

Conducting the Study

Preliminary Thinking

- Interdisciplinary
- Highly Integrated – outcome focused
- Capitalizing on existing capacity
- Capitalizing on existing knowledge
- Use experts for well-defined technical analysis

Study Team Specialists

- Interdisciplinary Study Team individually selected:
 - Irrigation Efficiency Engineering
 - Water marketing/economics
 - Water law/policy
 - Watershed ecology
- Study Team collaborates on Study Design

Project Management

- Separate from technical specialists
- Capitalize on existing capacity
- Admin and coordination shared within BSWG entities.
- Keep costs low (3-yr study)

Next Steps

- BSWG Planning Team (+ Thalacker + Houston)
- Bring proposal to April BSC meeting
