

**Notes from Budget Ad Hoc Group Meeting
On August 25, 1999**

Develop the budget to reflect different types of information requested by the AMWG/TWG.

Track the budget so you can generate reports that show:

- Sources of revenue (i.e., AMP-Power Revenues, O&M, Sec. 8, etc.)
 - For each project or activity show the sources of revenue that support it

- Employee related expenses (ERE)
 - For each employee develop a table that shows how they are spending their time

- Aggregate costs by activity
 - **Show, for each activity/project, the total costs for that activity, in terms of GCMRC personnel, contracts, logistics, survey expenses, travel, space & facilities, etc.**

- **Add a section on Frequently Asked Questions (FAQs) that address issues such as: the costs for logistics, costs for biological opinion related work, costs for PA work, In-house science vs. competitive RFPs, what is included in overhead, etc.**

- Develop a table for contracts that shows how the contracted work relates to specific MOs and INs

- Add a 2-3 sentence narrative that describes what is being done for each project and why it is being done

Status:

- GCMRC is developing organizational codes so that they can produce the requested reports.
 - Will require an additional .25 -.5 FTE in year one to input data and generate reports.
 - **See Attached Table 1 for example of an "Aggregate Costs by Activity" report.**
 - See Attached Table 2 for example of an "Employee Related Expenses" report.
 - See Attached Table 3 for an example of a "Sources of Revenue" report.
 - See Attached "Table 2.1" for an example of the information that will be included in the FY 2001 Work Plan showing the **relationship between activities and MOs and INs**
 - See Attached "Table 2.2" for an example of the information that will be included in the FY 2001 Work Plan showing **total activity/project expenses**
- List of Frequently Asked Questions (FAQs) needs to be developed with input from TWG/AMWG

Completion Date: Will have budget formats, narratives and FAQs ready for review at January 21-22, 2000 AMWG meeting

Notes:

- Costs prior to and including FY-00 are for contracts only. Salary, logistics, and other costs are not included.
- Beginning in FY-01, actual costs for FY-00 and budgeted costs will be reported using a total cost accounting method.
Project costs will include contract, salary, logistics, survey and other operating expenses associated with the project.
