Reclamation proposes to approve the addition of TMR as a point of delivery for the Madera Irrigation District's Soquel water under Contract No. 10-WC-20-3984B and the delivery of groundwater pumped from Flyin' J Ranch to TMR under Warren Act Contract No. 15-WC-20-4686. These contracts were previously analyzed by Reclamation, under EA-11-016 and EA-14-019, respectively.

Reclamation has determined that the amendment of the previously approved contracts to include these changes to points of delivery is the type of undertaking that has no potential to cause effects on historic properties, should such historic properties be present, pursuant to the National Historic Preservation Act (NHPA) Section 106 regulations as codified at 36 CFR § 800.3(a)(1). With this determination, Reclamation has no further obligations under Section 106 of the NHPA.

This document conveys the completion of the NHPA Section 106 process for this undertaking. Please retain a copy in the administrative record for this action. Should changes be made to the proposed action, additional NHPA Section 106 review, possibly including consultation with the State Historic Preservation Officer, may be necessary.
