November 3, 2010

Henry's Fork Watershed Council members:

We will be meeting Tuesday, November 16 to continue discussions regarding the Henry's Fork Water Supply Study. A brief update on the Chester Hydro Project will also be presented. **The meeting will be at the SpringHill Marriott located at 1177 South Yellowstone in Rexburg.**

The meeting will start at 8:30. Coffee, juice, and doughnuts will be served.

Paul Bezzant, Project Manager with Symbiotics, will give the group a brief update on construction of the Chester Diversion Hydroelectric Project.

Bob Schattin, U.S. Bureau of Reclamation, and Mark Bransom, CH2M HILL, will facilitate the meeting for the Special Study on Water Supply on the Henry's Fork. There are three topics that will be covered at this meeting:

- 1) Finalizing the list of issues and opportunities developed at the last meeting;
- 2) Translating the issues and opportunities into goals and objectives;
- 3) Reviewing criteria for first screening of alternatives.

Also, BOR asked us to remind you that if you received a letter request to identify representatives for the stakeholder group, your response is due to USBOR by Nov. 9th.

The November 16th meeting will start at 8:30, we hope to see you there!
