

GRANT COUNTY, WASHINGTON

[illegible]

TENTATIVE IRRIGABLE AREA TABULATION

This tentative acreage tabulation is based on a tentative land classification survey made under the provisions of the Federal Reclamation laws. Symbols on the appropriate maps indicate the reason the land was tentatively classified other than class 1 (T - Topography; S - Soil).

1/--All units in the block, unless designated otherwise, are special water delivery units. A special water delivery unit is a unit of land normally served by a single turnout in which all or a portion of the unit is used for sprinkler irrigation only or any method other than the method of operation normally used in a unit.

Class 6 are regarded as nonirrigable.

were not delineated in the block.
located at a higher elevation

of all units as special
its.

NOTE: As of the date of this plat, the acreage for the Farm Units and Water Delivery Units shown hereon are tentative and subject to change. These acreages may be modified by additions or deletions. A final irrigable area determination for the Block will be made prior to the end of the development period for the Block for the purposes of water service and project construction repayment.
