Glen Canyon Dam Adaptive Management Program – Knowledge Workshops

Bureau of Reclamation

Why?

- FY28-30 Triennial Work Plan
 - Background on each resource
 - Better understanding of what we know and what we don't know
- LTEMP 10-Year Review
 - “DOI will conduct a comprehensive review after October 1, 2027, to evaluate what has been learned from the experimental studies and an evaluation of resource conditions after 10 years of LTEMP operational experience.” (LTEMP ROD p. 20-21)

Goals

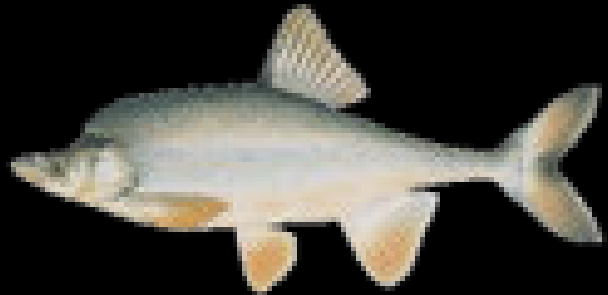

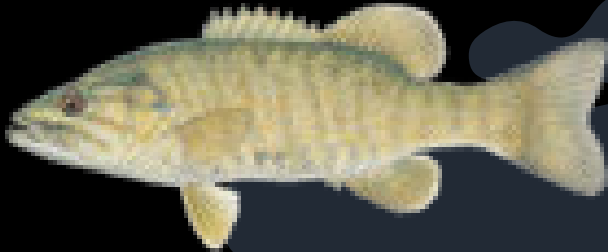

Provide baseline background information on the resource goals of LTEMP to create shared understanding of the resource and resource conditions.

Identify potential knowledge gaps and understanding from stakeholders and discuss ways to try to address those gaps moving forward. In short, an evaluation of what stakeholders feel they don't fully understand and where their insights or knowledge could be improved.

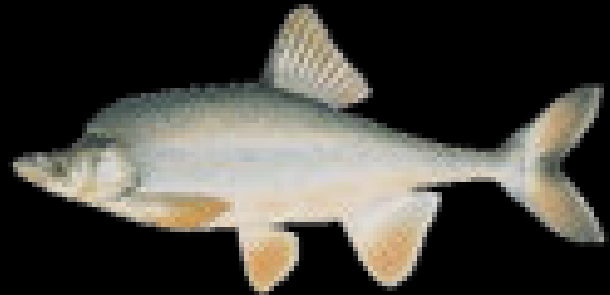

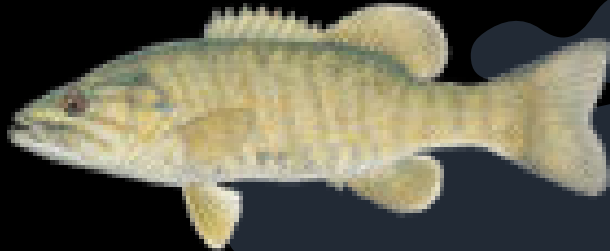

Overview

- History of Fishery
- Focused on monitoring strategies
- Flirted with ESA compliance
- Reached out to Upper Basin perspective
- Tribal perspectives highlighted cultural dimensions of fish management
- How are we addressing uncertainties?
- Future conditions, key takeaways, next steps

Takeaways

- Clarify Short-, Medium-, Long-Term Actions
- Review Nonnative Strategic Plan
- History of Nonnative Fish
- Evaluate risk tolerance to ESA species
- Monitoring capacity and metrics need clearer priorities
- Need for adaptive, rapid-response management
- Hotspots and habitat modification options
- Science review needed
- And more.....

Cultural and Archaeological, Recreation (Whitewater), Sediment, Vegetation Knowledge Workshop

- Workshop Date – September 22-24, 2026
- Survey for feedback sent out April 29, 2026
- Contacts
 - Kelly Burke, Carrie Cannon, Jakob Maase, Sinjin Eberle – TWG and Tribal Liaisons
 - Bill Stewart, Jeremy Hammen – Reclamation
 - Mark Anderson - GCMRC
 - Seth Cohen - Udall
- Coordinate with anyone above for the Survey
- Will close at the end of week (May 15, 2026)
- Future Workshops
 - Natural Processes, Rainbow Trout Fishery, Recreation (Angling) – November 3-5, 2026
 - Program Processes and Tribal Resources – Summer of 2027
