

Table of Contents

CHAPTER 1—INTRODUCTION	1
Need for and Purpose of Action.....	1
Background Information.....	3
Scope.....	4
Water Resources	4
Recreation Resources.....	5
Public Safety	5
Land and Facility Resources.....	5
Unique Geographic Features.....	5
Fish and Wildlife Resources	5
Cultural Resource.....	6
Social and Economic Resources	6
CHAPTER 2—ALTERNATIVES	7
Preferred Alternative.....	22
No Action.....	7
Conventional Fish Ladder.....	7
Design	8
Construction.....	10
Operation, Maintenance and Replacement Measures.....	10
Water Supply for Fish Ladder.....	11
Downstream Rock Fish Passage	11
Design	11
Construction.....	12
Operation, Maintenance and Replacement Measures.....	15
Water Supply for Fish Passage	15
Downstream Rock Fish Passage	15
With Whitewater Recreation Features	15
Design	16
Construction.....	16
Operation, Maintenance and Replacement Measures.....	18
Water Supply for Fish Passage	19
Dam Removal	19
Design	19
Construction.....	21
Operation and Maintenance	22
Water Supply	22
Environmental Commitments	23
CHAPTER 3—AFFECTED ENVIRONMENT AND ENVIRONMENTAL CONSEQUENCES	25
General.....	25
Water Resources	26
Ute Water Conservancy District Pump Plant Intake.....	26
Water Rights	27
Clifton Water District—Downstream Water Quality	29

Ute Water Conservancy District Pump Plant—Spring Flooding	30
Recreation Resources	31
Public Safety	36
Land and Facility Resources	38
Protecting Existing Structures	38
Railroad and Landslide Stability	41
Ownership of Dam and Lands	44
Unique Geographic Features	47
Floodplain and Wetland Protection	47
Fish and Wildlife Resources	49
Effects on Endangered Colorado River Fishes	50
Cultural Resources	53
Protect Historic Dam	53
Indian Trust Assets	55
Environmental Justice	56
Social and Economic Factors	56
Hydropower	56
Costs and Benefits	57
Cumulative Impacts	59
Summary and Mitigation Measures	60
CHAPTER 4—CONSULTATION AND COORDINATION	63
Plan Formulation and Public Scoping Activities	63
Public Comment of Revised Supplement Draft EA	65
Consultation with other Agencies	81
Distribution List	81
REFERENCES CITED	83
