

Initial Hydrologic Modeling Scenarios

- No-action
 - Includes YRBWEP Conservation Projects, others funded or recently constructed
- Non-structural Projects and Actions
 - Enhanced Water Conservation, including Wapatox
 - Groundwater infiltration
- Integrated Plan
 - Non-structural plus Wymer/Thorp Pump Station
 - Above (3a) plus Kachess/K-K Pipeline
 - Above (3a + b) plus Bumping, Cle Elum Pool Raise

Initial Hydrologic Modeling Scenarios

- Integrated Plan incorporating Climate Change

Note: Projects not planned to be modeled using RiverWare are:

- Subordination
- KRD Main Canal and South Branch Canal Improvements
- Municipal Aquifer Storage and Recovery (ASR)
- Columbia River pumping.
