The General Map sheets show in tabular form the irrigable area in each farm unit by classes of land and the portions within each farm unit required for rights-of-way or designated as Class 5 (temporarily unproductive), Class 6 (non-irrigable), or "high". The land classes indicated in the tabulation on the maps were designated and established on August 11, 1958 by the Regional Director, Region I, Bureau of Reclamation, for and on behalf of the Secretary of the Interior. Lands in Class 5 are regarded as being temporarily unproductive because of seepage conditions. Lands in Class 6 are regarded as non-irrigable. Lands designated as "high" are regarded as being at an elevation beyond the economical reach of the distribution system being provided for the irrigation block. The State of Washington and appropriate counties have furnished, upon the solicitations of The United States, information showing changes in alignment and rights-of-way for public highways and roads under their jurisdiction. To the extent that it has been practicable so to do, these data have been correctly placed and shown on this revised plat. In the last year of the development period for the block an announcement to the Irrigation District will be issued by the Secretary of the Interior establishing and fixing the irrigable areas and land classes of each farm unit in the block for purposes of water service charges and project construction repayment as provided for in the repayment contract of October 9, 1945 as amended, between The United States of America and the East Columbia Basin Irrigation District, recorded in Adams County Washington, in Volume 1 of Columbia Basin Documents, pages 62 to 123 inclusive.

In considering these revisions, investigations and studies were made of the lands in the block and the project as a whole with the object of determining the area, shape and boundaries of the various farm units in this block, having in mind the requirements of the Columbia Basin Project Act (57 Stat. 14) and of Chapter 275, Laws of Washington, 1943, as amended, and of the policies established thereunder by the Secretary of the Interior. Based on these studies and investigations and all relevant data brought forward since the filing of the farm unit plat, I find that the units as herein revised are of sufficient acreage for the support of an average-sized family at a suitable living level and have appropriate shapes and boundaries, having in mind the character of the soil, topography, location with respect to the irrigation system, and all other factors that are relevant to the determination of the area and boundaries of the farm units. Accordingly, acting pursuant to the authority delegated to the Commissioner of Reclamation by the Secretary of the Interior, as shown by Departmental Order 2765, dated July 30, 1954 and re-delegated to me by the Commissioner of Reclamation by Commissioner's Order 34, dated October 6, 1954, and Commissioner's Order 34 Amendment 1, dated October 29, 1954, all as recorded in the Auditor's office of Adams County, Washington, in Volume 5 of Columbia Basin Documents at page 556, and pursuant to the provisions of the Columbia Basin Project Act as amended, and Chapter 275, Laws of Washington, 1943, as amended, and the repayment contract of October 9, 1945, as amended, between The United States of America and the East Columbia Basin Irrigation District, I hereby revise the farm unit plat of Irrigation Block 49, dated January 17, 1952, by (1) Replacing the General Map sheets of that plat with the General Map sheets of this plat and (2) Replacing supplemental sheet 6 of the plat revision filed July 19, 1957, supplemental sheet 2 of the plat revision filed September 3, 1958, supplemental sheets 4 and 12 of the plat revision filed September 1, 1959, supplemental sheets 3, 4 and 6 of the plat revision filed August 3, 1960 and supplemental sheets 1 and 4 of the plat revision filed August 16, 1961 as revised, with sheets 1 through 9 respectively, of this plat.

IN WITNESS WHEREOF, I have signed this instrument this 17th day of September, 1962.
