

FY 2011 Work Plan Update

**John Hamill – Chief, Grand Canyon
Monitoring and Research Center,
Flagstaff AZ**

**Adaptive Management Work Group
February 9, 2011**

Background

- **FY 2011 work approved by the SOI—all AMWG recommendations were accepted**
- **Printed copy is available**

Current Status

- Operating under a continuing resolution
- Several unplanned activities/events have impacted implementation of the FY 11 work plan
 - Structured decision making work plan
 - EA reviews
 - Science planning to support EA's
 - HFE synthesis
 - Loss of key personnel in the Biology Program

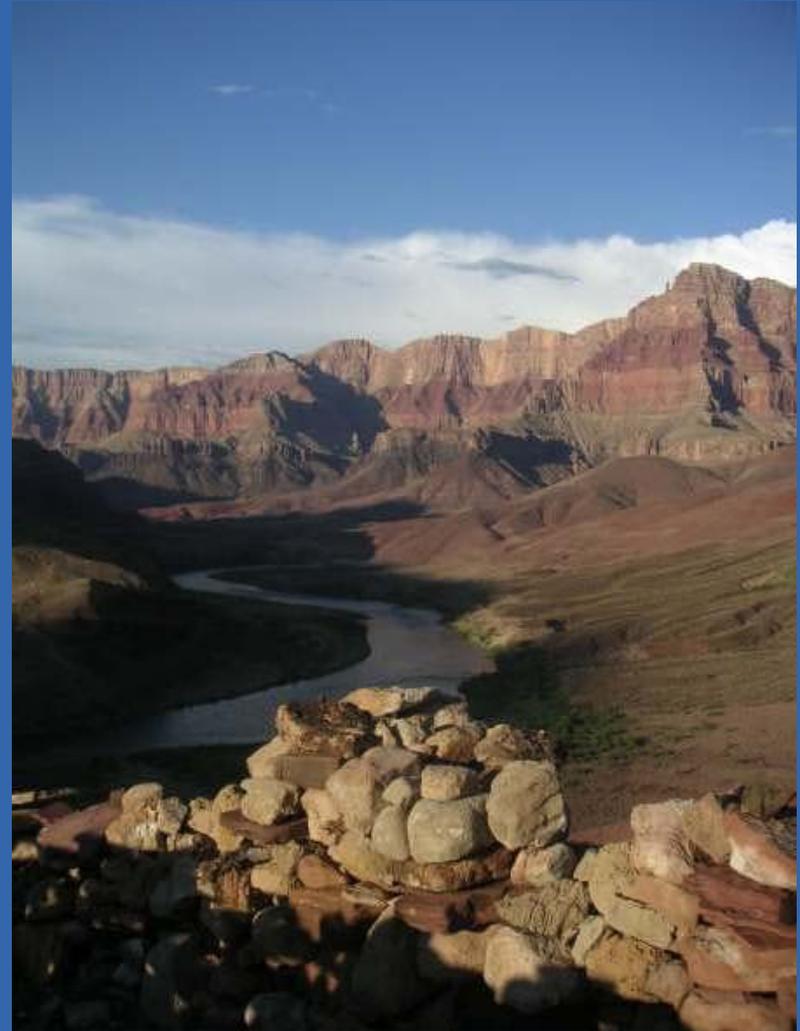

Impacted Projects

- Core Monitoring Plan Revision
- Knowledge assessment workshop
- Planning for and implementation of the FY 11 water quality/aquatic food base PEP
- Development of the native fish core monitoring plan for TWG review
- Tribal monitoring integration workshop

Most work plan elements are on track

Next Steps

- Review budget impacts of HFE and Nonnative Fish Control Science Plan (FY 11 and FY 12)
- Potential Spring 2011 HFE may impact certain work plan items

Thank you!
