

Project Number

WRF-02-004

USBR AGREEMENT: #00-FC-81-0248

National Database of Water Reuse Facilities

Investigators

Jack Bryck, Rajesh Prasad, Trevor Lindley, Steve Davis, *Malcolm Pirnie, Inc.*

Guy Carpenter, *HDR Engineering*

Cash Contributors (in addition to the Bureau of Reclamation):

State Water Resources Control Board (CA)

US Environmental Protection Agency

City of Phoenix

City of Tucson

Summary:

The NDWRF is a comprehensive database of reuse programs and facilities across the United States that can be used by agencies, utilities, consultants, and reuse water customers to advance the practice and implementation of water reuse at the local, regional, state, and national levels. From 2005 to 2007, utilities were surveyed to gather data on production and distribution, quantity of reuse for certain applications, management practices, rates, and utility contacts.

Update:

This initial project was taken over by the Association to keep it updated. The database is continually growing and expanding to date.
