

Chapter 34 Final EIR/EIS Document Distribution

The Authority and Reclamation circulated the RDEIR/SDEIS for public and agency review and comment for a 77-day period following the Authority’s filing of the Notice of Completion with the Office of Planning and Research, State Clearinghouse and the U.S. Environmental Protection Agency’s publication of the Notice of Availability of Weekly Receipt of Environmental Impact Statement in the Federal Register. The original 60-day public review and comment period, which was scheduled to end January 11, 2022, was extended for an additional 17 days to January 28, 2022.

The Final EIR/EIS is available for download from the Authority’s website (<https://sitesproject.org/resources/environmental-review/>) and on Reclamation’s website (https://www.usbr.gov/mp/nepa/nepa_base.php?location=ro). In addition, printed copies of this Final EIR/EIS are available for viewing at the locations identified in Table 34-1.

Table 34-1: Locations of Available Copies of the Sites Reservoir Project Final EIR/EIS

Sites Project Authority	Reclamation
Sites Project Authority 122 West Old Highway 99 Maxwell, CA 95955	Bureau of Reclamation Mid-Pacific Regional Office Library 2800 Cottage Way Sacramento, CA 95825
Public Libraries	
Glenn County Public Library, Willows Branch 201 North Lassen Street Willows, CA 95988	Colusa County Free Library, Main Branch 738 Market Street Colusa, CA 95932
Tehama County Library, Red Bluff Branch 645 Madison Street Red Bluff, CA 96080	Maxwell Branch Library 34 Oak Street Maxwell, CA 95955
Yolo Branch Library 37750 Sacramento Street Yolo, CA 95697	Sacramento Public Library 828 I Street Sacramento, CA 95814
Mary L. Stephens – Davis Branch Library 315 E. 14th Street Davis, CA 95616	

During the RDEIR/SDEIS comment period, two virtual public meetings were held to solicit public input. Dates and times for these public meetings were provided on the Authority’s website (<https://sitesproject.org/resources/environmental-review/>).

Written (either by U.S. mail or email) comments were accepted throughout the RDEIR/SDEIS comment period, which was extended from 60 days to 77 days and ended on January 28, 2022.

As described in the Executive Summary; Chapter 1, *Introduction*; and Appendix 2B, *Additional Alternatives Screening and Evaluation*, the RDEIR/SDEIS completely revised the environmental analysis pursuant to CEQA and NEPA to reflect changes to the Project that have occurred since the issuance of the 2017 Draft EIR/EIS. Reviewers of the RDEIR/SDEIS were encouraged to focus on the sufficiency of the document in identifying and analyzing possible impacts on the environment and ways in which the potentially significant impacts of the Project alternatives might be avoided or mitigated. Changes made to the Final EIR/EIS as a response to public comments are indicated by a line in the margin of the page and are described in responses to comments located in Volume 3 of the Final EIR/EIS.
