

# RECLAMATION

*Managing Water in the West*

## **Glen Canyon Dam Adaptive Management Program Goals**

*Adaptive Management Work Group Meeting*

*August 22-23, 2018*

U.S. Department of the Interior  
Bureau of Reclamation

# DOI Guidance to AMWG

- DOI, through the Secretary's Designee, provides guidance to the AMWG at regularly scheduled AMWG meetings
- Secretary's Designee guides AMWG to focus on specific issues of importance as they become a higher priority.
- Secretary's Designee approves meeting agendas ensuring time is focused on issues of priority.

RECLAMATION

# LTEMP ROD commitments

- Update GCDAMP guiding documents
  - Work group including AMWG members and DOI representatives
  - Target completion: end of FY 2019
- Develop monitoring metrics
  - Work group including GCMRC scientists, TWG members, and DOI representatives
  - Target completion: end of FY 2019

# LTEMP ROD

- In developing the LTEMP EIS, DOI identified 8 objectives and 11 resource goals to improve resources within the Colorado River Ecosystem through experimental and management actions.
- These objectives and resource goals were considered in the formulation and development of alternatives in the EIS, and the decision to select Alternative D in the ROD.

# LTEMP Objectives

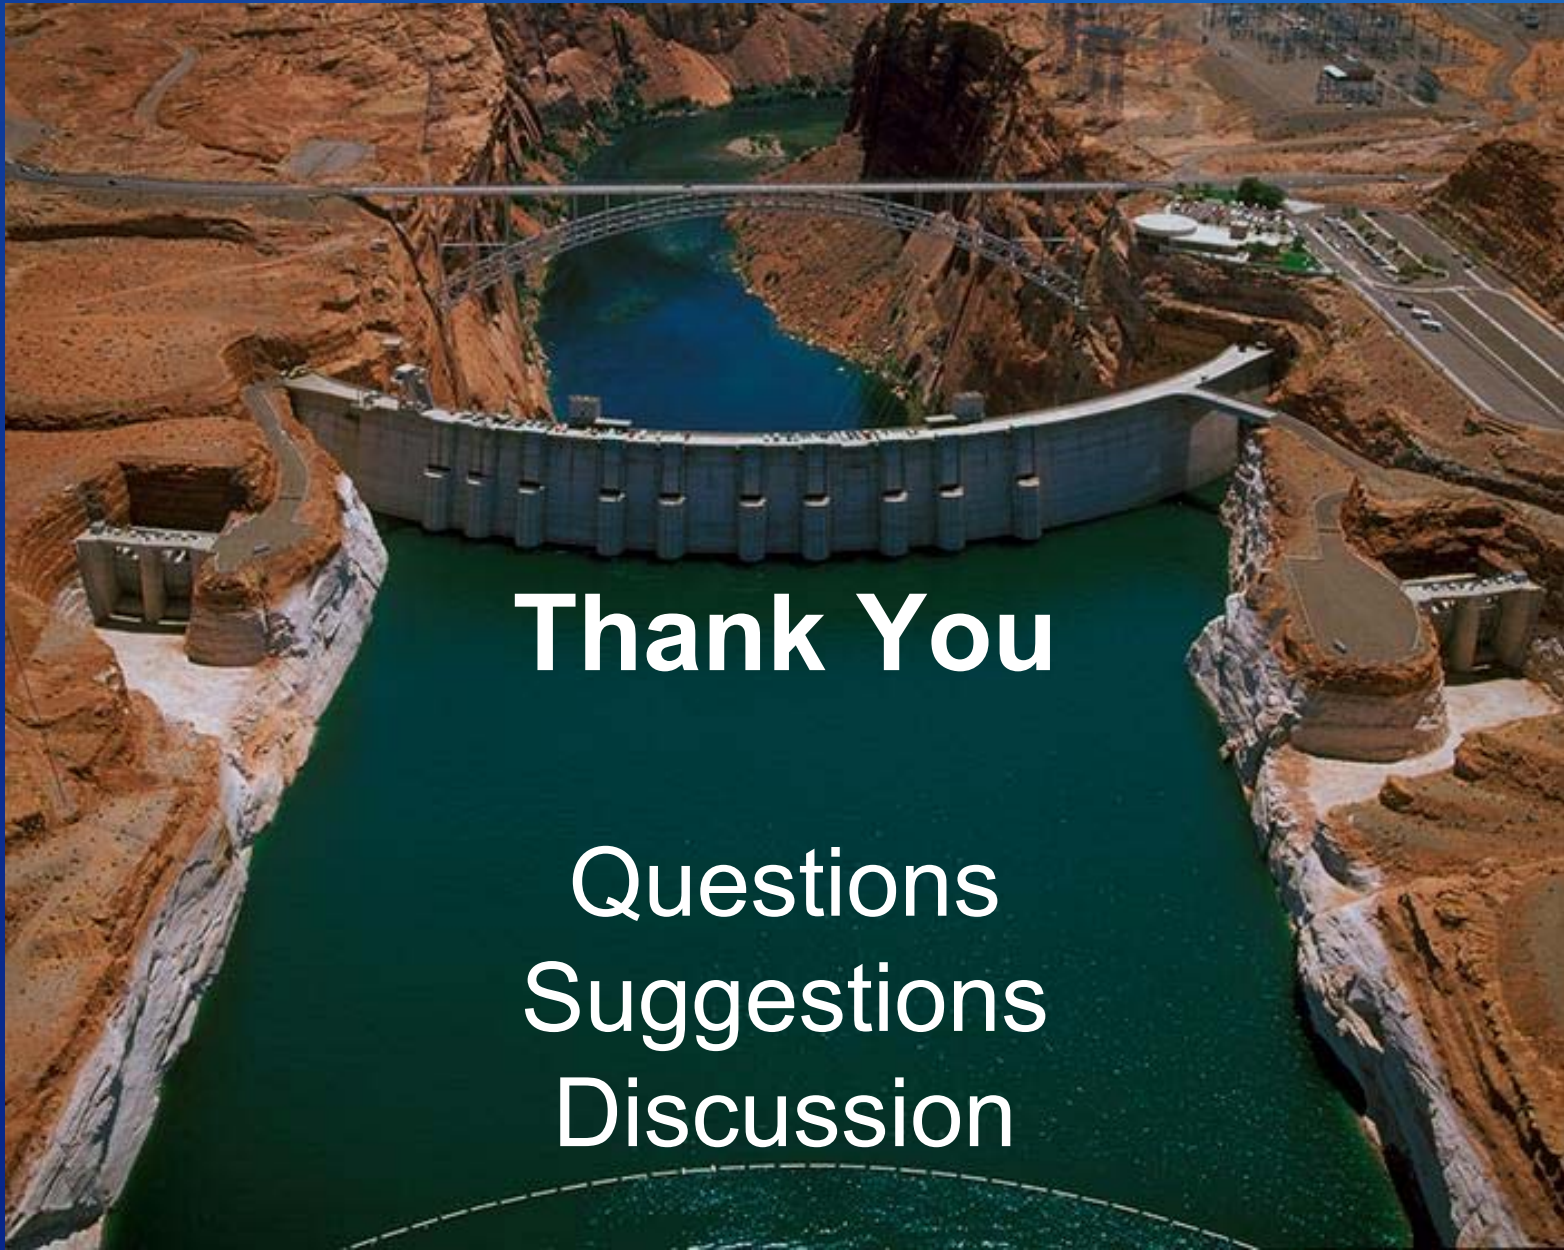

1. compliance with water allocation laws, regulations, and guidelines
2. water delivery
3. scope of flow and non-flow actions
4. hydropower generation and capacity
5. Tribal interests
6. use of the latest scientific findings
7. adaptive management
8. compliance with federal laws.

RECLAMATION

# LTEMP Resource Goals

1. archaeological and cultural resources
2. natural processes
3. humpback chub
4. hydropower and energy
5. other native fish
6. recreational experience
7. Sediment
8. Tribal resources
9. rainbow trout fishery
10. nonnative invasive species
11. riparian vegetation.
