

**Single Source Justification**  
**Bureau of Reclamation**  
**FAR 13.106-1(b)(1), Simplified Acquisitions**  
**Purchase Requisition Number: 10238000097**  
**REDACTED**

**1. Identification of the Program Office.**

U.S. Bureau of Reclamation, Northern California Area Office (NCAO)  
16349 Shasta Dam Blvd., Shasta Lake, CA 96019

**2. Description of supply or service required to meet the agency's needs.**

Digital video disk (DVD) documenting environmental restoration actions on Clear Creek for informational and educational purposes, this is a cost-sharing contract with the Bureau of Land Management (BLM).

**3. The rationale or circumstances for limiting competition.**

The Western Shasta Resource Conservation District (WSRCD) is uniquely qualified to produce the Clear Creek Restoration DVD. The WSRCD produced an educational/informational CD via Reclamation grant/cooperative agreement 01FG23072. Production/video material from this CD will be a major component of the new DVD and only the WSRCD has this technical material at its disposal for incorporation. Also, the WSRCD has been the primary implementation agency for Clear Creek Restoration since 1997. This has allowed the WSRCD to accumulate a library of unique photographs, video clips and interviews that are not available to other organizations. This library of information, and its incorporation into the DVD, is essential to the content and production. Lastly, WSRCD has in-house staff that have implemented all major restoration actions on the creek and therefore have unique knowledge, insight and information which is required content of the DVD and is simply not available to other organizations.
