Subject: Fiscal Year 2002 Central Valley Project Results of Operations Surplus -- Irrigation Contractors

Dear Water Contractor:

We have completed the fiscal year 2002 accounting for irrigation operations, which includes a breakdown of results by individual contractor and service area. Included in the accounting are the results of our analysis of the interest impact of the adjustment for the Provision for Replacement (PFR) expenses. As you know, the PFR principal was already included as a part of the Chief Financial Officer (CFO) audit in the fiscal year 2001 accounting. If the PFR interest charge analysis results in a credit for contractors who chose to record reclassified costs as an annual expense due to the CFO audit, the credit will be included in the net results of operation. If the analysis results in a credit for contractors who chose to allocate the reclassified costs over a five year period, the credit will be included in the statement of accumulated results as of September 30, 2002.

The net results of operations applicable to your contract(s) for fiscal year 2002 is an operation and maintenance surplus in the amount of \$ «Amount». This includes qualified voluntary payment(s) made during fiscal year 2002, if any.

The accumulated results through fiscal year 2001 are currently being updated to include the fiscal year 2002 results of operations. This process includes computing interest on fiscal year 2002 and earlier interest bearing deficits, as applicable. We anticipate providing you with your fiscal year 2002 statement in October 2003.
