

2009-2012 (Look Back) Project List Assembly

Sources of materials

- List of projects considered by the Expert Panels (from last round of EP workshop spreadsheets)
- Project sponsor/Fish Accord/Watershed lists of completed projects (Habitat Work Schedule, Completion Reports, database reports, etc.)
- PISCES / TAURUS tables of project status (BPA)
- Completion tables / reports (USBR)

2009-2012 (Look Back) Project List Assembly

Needs

- Compare sources (last slide) to develop list of completed actions
- Indicate status:
 - Planned, but Terminated
 - Completed as planned (note Limiting Factors addressed)
 - Completed with changes (note changes in location/scope/LFs/metrics)
 - Completed, not planned (include location/scope/LFs/metrics)
 - In Progress (note Limiting Factors addressed)
- Projects “In Progress” will be copied to the 2013-18 project list

2009-2012 (Look Back) Project List Assembly

What next?

- List of completed 2009-12 projects (Look Back) and List of planned 2013-2018 projects (Look Forward) will be input to AA database
- A separate effort is underway to prepare standardized Limiting Factors, bookends, and Assessment Unit and LF weighting factors in advance of the EP workshops
- Another separate effort is underway to assemble relevant monitoring info to inform evaluation of habitat condition at the EP workshops
- AA database intended to compile information in advance of the EP workshops to make it easier to compare Look Back and Look Forward Project lists with Limiting Factors within Assessment Units so that focus can be more on evaluating habitat changes at the EP workshops (than on compiling action lists, debating LF characteristics, and seeking relevant monitoring info during the workshop, itself)
