- 1/ Tentative classifications made under the provisions of the Federal Reclamation Laws. The symbols indicate the reason the land was tentatively classed other than class 1 (T - Topography; S - Soil).
- 2/ Lands in class 6 are regarded as nonirrigable.
- 3/ Land designated as high is land which, although arable, is classified as nonirrigable because of higher elevation or location with respect to the turnout and measuring device provided for delivery of water from the project irrigation system.
- 4/ Railroad right of way in units is not carried in the right of way column, but is included in the respective column for irrigable area (by land class), Class 6 or high land as applicable.

NOTE: As of the date of this plat, the acreage for the Farm Units and Water Delivery Units shown hereon are tentative and subject to change. These acreages may be modified by additions or deletions. A final irrigable area determination for the Block will be made prior to the end of the development period for the Block for the purposes of water service and project construction repayment.
