

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
BUREAU OF RECLAMATION  
COLUMBIA BASIN PROJECT - WASHINGTON

This revision, consisting of a title page, this sheet showing official actions taken with respect to the plat, and the following General Map sheets outlining the farm unit boundaries, together with 1 supplemental sheets showing detailed drawings and descriptions of each farm unit, comprises the Third revision of the farm unit plat of Irrigation Block 3 of the Columbia Basin Project, dated October 8, 1956, and filed for record in the County Auditor's office of Walla Walla County, Washington on October 22, 1956, Auditor's file No. 390823. Previous revisions were made on November 5, 1958 and July 26, 1960.

The revisions in the form unit plat, Irrigation Block No. 3, consist of:

[illegible]

The General Map sheets show in tabular form, the irrigable area in each farm unit by classes of land and the portions within each farm unit required for rights-of-way or designated as class 6 (non-irrigable) or "high". The land classes indicated in the tabulation on the maps are the tentative classifications made under the provisions of the Federal Reclamation Laws, these being the Act of June 17, 1902 (32 Stat. 388) and acts amendatory thereof and supplementary thereto. The classification symbols

employed mean: T - Topography; S - Soil. The use of the symbols indicates the reason that the land was tentatively classed other than in class I. Lands in class 6 are regarded as non-irrigable. Lands designated as "high" are regarded as being at an elevation beyond the economical reach of the distribution system being provided for the irrigation block. The State of Washington and appropriate counties have furnished; upon the solicitation of the United States, information showing changes in alignment and rights-of-way for public highways and roads under their jurisdiction. To the extent that it has been practicable so to do, these data have been correctly placed and shown on this revised plat. The final irrigable area established for each farm unit will be announced and fixed for the purposes of water service and project construction repayment by an announcement issued by the Secretary of the Interior to the Irrigation District prior to the end of the development period of the block as provided for in the repayment contract of October 9, 1945, as amended, between the United States of America and the South Columbia Basin Irrigation District, recorded in Walla Walla County, Washington in Volume I of Columbia Basin Documents, pages 1 to 21, inclusive.

In considering these revisions, investigations and studies were made of the lands in the block and the project as a whole with the object of determining the area, shape and boundaries of the various farm units in this block, having in mind the requirements of the Columbia Basin Project Act (57 Stat. 14) and of Chapter 275, Laws of Washington, 1943, as amended, and of the policies established thereunder by the Secretary of the Interior. Based on these studies and investigations and all relevant data brought forward since the filing of the farm unit plat, I find that the units as herein revised are of sufficient acreage for the support of an average-sized family at a suitable living level and have appropriate shapes and boundaries, having in mind the character of the soil, topography, location with respect to the irrigation system, and all other factors that are relevant to the determination of the area and boundaries of the farm units. Accordingly, acting pursuant to the authority delegated to the Commissioner of Reclamation by the Secretary of the Interior, as shown by Departmental Order 2765, dated July 30, 1954, and redelegated to me by the Commissioner of Reclamation by Commissioner's Order 34, dated October 6, 1954, and Commissioner's Order 34 Amendment 1, dated October 29, 1954, all as recorded in the Auditor's office of Walla Walla County, Washington, in Volume 3 of Columbia Basin Documents at page 226, and pursuant to the provisions of the Columbia Basin Project Act as amended, and Chapter 275, Laws of Washington, 1943, as amended, and the repayment contract of October 9, 1945, as amended, between the United States of America and the South Columbia Basin Irrigation District, I hereby revise the farm unit plat of Irrigation Block 3, dated October 8, 1956, by (1) Replacing the General Map sheets of that plat with the General Map sheets of this plat and (2) Replacing supplemental sheet 3 of the plat revision recorded November 5, 1958 as revised, with sheet 1, of this plat.

IN WITNESS WHEREOF, I have signed this instrument this 21st day of July, 1961

THE UNITED STATES OF AMERICA  
THE SECRETARY OF THE INTERIOR

By Regional Director Region 1, Bureau of Reclamation, Boise, Idaho, pursuant to authority contained in Departmental Order No. 2765, dated July 30, 1954, and Commissioner's Order No. 34, dated October 6, 1954, as amended by Commissioner's Order No. 34, Amendment 1, dated October 29, 1954, all as recorded in Volume 3 of Columbia Basin Documents at page 226 records of Walla Walla County, Washington.

STATE OF IDAHO  
County of Ada

On this 15 day of August, 1961, personally appeared before me \_\_\_\_\_, to me known to be the official of the United States of America that executed the within and foregoing instrument and acknowledged said instrument to be the free and voluntary act and deed of said United States, for the uses and purposes therein mentioned, and on oath stated that he was authorized to execute said instrument.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal the day and year first above written.

My Commission expires: 12/31/06

Notary Public in and for the State of Idaho,  
residing at Boise.

(SEAL)

# CERTIFICATE

I hereby certify that this revised plat of Irrigation Block 3, Columbia Basin Project, Washington, is based upon an actual survey and subdivision of Sections 1 and 12 Township 8 North, Range 30 East, Willamette Meridian; Sections 5, 6, 7, 8, 9, 15, 16, 17, 18, 20, 21, 22, 27, 28, 33 and 34 Township 8 North, Range 31 East, Willamette Meridian; that the distances and angles are shown thereon correctly; that the monuments have been set and farm unit corners staked on the ground.
