---

Greetings Ben,

Here's an addition for the "Review Draft Recommendation to Advance a Preliminary Yakima Basin Integrated Water Resource Management Plan."

Under ***Water Supply***:

Add: 5. A sub-basin, water supply pilot project through water storage at Pine Hollow.

Hope things are going well and that you managed at least a little time off for some thanksgiving turkey and maybe a game or two.

- Brad

**Subject:** YRBWEP Nov 23 Meeting Follow Up

YRBWEP Workgroup Members,

At yesterday's meeting, we had a few items that we promised to send out today that weren't in the original email, plus a summary of the comments on the Discussion Draft Integrated Plan Recommendation.

These items are attached. We look forward to receiving your comments on the recommendation and the 2010 plan of study documents by December 2, close of business. Feel free to make the suggested changes directly in the attached WORD files.

Send the plan of study comments to Derek Sandison and Wendy Christensen, and comments on the recommendation to me.

Have a nice Thanksgiving Holiday!

Ben Floyd
