- (1) **Remain in CIA or G-PP&E Removed but Not Yet Disposed.** Significant barriers such as financial, technical, legal, political, etc., still exist preventing the completion of the construction activity. The project manager will submit an update to the regional director and obtain their concurrence.
- (2) **Return to Construction.** The construction activity meets the criteria to return to construction status per Reclamation Manual (RM) Directive and Standard (D&S), *Construction Activities* ([FAC 03-02](#)). The project manager will submit a memorandum to the regional director and obtain their concurrence.
- (3) **Transfer to Permanent Suspension.** Congress de-authorized the activity or the region requests approval for permanent suspension. The project manager will submit a memorandum approved by the regional director to Policy and Administration requesting permanent suspension.

Note: The region may modify this form to meet their needs provided, at a minimum, they obtain this information.

¹ See RM D&S, *Determination to Suspend an Authorized Construction Activity* ([CMP TRMR-88](#)), for documentation requirements. Finance cannot process the necessary transactions without the documentation.
