

TWG REPORT 2013 HYDROGRAPH

Chairperson: Shane Capron

2013 Hydrograph – TWG Actions

Concerns: (1) impacts of an HFE on the hydrograph, and (2) request for financial analysis of the proposed hydrograph

At its June 2012 meeting, the TWG passed the following motion by consensus.

TWG recommends to the AMWG to recommend to the Secretary of the Interior his approval of the DOI-DOE Proposed Hydrograph for Water Year 2013

Financial Impacts of 2013 Hydrograph

- Analysis of net revenue difference between targeted and non-targeted approaches
- Based on Reclamation monthly volumes, most probable release and maximum probable (June)
- July and August were the only differences in water volume, 1,000 af more in July and 1,000 af less in August
- Result: negligible difference in dollars
- Under Reclamation's maximum probable release scenario the difference increases to \$1.8 million in costs for targeted.
