RE: GLEN CANYON DAM LONG-TERM EXPERIMENTAL AND MANAGEMENT PLAN (LTEMP) DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT (DSEIS) – 89 FR 28, February 9, 2024

Price City's Interest in LTEMP DSEIS:

Price City is a municipally owned electric utility and Colorado River Storage Project ("CRSP") preference customer. Price City's CRSP allocation provides power to at least 4,987 customer points of delivery and approx. 9,000 of residents and generates on an annual basis 5,289 of energy for our community, basically 8% of our energy need.

Price City Supports UAMPS' Comments:

As a member of Utah Associated Municipal Power Systems ("UAMPS") Price City supports the comments submitted UAMPS. In particular, UAMPS joins CREDA's comments addressing the following issues in particular:

1. Clarification of flow analysis (disrupt vs. prevent)
2. Details on all flow options
3. Need for more information regarding the smallmouth bass and the slough analysis
4. Effect of bypass of generation on power cost and costs to our electric customers

Sincerely,

A handwritten signature in blue ink that reads "Nick Tatton".

Nick Tatton, Administrative Director
Price City
