Item 2017.Sep.01	<p>At its next meeting, AMWG will consider a process for planning for the next 20 years of LTEMP.</p> <p><u>February 2018 update:</u> This will be addressed through the development of monitoring metrics and by the streamlining of GCDAMP guiding documents as described in the LTEMP ROD.</p> <p><u>August 2018 update:</u> DOI will be working on this over the next year with input from the AMWG with the target to complete the process by the end of 2019. This action item will remain open until the entire process is completed.</p> <p><u>March 2019 update:</u> Personnel transitions in the program office and the government shutdown have impacted progress on this item. A more detailed update will be provided at the May webinar. This action item will remain open until the entire process is completed.</p>	Lee Traynham / target of end of calendar year 2019	Open
Item 2017.Sep.05	<p>AMWG will solicit expertise to address the group on hydropower in the greater context of regional energy.</p> <p><u>February 2018 update:</u> This will be addressed with a future agenda item.</p> <p><u>August 2018 update:</u> DOI did attempt to add this as a presentation for the August 2018 meeting; however, the presenter had to cancel. This action item is still open and DOI will continue to attempt to schedule this presentation.</p> <p><u>March 2019 update:</u> DOI reached out to the same presenter, but he is now retired and was not available. Kathy proposed that this item be closed unless someone can suggest another speaker. Tim Petty asked that anyone with suggestions for speakers provide those to Kathy Callister. (See new action item below.)</p>	Katrina Grantz / none	Closed

Item 2018.Sep.01	<p>BOR will send the temperature control paper to the AMWG when it is available.</p> <p><u>March 2019 update:</u> Connie Svoboda from Technical Services at Reclamation is working to document the current state of practice on temperature control devices, identifying needs and research gaps, developing partnerships, identifying subject matter experts, and then recommending future actions, which could potentially include a price competition. Connie is delayed in completing this due to an interruption in her work but expects to work on it soon.</p>	Emily Omana Smith / when available	Open
Item 2018.Sep.02	<p>GCMRC has agreed to:</p> <p>(1) conduct a scientific assessment of the effects of past experimental high flows (including powerplant capacity flows) at Glen Canyon Dam on high valued resources of concern to the GCDAMP (i.e., recreational beaches, aquatic food base, rainbow trout fishery, hydropower, humpback chub and other native fish, and cultural resources); and</p> <p>(2) present initial findings in a written summary at the 2019 Annual Reporting Meeting and the March 2019 AMWG meeting for review and discussion.</p> <p>A next step would be for GCMRC to identify experimental flow options that would consider high valued resources of concern to the GCDAMP (defined above), fill critical data gaps, and reduce scientific uncertainties.</p> <p><u>March 2019 update:</u> GCMRC will hold a panel discussion on this subject during the 2019 Annual Reporting Meeting. The Annual Reporting Meeting was originally scheduled to be held in advance of this March 2019 AMWG meeting, but was delayed until afterward due to the government shutdown. GCMRC will report the results to AMWG during the May 2019 webinar.</p>	Scott VanderKooi / 2019 Annual Reporting Meeting and March 2019 AMWG meeting	Open
