	<i>Page</i>
Acknowledgments .....	iii
Foreword .....	v
Chapter 1 Introduction .....	1
Chapter 2 Geologic Terminology and Classifications for Geologic Materials .....	3
Established References for Geological Terminology .....	3
Geologic Classification of Materials .....	4
Engineering Classification of Geologic Materials .....	5
Application and Use of Standard Indexes, Terminology, and Descriptors .....	9
Units of Measurements for Geologic Logs of Exploration, Drawings, and Reports ..	12
Bibliography .....	15
Chapter 3 Engineering Classification and Description of Soil .....	17
General .....	17
Classifications of Soils .....	21
Abbreviated Soil Classification Symbols ...	39
Description of the Physical Properties of Soil .....	40
Narrative Descriptions and Examples .....	48
Use of Soil Classification as Secondary Identification Method for Materials Other Than Natural Soils .....	51
Bibliography .....	56
Chapter 4 Classification of Rocks and Description of Physical Properties of Rock .....	57
Introduction .....	57
Rock Classification .....	57

# FIELD MANUAL

## Chapter 4 Classification of Rocks and Description of Physical Properties of Rock (continued)

	<i>Page</i>
Description of Rock .....	59
Example Descriptions .....	86
Bibliography .....	90
Chapter 5 Terminology and Descriptions for Discontinuities .....	91
General .....	91
Indexes for Describing Fracturing .....	94
Description of Fractures .....	98
Descriptions of Shears and Shear Zones ...	114
Bibliography .....	126
Chapter 6 Geologic Mapping and Documentation .....	129
Responsibilities of the Engineering Geologist .....	129
Development of a Study Plan .....	130
Specific Mapping Requirements .....	133
Global Positioning System .....	135
Site Mapping .....	153
Dozer Trench Mapping .....	157
Backhoe Trench Mapping .....	161
Construction Geologic Mapping .....	167
Large Excavation Mapping .....	168
Steep Slope Mapping .....	169
Canal and Pipeline Mapping .....	170
Underground Geologic Mapping .....	171
Underground Geologic Mapping Methods ..	185
Photogeologic Mapping .....	196
Analysis of Aerial Photographs .....	198

## CONTENTS

### Chapter 6 Geologic Mapping and Documentation (continued)

	<i>Page</i>
Photoanalysis for Reconnaissance	
Geologic Mapping .....	199
Availability of Imagery .....	200
References .....	202
Bibliography .....	203
Chapter 7 Discontinuity Surveys .....	205
General .....	205
Bibliography .....	211
Chapter 8 Exploration Drilling	
Programs .....	213
Introduction .....	213
Preparation of Drilling Specifications and Format .....	223
Chapter 9 Groundwater Data Acquisition	
Methods .....	227
Introduction .....	227
Design and Installation of Observation Wells and Piezometers .....	229
Methods Used to Measure Groundwater Levels .....	235
Methods and Techniques Used to Estimate Flows from Seeps, Springs, and Small Drainages .....	241
Computer-Based Monitoring Systems .....	242
Definitions .....	245
References .....	246
Bibliography .....	247

## FIELD MANUAL

Chapter 10 Guidelines for Core Logging .	249
General . . . . .	249
Format and Required Data for the Final Geologic Log . . . . .	252
Method of Reporting Orientation of Planar Discontinuities and Structural Features .	284
Core Recovery and Core Losses . . . . .	285
Samples . . . . .	287
Core Photography . . . . .	288
Equipment Necessary for Preparing Field Logs . . . . .	291
Instruction to Drillers, Daily Drill Reports, and General Drilling Procedures . . . . .	294
Chapter 11 Instructions for Logging Soils	313
General . . . . .	313
Formats for Test Pits and Auger Hole Logs	325
Format of Word Descriptions for Drill Hole Logs . . . . .	333
Exceptions to Test Pit and Auger Hole Format and Descriptions for Drill Hole Logs . . . . .	339
Equipment Necessary for Preparing the Field Log . . . . .	347
Example Descriptions and Format . . . . .	349
Laboratory Classifications in Addition to Visual Classifications . . . . .	349
Word Descriptions for Various Soil Classifications . . . . .	351
Reporting Laboratory Data . . . . .	351
Special Cases for USCS Classification . . . . .	363
Reporting In-Place Density Tests . . . . .	364
Bibliography . . . . .	366

