

**Glen Canyon Dam Adaptive Management Work Group  
Recommendations from the Ad Hoc Committee on Strategic Planning**

January 20, 2000

1. The Ad Hoc Committee for Strategic Planning recommends to the AMWG that it direct the Ad Hoc Committee on the NRC Report "Downstream" to address the socio-economic concerns expressed in "Downstream."
2. The Ad Hoc Committee for Strategic Planning recommends to the AMWG that the Ad Hoc Committee on Strategic Planning be charged by AMWG to do the following:
  1. produce the first draft of MOs for the TWG.
  2. obtain comments on that draft from the TWG.
  3. incorporate TWG comments into a second draft and revise Goals and Objectives as necessary.
  4. meet with the TWG to review revised Goals and MOs and responses to comments, and make any further needed revisions, and
  5. present the Mos to the AMWG spring meeting for approval.

This timeframe will allow the GCMRC to incorporate the approved MOs into their 2002 budget, which is due in July.
