

Chapter 2 Indices of Commenters and Index of Primary Forms

Indices are organized by commenter type, as described in Table 2-1. These indices list the comment letter numbers and titles of commenters, when provided, from federal agencies, federal elected officials, and Tribal governments (Table 2-2); state agencies and elected officials (Table 2-3); local agencies and elected officials (Table 2-4); non-governmental organizations (Table 2-5); and members of the public, including individuals who provided comments that were in part forms or petitions (Table 2-6). An index of primary forms and petitions is provided in Table 2-7. Readers should use these indices to identify the letter number or numbers associated with their submissions and then find the comment responses that are contained in Volume 3, Chapter 4, *Responses to Comments*. If a dash is shown in the table, the information was not provided or was not legible.

Commenters who provided comments that were in part forms or petitions will see a primary forms number associated with their comment letter. These commenters should cross reference the primary forms index provided in Table 2-7 to locate the letter number for the form they submitted. Responses to both the unique portion and form portion of comments are found in Volume 3, Chapter 4, *Responses to Comments*.

Form letters are defined as those that are identical in content but submitted by a large number of individuals. The following *primary forms* were identified during the review of comment letters. The Sites Project Authority (Authority) and Bureau of Reclamation (Reclamation) received approximately 1,427 form letters and petitions. Each form letter is responded to only once. Readers can locate the responses to each form letter using the letter number identified in Table 2-7 and locating that letter in Volume 3, Chapter 4, *Responses to Comments*. A list of petition signatures is provided in Appendix 2A, *List of Petition Signatures*.
