   (2) **Directives and Standards.** Contacts for Directives and Standards are at the division level [e.g., Asset Management Division (84-57000); Business Analysis Division (84-27400)].

B. **Body.** The body of every Policy, Directive and Standard, or TRMR must be stated as requirements and use such words as *will, must,* and *shall.*

C. **Paragraphs.**

   (1) Every Paragraph must be numbered or lettered. Paragraph numbers are not bolded, but paragraph headings are bolded and first letters are capitalized. Paragraph headings must be consistent (e.g., if (1) has a heading then (2) must have a heading).

   (2) Every Paragraph level must have at least two entries [e.g., if there is a 1., there must be a 2.; if there is an A., there must be a B.; if there is a (1), there must be a (2); if there is a (a), there must be a (b); if there is a (i), there must be an (ii); if there is an (aa), there must be a (bb), etc.].

D. **Acronyms.** Acronyms are established the first time the term is used, and then the acronym is used. Originating office will determine if they want to use acronyms in the Subject, Purpose, Authority, Approving Official, and Contact sections of the release or in paragraph titles, but their use must be consistent throughout the release.
E. Lists.

(1) If a list completes the sentence, and there is no paragraph title for each listed item, the first word of each of the list item is not capitalized, and each line of the list ends with a comma (,) or a semicolon (;).

</tr>
</tbody>
</table>
(c) **Directives and Standards.** D&S provide the level of detail necessary to ensure consistent application of RM Policy Reclamation-wide. D&S are also structured to provide flexibility to local offices, allowing the unique aspects of each Reclamation project and program to be taken into consideration.

(d) **Temporary Reclamation Manual Releases.** Reclamation issues Temporary Reclamation Manual Releases (TRMRs) to accelerate the release of Policy and D&S or make temporary changes in requirements. TRMRs will either be incorporated permanently into the RM within 1 year or expire. Requirements for final approval of TRMRs are identical to those for permanent releases. TRMRs have the full force of permanent Policy or D&S [Paragraphs 3.D.(2)(b)-(c)].
