# Otto Otter's Canal Safety and Water Delivery Jeopardy

FRONT

# — BUREAU OF — RECLAMATION

## Rules

- This is a team activity. Teams will create a team name and a “buzzer” sound to utilize if they would like to answer a question.
- Coordinator will start the game by choosing Canal Basics 100. Read the question aloud for everyone to hear. Teams must use their buzzer sound if they would like to answer. Teams must provide their answer in a “What is...” form. For example, “What is Otto Otter?” Failure to answer in this form forfeits the point. If the answer is wrong, it goes to any team to answer. If the team gets the answer right, they can choose another card.
- As teams get correct answers, they collect the cards they got right. There are three double jeopardy opportunities to receive double points. It is double the point value of the card.
- There will be one opportunity at the end for the Daily Double. Before the question is read, have students add up their totals. Teams can negotiate the number of points they would like to wager, but it cannot exceed their total points. Teams will get thirty seconds to discuss before they submit an answer. If they get the wrong answer, the teams will lose those points from their bank. At the end, you will add up the points and determine a winner.