## CONTENTS

	<i>Page</i>
Chapter 12 Hazardous Waste Site	
Investigations .....	367
General .....	367
Common Terminology and Processes .....	368
Documentation .....	369
Contaminant Characteristics and Migration .....	375
Classification and Handling of Materials ..	381
Field Sampling Protocol .....	383
Sample Analysis .....	402
Safety at Hazardous Waste Sites .....	405
Sample Quality Assurance and Quality Control .....	406
Sample Management .....	410
Decontamination .....	417
Appendix	
Abbreviations and Acronyms Commonly Used in Bureau of Reclamation Engineering Geology and Related to Hazardous Waste .....	419
Index .....	433

## TABLES

<i>Table</i>		<i>Page</i>
2-1	Ground behavior for earth tunneling with steel supports .....	10
2-2	Useful conversion factors– metric and English units (inch-pound) .....	14
3-1	Basic group names, primary groups ...	26

# FIELD MANUAL

## TABLES (continued)

<i>Table</i>		<i>Page</i>
3-2	Basic group names, 5 to 12 percent fines . . . . .	26
3-3	Criteria for describing dry strength . . .	31
3-4	Criteria for describing dilatancy . . . . .	32
3-5	Criteria for describing toughness . . . . .	33
3-6	Criteria for describing plasticity . . . . .	34
3-7	Identification of inorganic fine-grained soils from manual tests . . . . .	36
3-8	Criteria for describing angularity of coarse-grained particles . . . . .	41
3-9	Criteria for describing particle shape . .	42
3-10	Criteria for describing moisture condition . . . . .	43
3-11	Criteria for describing reaction with HCl . . . . .	43
3-12	Criteria for describing consistency of in-place or undisturbed fine-grained soils . . . . .	44
3-13	Criteria for describing cementation . . .	44
3-14	Criteria for describing structure . . . . .	45
3-15	Particle sizes . . . . .	46
3-16	Checklist for the description of soil classification and identification . . . . .	48
3-17	Checklist for the description of in-place conditions . . . . .	49
4-1	Igneous and metamorphic rock grain size descriptors . . . . .	70
4-2	Sedimentary and pyroclastic rock particle-size descriptors . . . . .	71
4-3	Bedding, foliation, or flow texture descriptors . . . . .	74
4-4	Weathering descriptors . . . . .	77
4-5	Durability index descriptors . . . . .	79

## CONTENTS

### TABLES (continued)

<i>Table</i>		<i>Page</i>
4-6	Rock hardness/strength descriptors . . .	83
5-1	Fracture density descriptors . . . . .	97
5-2	Fracture spacing descriptors . . . . .	102
5-3	Fracture continuity descriptors . . . . .	102
5-4	Descriptors for recording fracture ends in joint surveys . . . . .	103
5-5	Fracture openness descriptors . . . . .	104
5-6	Fracture filling thickness descriptors . .	104
5-7	Fracture healing descriptors . . . . .	107
5-8	Fracture roughness descriptors . . . . .	109
5-9	Fracture moisture conditions descriptors . . . . .	110
6-1	U.S. State plane coordinate systems – 1927 datum . . . . .	137
6-2	U.S. State plane coordinate systems – 1983 datum . . . . .	143
11-1	Checklist for the description of soils in test pit and auger hole logs . . . . .	326
12-1	EPA recommended sampling containers, preservation requirements, and holding times for soil samples . . . . .	385
12-2	Summary of soil sampling devices . . . .	388
12-3	Common laboratory testing methods . .	404

### FIGURES

<i>Figure</i>		<i>Page</i>
3-1	Modifiers to basic soil group names . . .	22
3-2	Flow chart for inorganic fine-grained soils, visual method . . . . .	23

# FIELD MANUAL

## FIGURES (continued)

<i>Figure</i>		<i>Page</i>
3-3	Flow chart for organic soils, visual method . . . . .	24
3-4	Flow chart for coarse-grained soils, visual method . . . . .	25
3-5	Plasticity chart . . . . .	35
3-6	Sample of test results summary . . . . .	53
4-1	Field classification of igneous rocks . . .	60
4-2	Field classification of sedimentary rocks . . . . .	61
4-3	Field classification of metamorphic rocks . . . . .	62
4-4	Field classification of pyroclastic rocks .	63
4-5	Charts for estimating percentage of composition of rocks and sediments .	64
4-6	Descriptor legend and explanation example . . . . .	67
4-7	Permeability conversion chart . . . . .	87
5-1	Rock Quality Designation (RQD) computation . . . . .	96
5-2	Comparison of true and apparent spacing . . . . .	101
5-3	Examples of roughness and waviness of fracture surfaces, typical roughness profiles, and terminology . . . . .	108
5-4	Uniform shear zone . . . . .	115
5-5	Structured shear zone (two zones or layers) . . . . .	116
5-6	Structured shear zone (three layers) . .	116
5-7	Uniform shear zone with veinlets . . . . .	116
5-8	Uniform shear zone (composite) . . . . .	117
5-9	Standard descriptors and descriptive criteria for discontinuities . . . . .	121

