractors shall:

686 (1) Designate the proportionate quantities of Base Supply and Project  
687 Water which they desire to assign; and

688 (2) Furnish the United States with a copy of the deed transferring title.

699 IN WITNESS WHEREOF, the parties hereto have executed this Settlement  
700 Contract as of the day and year first hereinabove written.
