RE: Upper Colorado River Commission Comments on the Draft Supplemental Environmental Impact Statement for December 2016 Record of Decision Entitled Glen Canyon Dam Long-Term Experimental and Management Plan

Dear Ms. Callister:

Thank you for the opportunity to comment on the Draft Supplemental Environmental Impact Statement ("Draft SEIS") for the December 2016 Record of Decision entitled Glen Canyon Dam Long-Term Experimental and Management Plan.

The Upper Colorado River Commission ("UCRC") is a Cooperating Agency in this process. The UCRC endorses and supports the comments from the Upper Division States of Colorado, New Mexico, Utah, and Wyoming regarding the Draft SEIS, which are incorporated herein by reference. The Upper Division States's comments will also guide the UCRC's participation as one of the Cooperating Agencies in the development and preparation of the Final SEIS.

The Federal Commissioner to the UCRC did not participate in the composition of this comment letter and takes no position regarding its content.

Please contact me if you have any questions regarding this letter or the UCRC's participation as a Cooperating Agency. The UCRC looks forward to working with Reclamation to finalize the SEIS.

Sincerely,

Charles R. Cullom  
Executive Director
