Background Information

Sarah is currently working with Michael Runge in scheduling meetings to visit the tribes one-on-one to discuss the performance measures for LTEMP. Our first meeting will be on May 3 with the Hualapai Tribal Council in the morning and then a public meeting in the afternoon. Meetings with Zuni, Hopi, Navajo, and Southern Paiute are tentatively scheduled for the week of May 13.

Sarah is working on finalizing the Tribal Consultation Agreement. Delays in this being finalized have been because of LTEMP.

Sarah will be working closely with the Hualapai Tribe with regard to their Traditional Ecological Knowledge (TEK) project which is being funded by BoR. Sarah is also looking into possible pilot projects that could be accomplished in order to integrate TEK into AMWG program.