# CONTENTS

## FIGURES (continued)

<i>Figure</i>		<i>Page</i>
6-1	Process of engineering geology mapping . . . . .	131
6-2	Sample trench log . . . . .	160
6-3	Sample completed trench log . . . . .	165
6-4	Tunnel mapping form with key alphanumeric descriptors and mapping data . . . . .	173
6-5	Tunnel mapping form with blocks for title and geologic data . . . . .	174
6-6	As-built summary geology tunnel map .	179
6-7	Full periphery mapping method layout . . . . .	186
6-8	Full periphery geologic map example . .	188
6-9	Map layout of a tunnel for geologic mapping . . . . .	191
6-10	Relationship of planar feature trace to map projections . . . . .	192
7-1	Equatorial equal area net . . . . .	209
7-2	Discontinuity log field sheet . . . . .	210
10-1	Drill hole log, DH-123 . . . . .	253
10-2	Drill hole log, B-102, for Standard Penetration Test . . . . .	255
10-3	Drill hole log, DH-SP-2 . . . . .	259
10-4	Drill hole log, SPT-107-2 . . . . .	261
10-5	Drill hole log, DH-DN/P-60-1 . . . . .	270
10-6	Daily drill report . . . . .	292
10-7	Water testing record . . . . .	299
10-8	Use of half-round to protect core . . . . .	301
10-9	Standard N-size core box . . . . .	303
10-10	Log of concrete and rock core . . . . .	308
11-1	Log of test pit or auger hole . . . . .	314
11-2	Clean coarse-grained soils . . . . .	315

# FIELD MANUAL

## FIGURES (continued)

<i>Figure</i>		<i>Page</i>
11-3	Fine-grained soils . . . . .	316
11-4	Soil classifications based on laboratory test data . . . . .	317
11-5	Auger hole with samples taken . . . . .	318
11-6	Reporting laboratory classification in addition to visual classification . . . . .	319
11-7	Undisturbed soils . . . . .	320
11-8	Coarse-grained soils with fines . . . . .	321
11-9	Coarse-grained soils with dual symbols . . . . .	322
11-10	Reporting in-place density tests and percent compaction . . . . .	323
11-11	Soil with measured percentages of cobble and boulders . . . . .	324
11-12	Field form - soil logging . . . . .	329
11-13	Soil with more than 50 percent cobbles and boulders . . . . .	334
11-14	Borderline soils . . . . .	335
11-15	Test pit with samples taken . . . . .	336
11-16	Disturbed samples . . . . .	337
11-17	Two descriptions from the same horizon . . . . .	338
11-18	Drill hole advanced by tri-cone rock bit . . . . .	340
11-19	Log showing poor recovery . . . . .	342
11-20	Log of landslide material (a) . . . . .	343
11-21	Log of landslide material (b) . . . . .	344
11-22	Log of bedrock . . . . .	345
11-23	Geologic interpretation in test pit (sheet 1) . . . . .	350
11-24	Geologic interpretation in test pit (sheet 2) . . . . .	352

# CONTENTS

## FIGURES (continued)

<i>Figure</i>		<i>Page</i>
11-25	Geologic interpretation in test pit using a geologic profile (1) .....	353
11-26	Geologic interpretation in test pit (sheet 3) .....	354
11-27	Geologic interpretation in test pit (sheet 4) .....	355
11-28	Geologic interpretation in test pit using a geologic profile (2) .....	356
11-29	Geologic interpretation in test pit (sheet 5) .....	357
11-30	Geologic interpretation in test pit (sheet 6) .....	358
11-31	Geologic interpretation in test pit (sheet 7) .....	359
11-32	Geologic interpretation in test pit (sheet 8) .....	360
11-33	Geologic interpretation in test pit using a geologic profile (3) .....	361
12-1	Aquifer types .....	379
12-2	Typical monitoring well construction for water quality sampling .....	399
12-3	Soil and water sample identification labels .....	412
12-4	Chain-of-custody record .....	413
12-5	Custody seal .....	415
