

NCAO Recognized for 15 Years of Giving

By Sheri Harral, Public Affairs Specialist, Northern California Area Office

For the past 15 years the Northern California Area Office (NCAO) has been a faithful contributor to Redding's North State BloodSource blood drive program. NCAO is a smaller area office with just so many employees but that doesn't deter its staff from stepping up and going above and beyond when it comes to giving back.

At this year's annual BloodSource Award Ceremony held in Redding, CA on March 9th, NCAO received the award for Outstanding Contribution for the 2011 blood drives. NCAO also received awards for best percentage of participation based on the size of the group and Sheri Harral, NCAO Blood Drive Chairman, was recognized for 15 years of service as the blood drive chairperson.

Blood donors keep Tyler healthy so he can become a doctor who saves others.

Yes, you do save lives.

Blood Drive

Thursday, March 22nd
11 am – 3:30 am

Located on the Bloodmobile @ the
Shasta Dam Visitors Center

Contact **Sheri Harral** or **Tammy Corn**
to make an appointment.

Walk-ins are welcome!

The 2012 NCAO Spring Blood Drive on March 22nd, brought in 27 donations, even with some employees having to back out at the last minute due to illness. Dannielle Smith, Account Manager for BloodSource was extremely thankful and commented, "The NCAO drive was a huge help to this month which has been a struggle."

NCAO's Summer Blood Drive is scheduled for Thursday, August 9th, and the Holiday Blood Drive will be held on Thursday, December 13th.

The blessing of good health is priceless and the employees at NCAO know it. This office may not be big in size, but its spirit of giving back is!
