

Safety and Occupational Health Action Plan Priority Recommendations: Safety Incentives Implementation Strategy Highlights

Executive Sponsor: Roseann Gonzales
Director, Policy and Administration

July 15, 2016

SUMMARY OF INCENTIVES

CHANGE INCENTIVES POLICY TO ALLOW SAFETY AWARDS

[Recommendations #34-38]

There are 5 recommendations included in this section. The majority of the recommendations are related to establishment of a safety awards program. Given the Executive Order and DOI policy constraints and with the concurrence of the RLT, a memorandum was issued to the RLT on July 29, 2016 that outlines the various awards available to them (attached). This should cover Overall Recommendations 29-31. To address Overall Recommendation 32, Liz Harrison agreed to issue a memorandum that would address uniforms for safety teams. With respect to Overall Recommendation 33, I recommend that we take no further action at this time given the policy constraints and the decentralized approach that has been taken.

New development updates will be provided at RLT discussion.
